Things I Enjoy

EXPERIENCE

Albwardy Engineering Enterpris, Dubai, UAE (2013 to Present)

Project 1: Hyatt Regency Addis Ababa, Ethiopia

Our company brought the property during its final stage of structural construction as IBIS and NOVOTAL hotels, owned previously by KHARAFI contractors, Our team were assigned to re work on the existing structure to add extra facilities which complies to five star rated hotel standards;

I had the opportunity to re design the project under the operator HYATT and their guidelines.

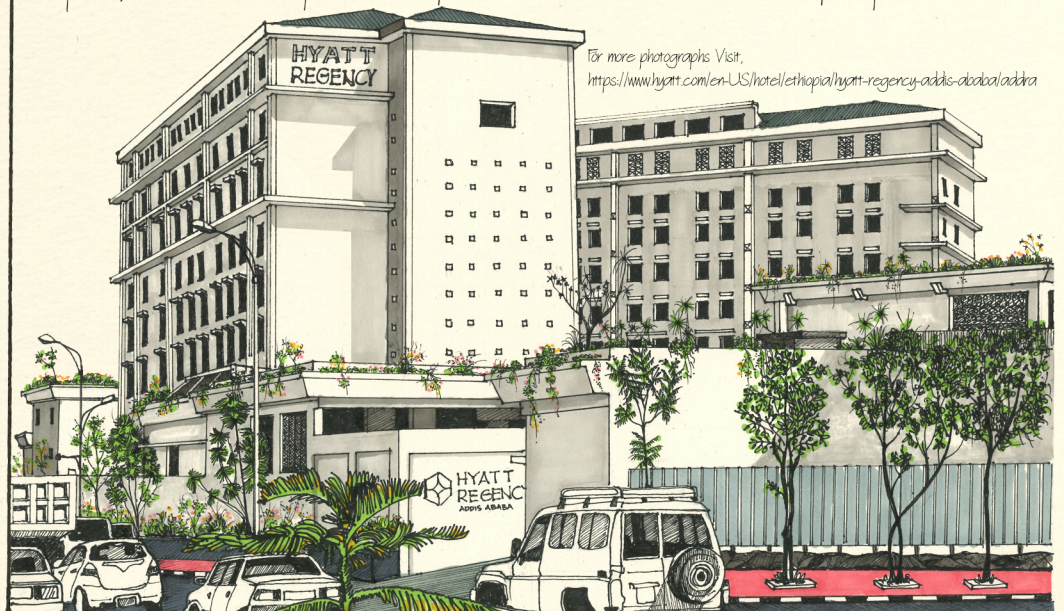

Following were my role in the project.

A Hand sketch on Lounge bar View- HR Addis

- Lead the project from inception to various stages until handover.
- Development of Concept Design, Schematic Design and Detail Design
- Single handily Produced all construction drawings and architectural schedules
- Collaborated with other consultants (MEP, FLS, Security, IT, interior, and all manufacture's) to determine design needs & requirements for the project. Arranged meetings to review thier - proposals and plans, making modifications or revisions as required.
- Prepared & maintained all project documents like correspondence, minutes of the meeting, supplier quotes, and then handled procurement of civil related materials and the interior fitout production

EXPERIANCE (Continues)

Albwardy Engineering Enterpris, Dubai, UAE (2013 to Present)

www.albenggg.com / www.albwardy.com

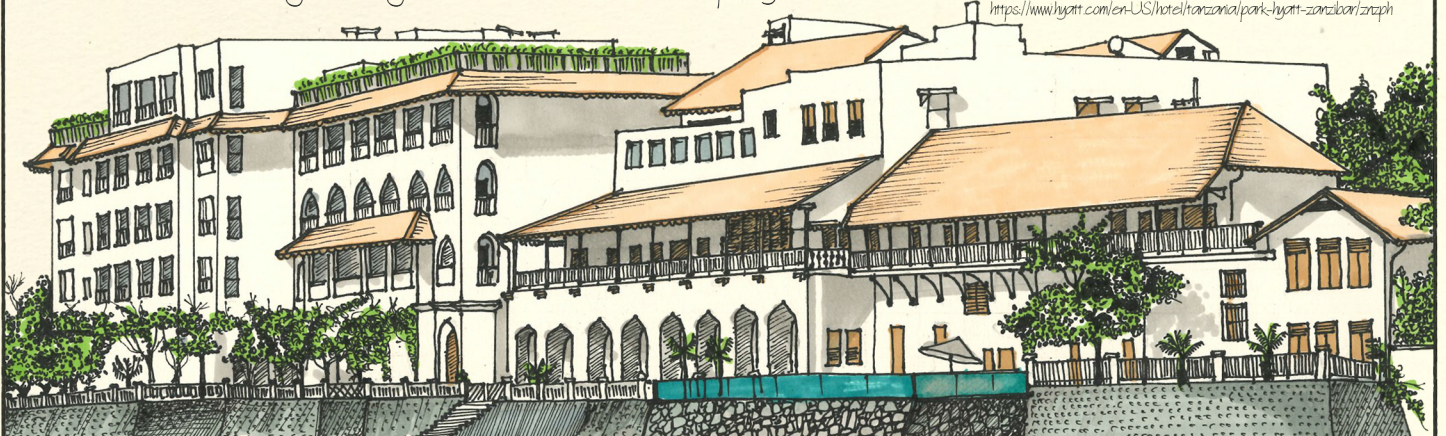

Project 2: Park Hyatt, Zanzibar, Tanzania

The hotel was proposed on a designated UNESCO heritage site (Stone town, Zanzibar)

There were two existing buildings, one of them Mambo Msiige, a building with a story dating back to the 17th century. And a typical Zanzibari mansion, Mambo Msiige is a unique gem with architecture that embraces Swahili culture alongside Arab, Persian, Indian and European elements.

Our tasks were to renovate both the building under UNESCO guidelines without losing its architecture. We have added Zamani residence connects to Mambo Msiige, blending old with new, historic with contemporary.
