Cell Tower Strength
Existing

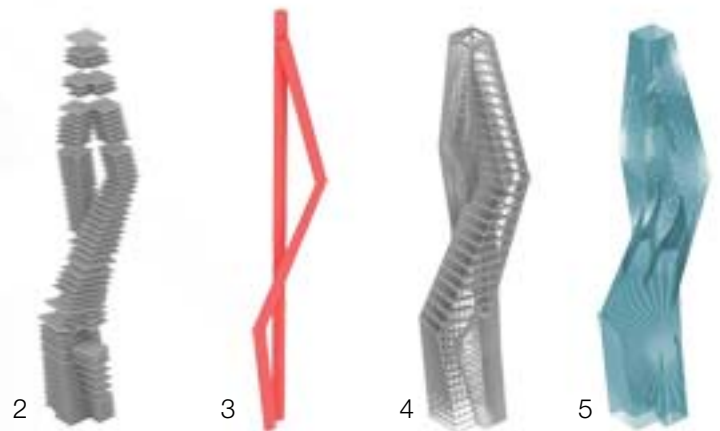

FP 65 Sky Lobby

Chicago Loop
Cell Tower Strength
Proposed

Building Elements

- 1 Communication Tower
- 2 Floor Circulation
- 3 Vertical Circulation
- 4 Frame Study
- 5 'Explosion' Skin

Verticalism

multi-use urban highrise
University of Illinois: Chicago
professor Elva Rubio
4th year undergrad
Spring 2010

Verticalism can broadcast the mobile network to the dense Chicago city-center. Chicago is given the center for the mobile world. The tower's infrastructure draws the communication industry to inhabit its spaces.
