

Hello, I'm Hayley.

I haven't always wanted to be an architect.

However, after falling into this profession accidentally I have uncovered an obsession of space, light, and environmental relationships.

Four years of schooling later and I couldn't image a life without inquisitive thoughts about building structures or techniques, becoming awe-struck at the most simple combination of forms and materials, or receiving a solid eight hours of sleep.

I may not have always known what path I would choose, but now that I am on it my dedication to this profession and my work is unmatched. In the following pages I have compiled examples of my work over the past few years.

Please enjoy.

Sincerely,

A handwritten signature in white ink on a dark gray background. The signature appears to be 'Hayley B.' with a large, stylized 'B' and a flourish at the end.

# SALK CENTER HOUSING

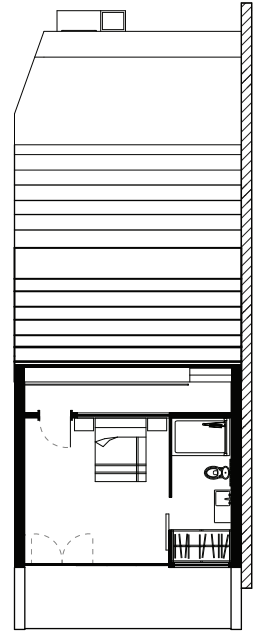

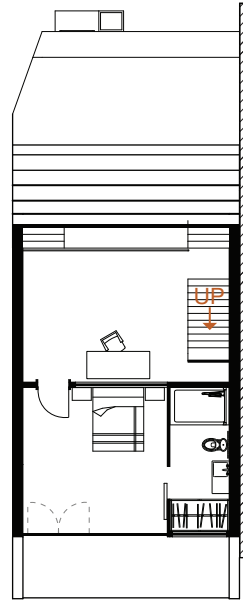

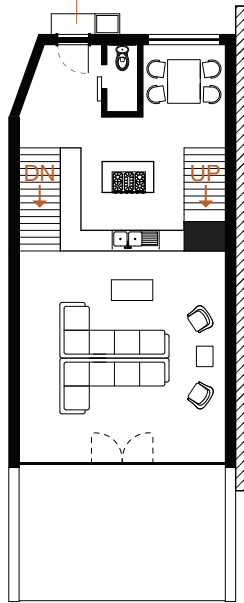

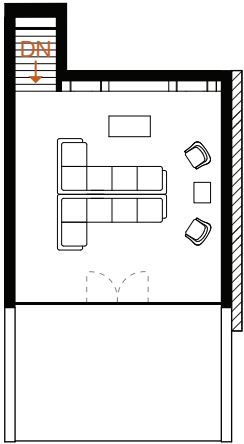

[ LA JOLLA, CALIFORNIA ]

IN THE SPRING OF 1962 CONSTRUCTION OF THE SALK INSTITUTE FOR BIOLOGICAL STUDIES BEGAN. DESIGNED BY LOUIS KAHN THE ORIGINAL PLANS FOR THE CAMPUS INCLUDED NOT ONLY LABORATORIES AND A MEETING HOUSE BUT ALSO HOUSING FOR THE SCIENTIST. UNFORTUNATELY THE ORIGINAL PLANS DID NOT REACH COMPLETION LEAVING THE HOUSING COMPLEX UNBUILT.

WHEN FIRST APPROACHED BY JONAS SALK, KAHN WAS REQUESTED TO CREATE A DESIGN THAT NOT ONLY WAS STRIKING BUT FUNCTIONAL, PRECISE BUT LIGHT, AND ALL WITH CAREFUL CONSIDERATION TO THE GORGEOUS VIEWS OF THE OCEAN TO THE NORTH.

# COOLAVIN PARK

## LEGACY TRAIL CONTINUATION

### [ LEXINGTON, KENTUCKY ]

FOLLOWING THE KENTUCKY HORSE PARK THE LEGACY TRAIL IS A PAVED PATH FOR BICYCLISTS AND PEDESTRAINS THAT CONNECTS DOWNTOWN LEXINGTON WITH MANY NEIGHBORHOODS, PARKS, AND OTHER RECREATIONAL AREAS IN LEXINGTON. THIS PROPOSAL TACKS ONTO THE IDEA OF CONTINUING THE LEGACY TRAIL DOWN FIFTH STREET TO INCLUDE THE ENTIRITY OF COOLAVIN PARK, AS WELL AS TWO OTHER PARKS IN THE HOPES OF EXPANDING LEXINGTONS ECONOMIC GROWTH AND, MORE IMPORTANTLY, COMMUNITY OUTREACH.

