New International Mexico City Airport - NAICM (Nuevo Aeropuerto Internacional de la Ciudad de México)

MEINHARDT Group

Qatar

11/2015 - 6/2016

Senior Project Manager - Architecture

Role: Project Management:

- Agree design criteria with client and prepare design brief for each project
- Get clients sign off for the project brief
- Disseminate design brief to all internal and external parties
- Manage the quality and timely delivery of all design phases for the project
- Agree procurement strategy with all stakeholders and implement it
- Prequalify Contractors, manage the bid, tender interviews, evaluation, recommendations and award phases
- Coordinate with the Project QS through all stages to prepare and update cost estimates including pre-tender estimates and obtain client's approval
- Manage the construction phase, including the change orders and oversee QNQC to project completion.
- Oversee testing and commissioning phase to ensure the project will operate safely and efficiently and is fit for occupation.
- Oversee defects list from all consultants and ensure they are rectified, until defects liability period.
- Arranging, managing and attending all design, client's and construction stage meetings

Design:

- Prepare architectural design options for the project and make presentations to the client.
- Assist in Project Feasibility and provide info to QS for costing
- Implement the approved scheme through all stages of design
- Provide the design input to the Design Team to ensure all design and documentation is completed to a high standard, in a timely manner
- Managing P&L on all projects for the company
- Assist the CD in managing, marketing and maintaining profitability of the company
- Undertaking architectural design and detailing
- Carry out feasibility studies of various options (preferred by client) with the Design team.
- Coordinate specifications, drawings etc with the Designers of other disciplines in Qatar and/or other offices.

Client Liaison and Business Development:

- Assist the Marketing effort of the Company to secure new work.
- Arrange meetings with new clients and maintain Market Intelligence for new Projects.
- Attend Presentations with the teams to win Projects.
- Build trust and respect with clients (most clients do not know the technical aspects of the project so we must put relationships in front).
- Actively participate in Business Development/Marketing and improving the image of the Company.
- Attend internal marketing meetings (whenever possible).
- Ensuring we get new business to meet yearly budgets/targets set by the Group Board.
- Develop and maintain liaison from a business development perspective with our existing clients and new clients.
- Generate new opportunities for the business to bid in all recognized Business sectors.
- Assist in the monthly performance of Qatar office from a sales perspective against yearly targets.
- Lead presentations for new projects and co-ordinate with other offices where required.
- Liaise with clients regularly and ensure their requests are dealt with efficiently.
- Help to oversee Bid deadlines are met.
- Monitor competitor activity and discuss internally to devise strategy.
- Monitor the Business Development leads (best bets) and advise the Company accordingly.
- Where possible, ensure all business development opportunities are maximized.
