

contemporary issues

this documentation of the city illustrates the rich culture of China and its community is under dramatic change due to the corporate powers that hinder its citizens voices and lives. The countries demand for development expansion with international Architects threatens potential gentrification to its community. This story speaks of the importance of culture sensitivity and community when foreigners design in other territories

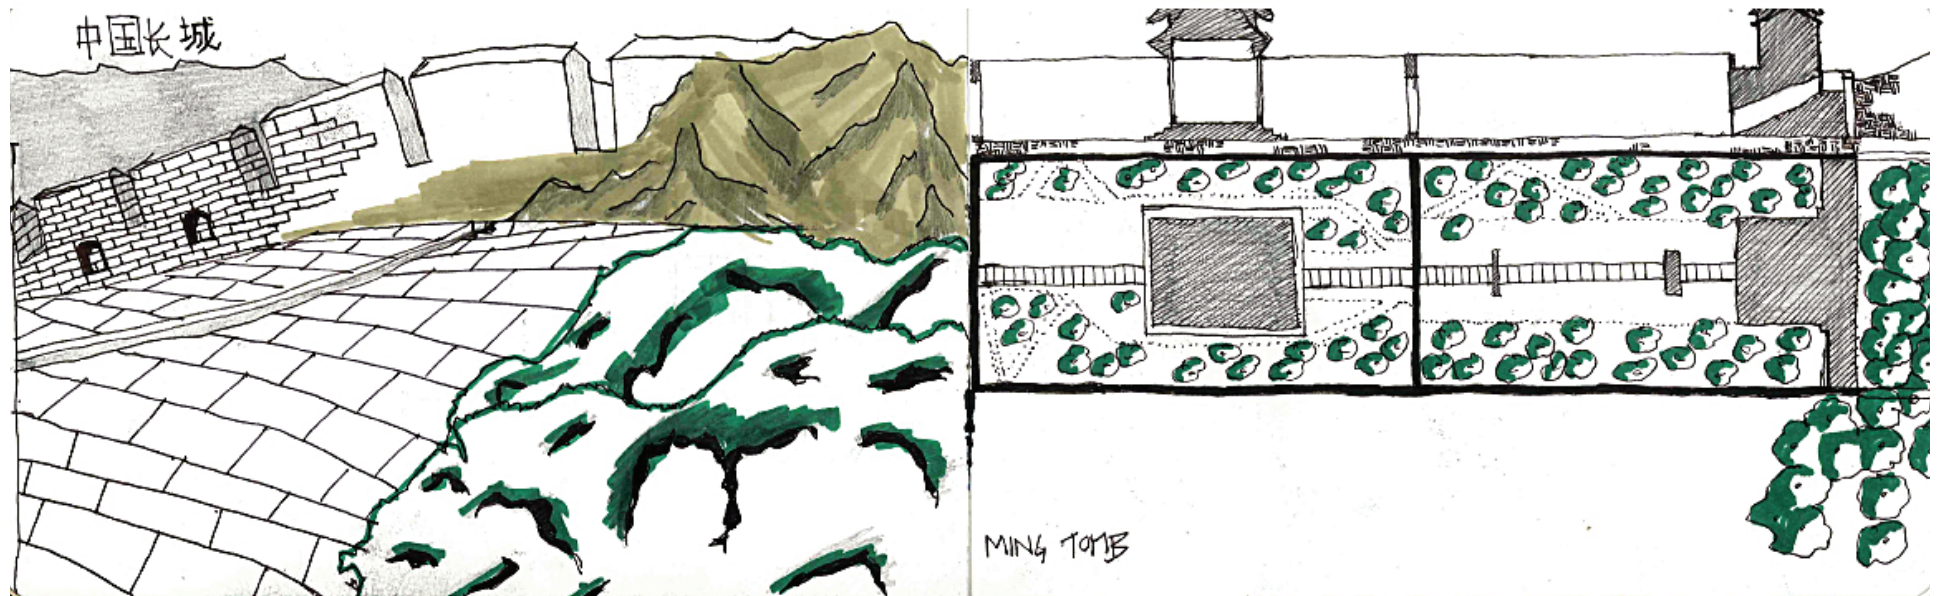

禁城

THE DICHOPTOMY OF DETAIL

"Beijing must be examined both as a symbolic form and a functional space" -Jianfei Zhu, Chinese Spatial Strategies
Centralize the government to make it the moral center for people nationwide.

中国长城

MING TOMB

"Ming defense relied more on army units stationed on strategic points along the Great Wall and the natural defensive Mountain ranges on the north, north-east and mostly the north-west of Beijing." - Jianfei Zhu, Chinese Spatial Strategies
The 15th century China physically modified their 200 BCE architecture for war.