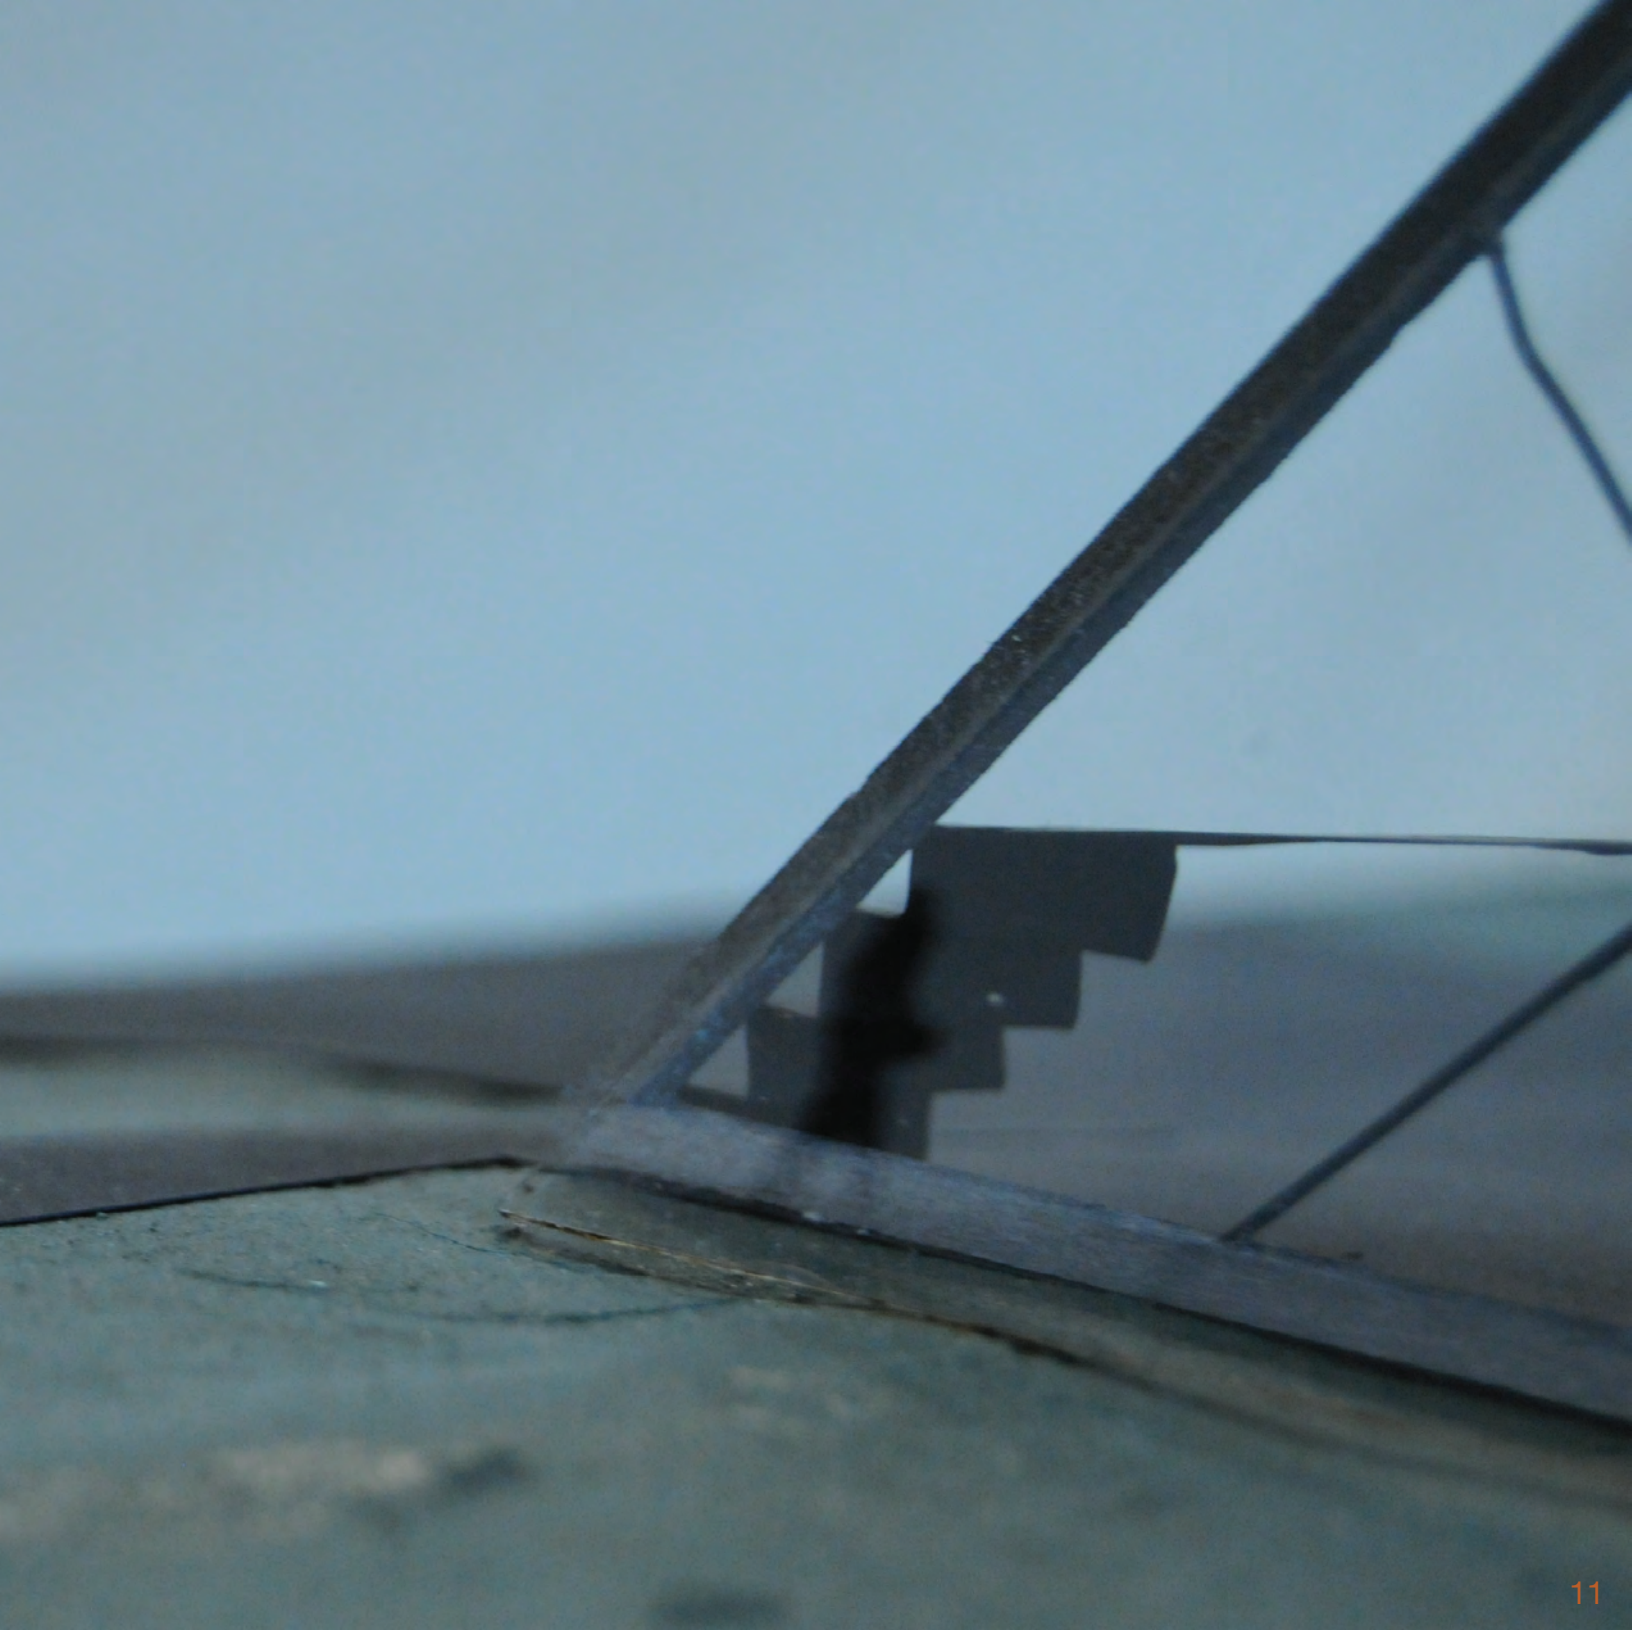

THE FOLLOWING IMAGES DETAIL THE PROPSAL FOR THE RENOVATION OF COOLAVIN PARK. A SERIES OF PAVILIONS WOULD BE CONSTRUCTED AS AN OPTIONAL EXTENSTION FOR LEGACY TRAIL PARTICAPANTS. HOWEVER EACH PAVILION IS ALSO DESIGNED WITH A SPECIFIC FUNCTION IN MIND TO HELP THE CITY PLAN AND EXCUTE OTHER COMMUNITY EVENTS.

