Area 122,800 SqFt  
Status: Under  
Construction**

**My Role:** Architectural design ·  
Construction plans · Regulatory  
approvals · 3D Renderings

Located on Av. López Mateos, one of the main avenues from Guadalajara, Mexico.  
The concept design was realized in L shape, getting a central plaza with a large front view of the commercial area, with North orientation capturing more natural lighting, minimizing solar incidence.  
The architectural program has two basements with 150 parking spaces. The first three levels of commercial area have a total of 30 commercial premises, bathrooms and administration offices of the complex.

2019

**JG House – Puerta las Lomas  
Guadalajara, México.  
Residential**

**Land 3,900 SqFt  
Area 5,600SqFt  
Status: Build**

**My Role:** Architectural design ·  
Construction plans · Regulatory  
approvals · Construction  
supervisor · 3D Renderings

Architectural program developed around a central green nucleus, with natural lighting and ventilation.

The main idea about the development of the program was that the house concentrates the common areas on the first level, extending towards the backyard, turning the dining room into a large covered terrace. Having the inner courtyard as the head and central axis.

Common areas, living room, kitchen, dining room and TV room, visually connected through this patio, which vertically crosses the 3 levels of the project, allowing cross ventilation and natural lighting.

instead, the rooms are located on the second floor as a way to guarantee greater privacy and at the same time a connection with nature through the central courtyard.

2017

**JG House – Puerta las Lomas  
Guadalajara, México.  
Residential**

**Land 4,180 SqFt  
Area 5,700SqFt  
Status: Build**

**My Role:** Architectural design ·  
Construction plans · Regulatory  
approvals · Construction  
supervisor · 3D Renderings

Located in a Residential area with height and panoramic view of the City of Guadalajara. Developed on three floors. Basement: Parking Service Areas, Playroom with Open Patio that allows ventilation and natural lighting. Main floor, are the public areas such as study, kitchen, guest room, dining room with a great view of Plaza Andares. Second level is the private area. Walls Covered with Travertine Marble on the ground floor that give the feeling of Firmness to the elements, higher volumes with details in Wood Lattices, Steel plates and White Walls lightening the composition.

## Ecological Residential

Prototypes in Ecological Development Bosque El Manto, located 90 km from Guadalajara.

High wooded, red lands, stream that overlooks the lake, with fruit trees, jogging and cycling.

A park next to a stream with benches rest, ideal for exercise and contemplation. A dam of more than 14 thousand m2 with fish to practice fishing and kayaking. I designed more than 15 cabins