# COOLAVIN PARK

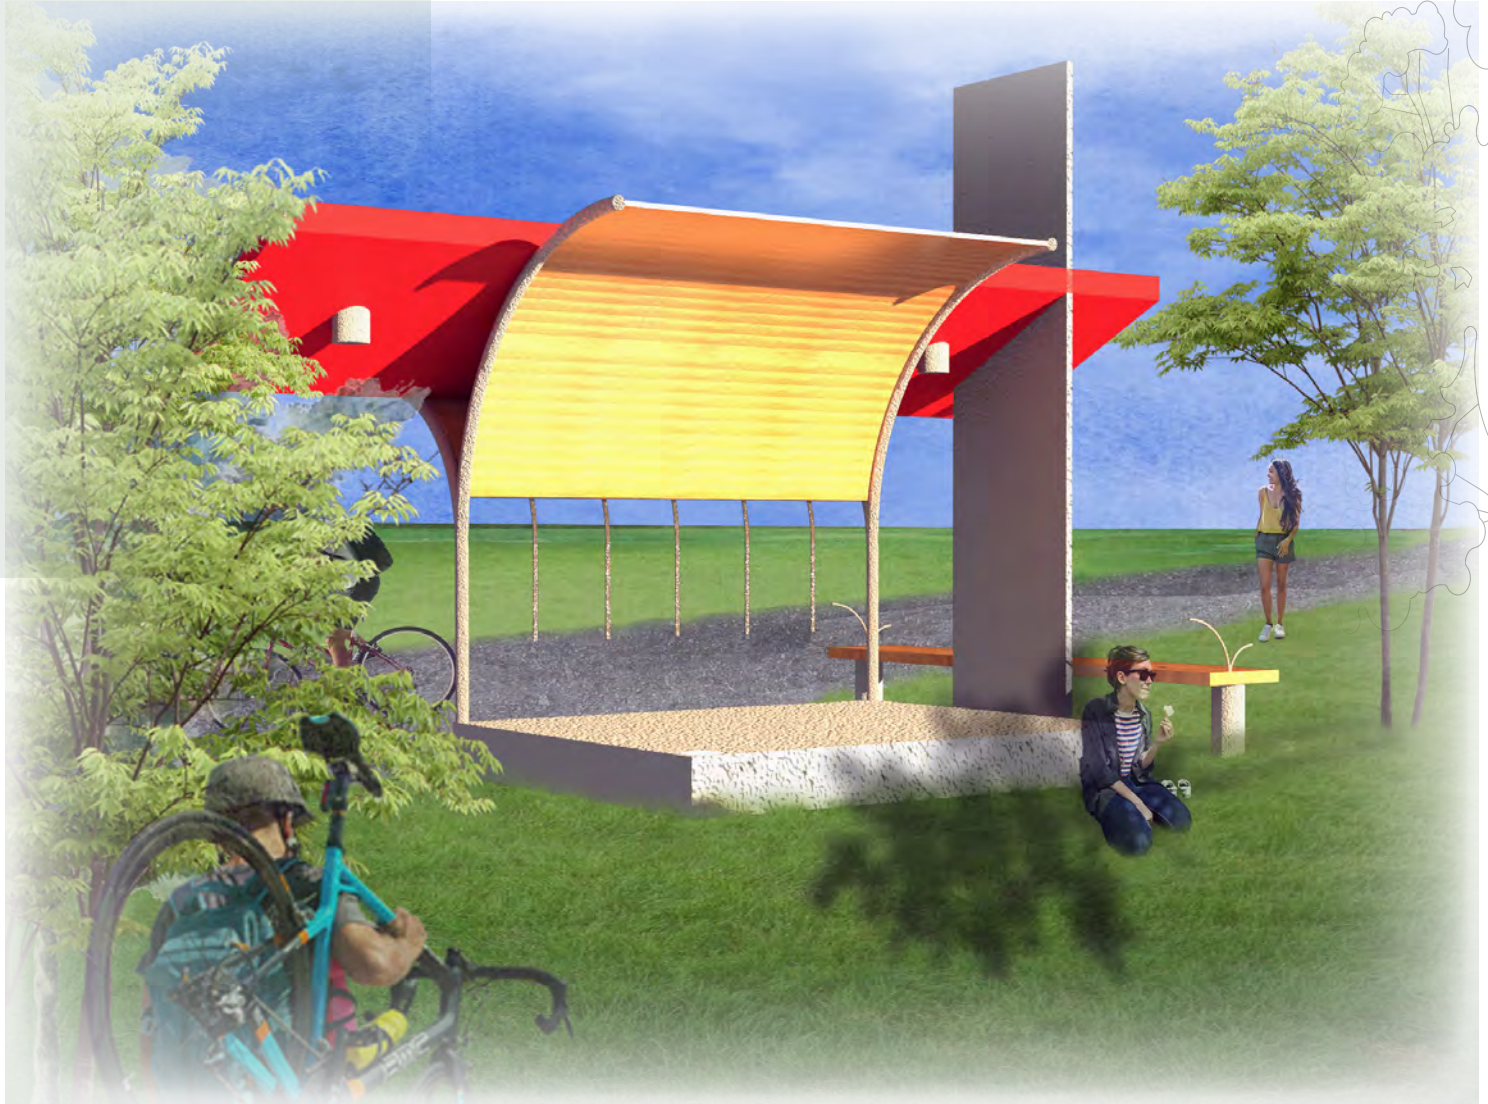

LEGACY TRAIL CONTINUATION

[ LEXINGTON, KENTUCKY ]

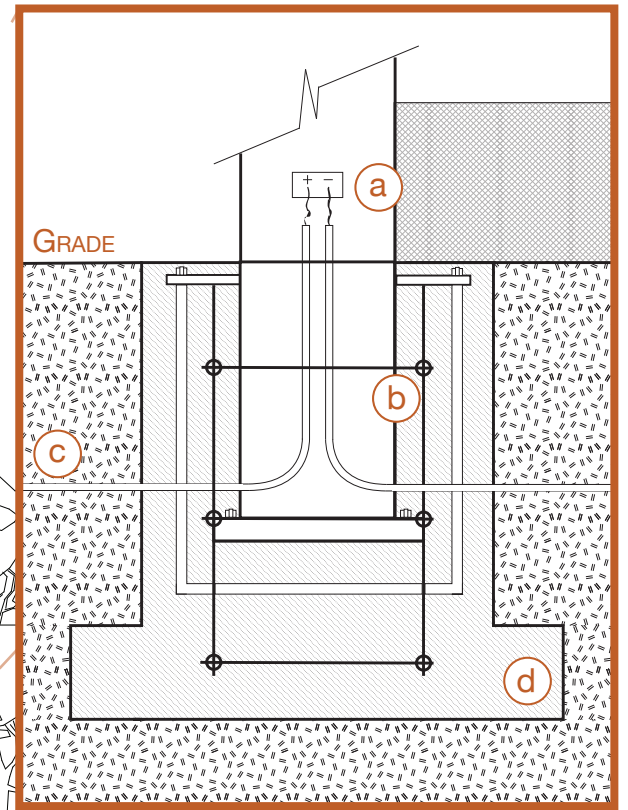

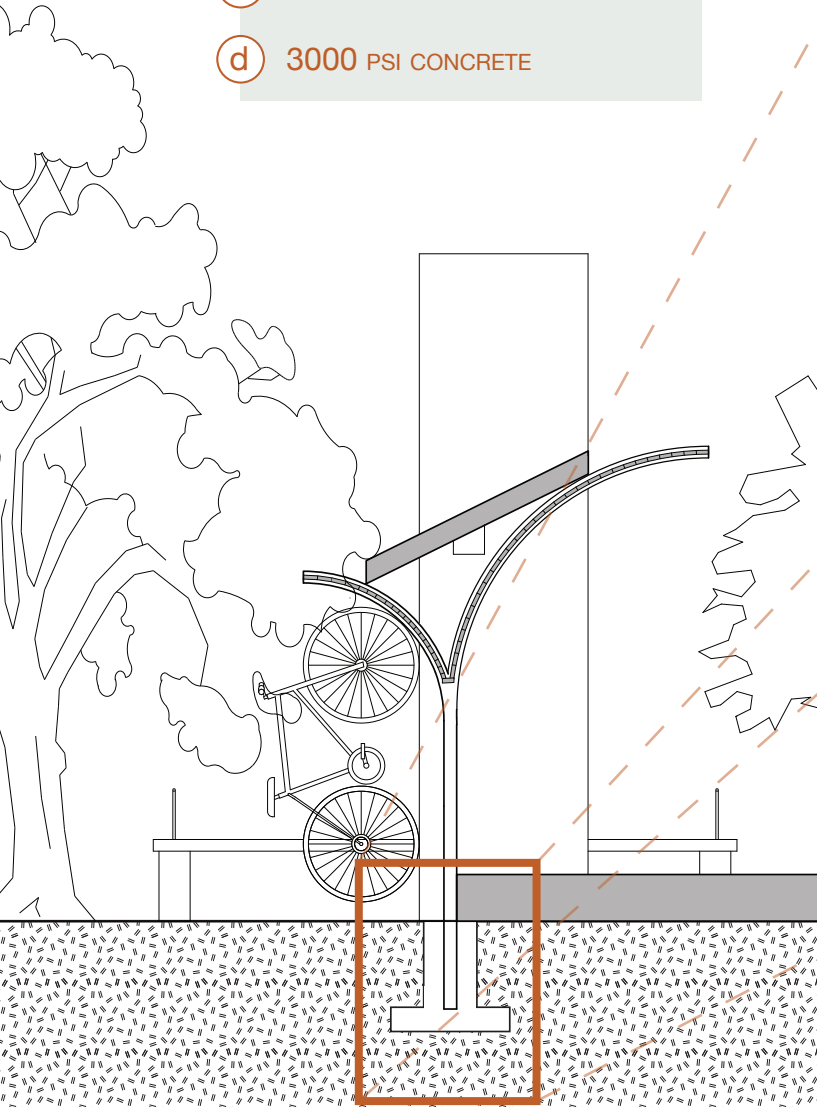

IN COLLABORATION WITH IRVIN SHAFIA

## KIOSK PROPOSAL

IN ADDITION TO THE REDESIGNING OF COOLAVIN PARK SMALL SCALE INSTALLATIONS WERE NEEDED TO FILL THE EXTENSION OF THE LEGACY TRAIL DOWN FIFTH STREET. THE FOLLOWING KIOSK PROPOSAL INCLUDES A DOUBLE SIDED STRUCTURE, ONE SIDE FOR STORAGE AND RENTAL OF BICYCLES, AND ONE SIDE FOR SMALL PERFORMANCES.

- a** GROUND LUG BONDED TO POLE
- b** REBAR WITH TIES
- c** ELECTRICAL CONDUIT
- d** 3000 PSI CONCRETE

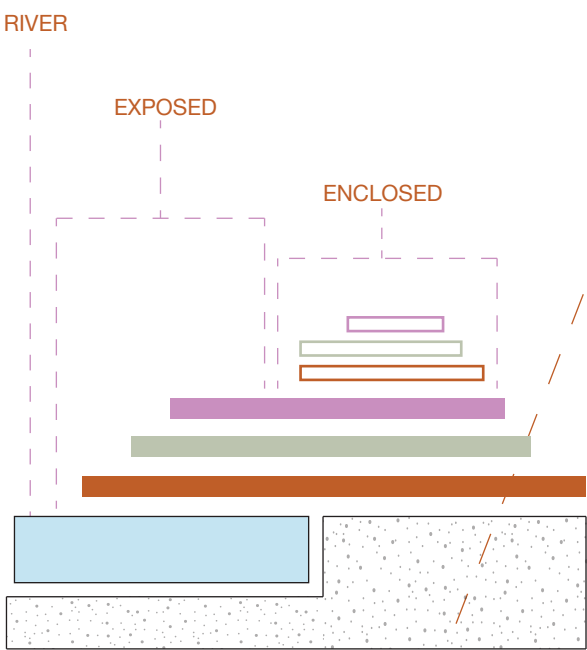

# RECREATION AND REHABILITATION

## [ BEATTYVILLE, KENTUCKY ]

THE RED RIVER GORGE LOCATED IN KENTUCKY DRAWS HIKERS AND CLIMBERS FROM ALL OVER THE WORLD. HOWEVER THE SMALL TOWN NEAR THE GORGE, BEATTYVILLE, VASTLY UNDERUTILIZES THE ECONOMIC POWER THIS SMALL NICHE HOLDS. UNFORTUNALY, A LARGE PORTION OF BEATTYVILLE LIES IN A DANGEROUS FLOOD ZONE AND IS RARELY USED DUE TO HIGH INSURANCE COSTS. LISTED ON THE FOLLOWING PAGES IS A PROPOSAL TO HANDLE RISING RIVER WATERS, AS WELL AS, A PROPOSAL FOR AN INDOOR/OUTDOOR ROCK CLIMBING CENTER AND PHYSICAL THERAPY FACILITY.

# TERRACING SYSTEM

BRENT STURLAUGSON'S STUDIO - SPRING 2017

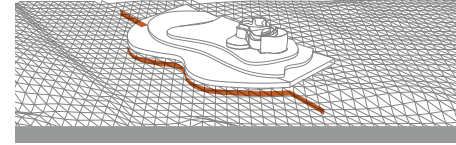

# FLOOD PREVENTION DIAGRAMS

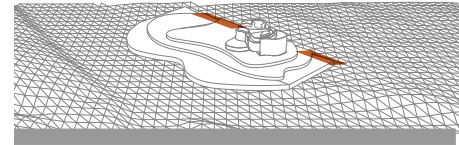

## FLOOD WALLS

BY RAISING THE HEIGHT OF THE EXTERIOR WALL  
THE PROGRESS OF RISING WATER CAN BE SLOWED

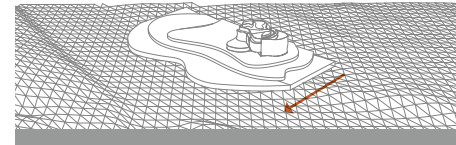

## BIORETENTION BASIN

ONCE THE WATER RISES OVER THE FLOOD WALLS  
EACH TERRACE LAYER IS EQUIPPED TO FILTER WATER  
THROUGH TO LARGE HOLDING TANKS UNDER A  
BIORETENTION BASIN

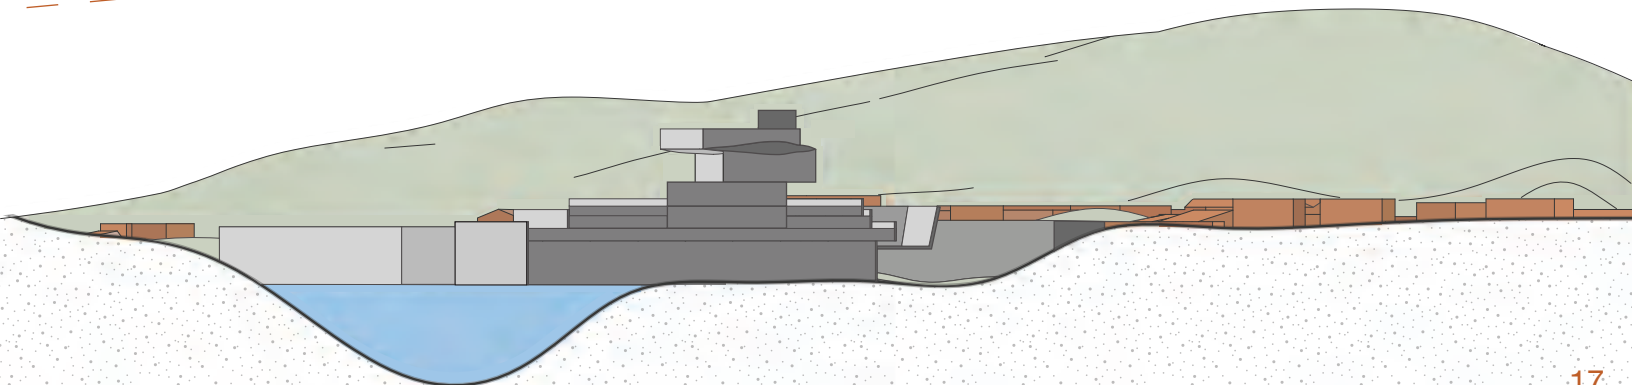

## DISCHARGE PUMP

IF THE TANKS FILL TO A LEVEL TOO LARGE TO RETAIN  
THE PLANT LIFE ABOVE A TIMED DISCHARGE PUMP  
WILL START TO RELEASE WATER FURTHER  
DOWN THE RIVER

LEVEL THREE

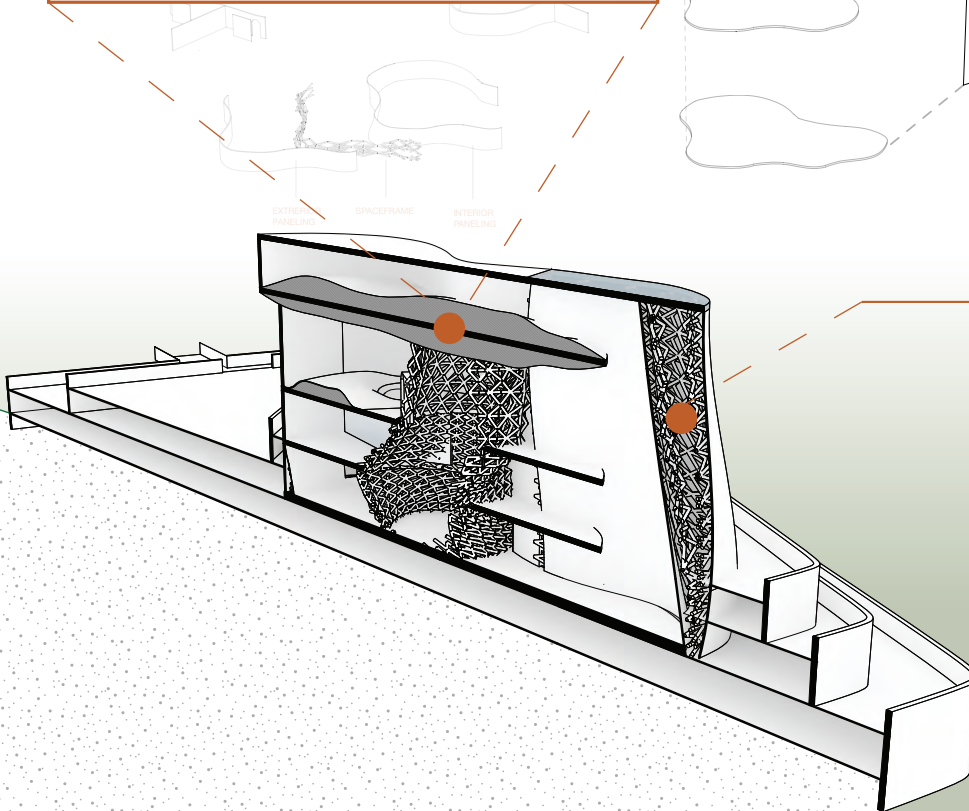

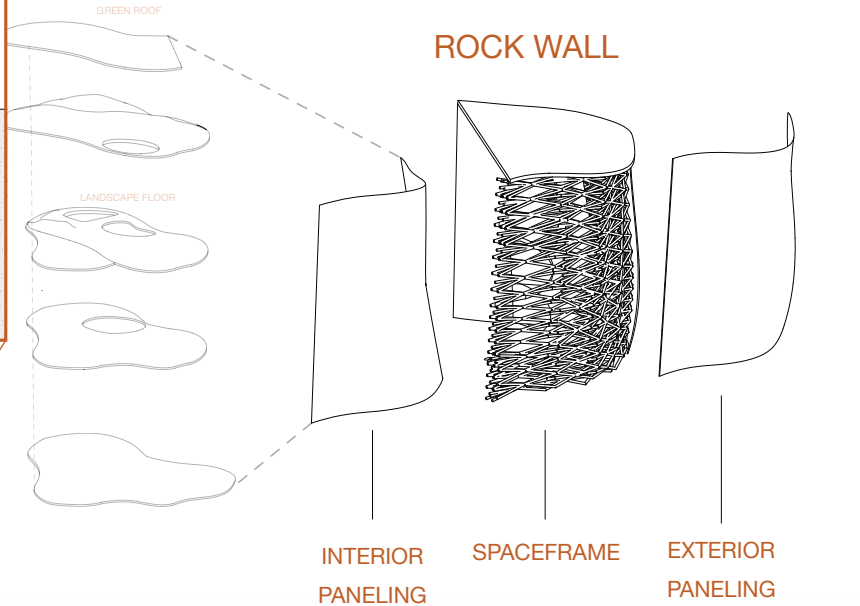

NORTH AND SOUTH ELEVATIONS

# THERAPY FLOOR

BEATTYVILLE IS LOCATED IN WHAT IS KNOWN AS A MEDICAL DESERT. THERE ARE FEW HOSPITALS AND EVEN LESS STAFF. BECAUSE OF THE HIGH PERCENTAGE OF INJURIES OBTAINED AT THE GORGE THERE IS A DRASTIC NEED FOR A PHYSICAL THERAPY SPACE. IN THIS DESIGN A FLOOR NOT ONLY UNDULATES, HELPING PATIENTS REGAIN CORE STRENGTH AND BALANCE, BUT ALSO DOUBLES AS A BOULDERING CAVE UNDERNEATH. THIS IDEA COMBINES TWO DRASTICALLY DIFFERENT PROGRAMS THAT SAVES SPACE, BRINGS IN REVENUE, AND ULTIMATELY UNITES THE COMMUNITY OF BEATTYVILLE WITH THE DIVERSE COMMUNITY OF TRAVELERS.

# STORIES OF ANTIGUA

8 WEEK DURATION

[ ANTIGUA, GUATEMALA ]

OVER THE COURSE OF 8 WEEKS, STUDENTS WORKED BOTH COLLABORATIVELY AND INDIVIDUALLY IN PARTNERSHIP WITH THE GARDEN OF HOPE TO ASSESS THEIR PROPERTY AND DESIGN A MASTER-PLAN FOR ITS DEVELOPMENT THAT IMPROVED THEIR CURRENT FACILITIES. THE GARDEN OF HOPE/HUERTO LA ESPERANZA IS A NON-PROFIT ORGANIZATION FORMED IN PARTNERSHIP WITH ESCUELA LA ESPERANZA WHICH OFFERS A QUALITY EDUCATION AND A VARIETY OF SOCIAL SERVICES TO LOW INCOME FAMILIES IN JOCOTENANGO AND THE SURROUNDING COMMUNITIES IN GUATEMALA.

CONCEPTUALLY, THE STUDIO EXPLORED THE RELATIONSHIP BETWEEN LANDSCAPE AND BUILDING; THE VALUE OF BUILDING MATERIALS AND METHODS IN THE GENERATION OF FORM; BEST PRACTICES OF COMMUNITY ENGAGEMENT IN THE ARTICULATION AND REFINEMENT OF PROGRAM; AND HOW CULTURAL AND SOCIAL FACTORS CONTRIBUTE TO THE DESIGN PROCESS.
