

# MOHAMMED TALHA QADIR KHAN

## ARCHITECTURAL DESIGNER

### CAREER OBJECTIVE

To gain practical knowledge in a dynamic and progressive organization offering ample opportunities for diversified exposure, enhancement of professional skills and career growth

### PERSONAL SKILLS

I am Logical and methodical in my approach to work. My aptitude for working and Communication is excellent and my ability to develop and enhance my skills on an ongoing basis assures that i will never be left behind in any competition or in the ever-changing world of information technology

### EXPERIENCES

Archview (2021)

[Site Instructor](#)

NESPAK (2017)

[Design Internship](#)

IAPEX (2017, 2019)

[Volunteer in Management team](#)

### QUALIFICATION

B.Arch

[University of Karachi](#)

Intermediate (Pre-Engineering) Govt. Jinnah College

[Karachi Board](#)

Matriculation ( Nova School of Excellance)

[Matric board Karachi](#)

### EXTRA CIRCULAR ACTIVITIES

Fond of designing to improve my designing skills and have interest in Photography and Cricket, I am a self learner in my related field / sources

### SKILLS

Soft Skills

Hard Skills

Design development

Photography

**Design of a primary school**

A primary school to be designed with the following requirements.

1. The school will be comprised of grade one to grade five.
2. Each grade will have four sections.
3. Maximum students in each section will be 35.
4. There will be three section of Montessori having maximum having 10 students each.
5. There will be two sections of KG having 15 students each.
6. There shall be an administration building to house:
  - a. Head Master/Head Mistress office with 15 person meeting space and personal secretary.
  - b. Second Head Master/Head Mistress office
  - c. Staff room for 30 teachers
  - d. Admission office
  - e. Account office
  - f. Examination office.
  - g. A conference room for 50 persons.
7. There shall be library for grade one to grade five students.
8. A separate library/activity room for KG classes.
9. There shall be a multipurpose hall to accommodate 1000 people. The multipurpose hall shall also be used for indoor games.

10. There shall be a play grounds, separately for the younger and smaller children.
11. A small health Centre with doctor's space.
12. School should have a lunch room for 300 students.
13. Facilities for the toilets, kitchens and stores should be as per requirements.

Designer has to work considering all the modern facilities required for this level of school. Additional spaces other than requirements may be provided if feel necessary.

Other than Montessori and KG the school building will be naturally ventilated.

The building should be designed to keep in mind following byelaws.

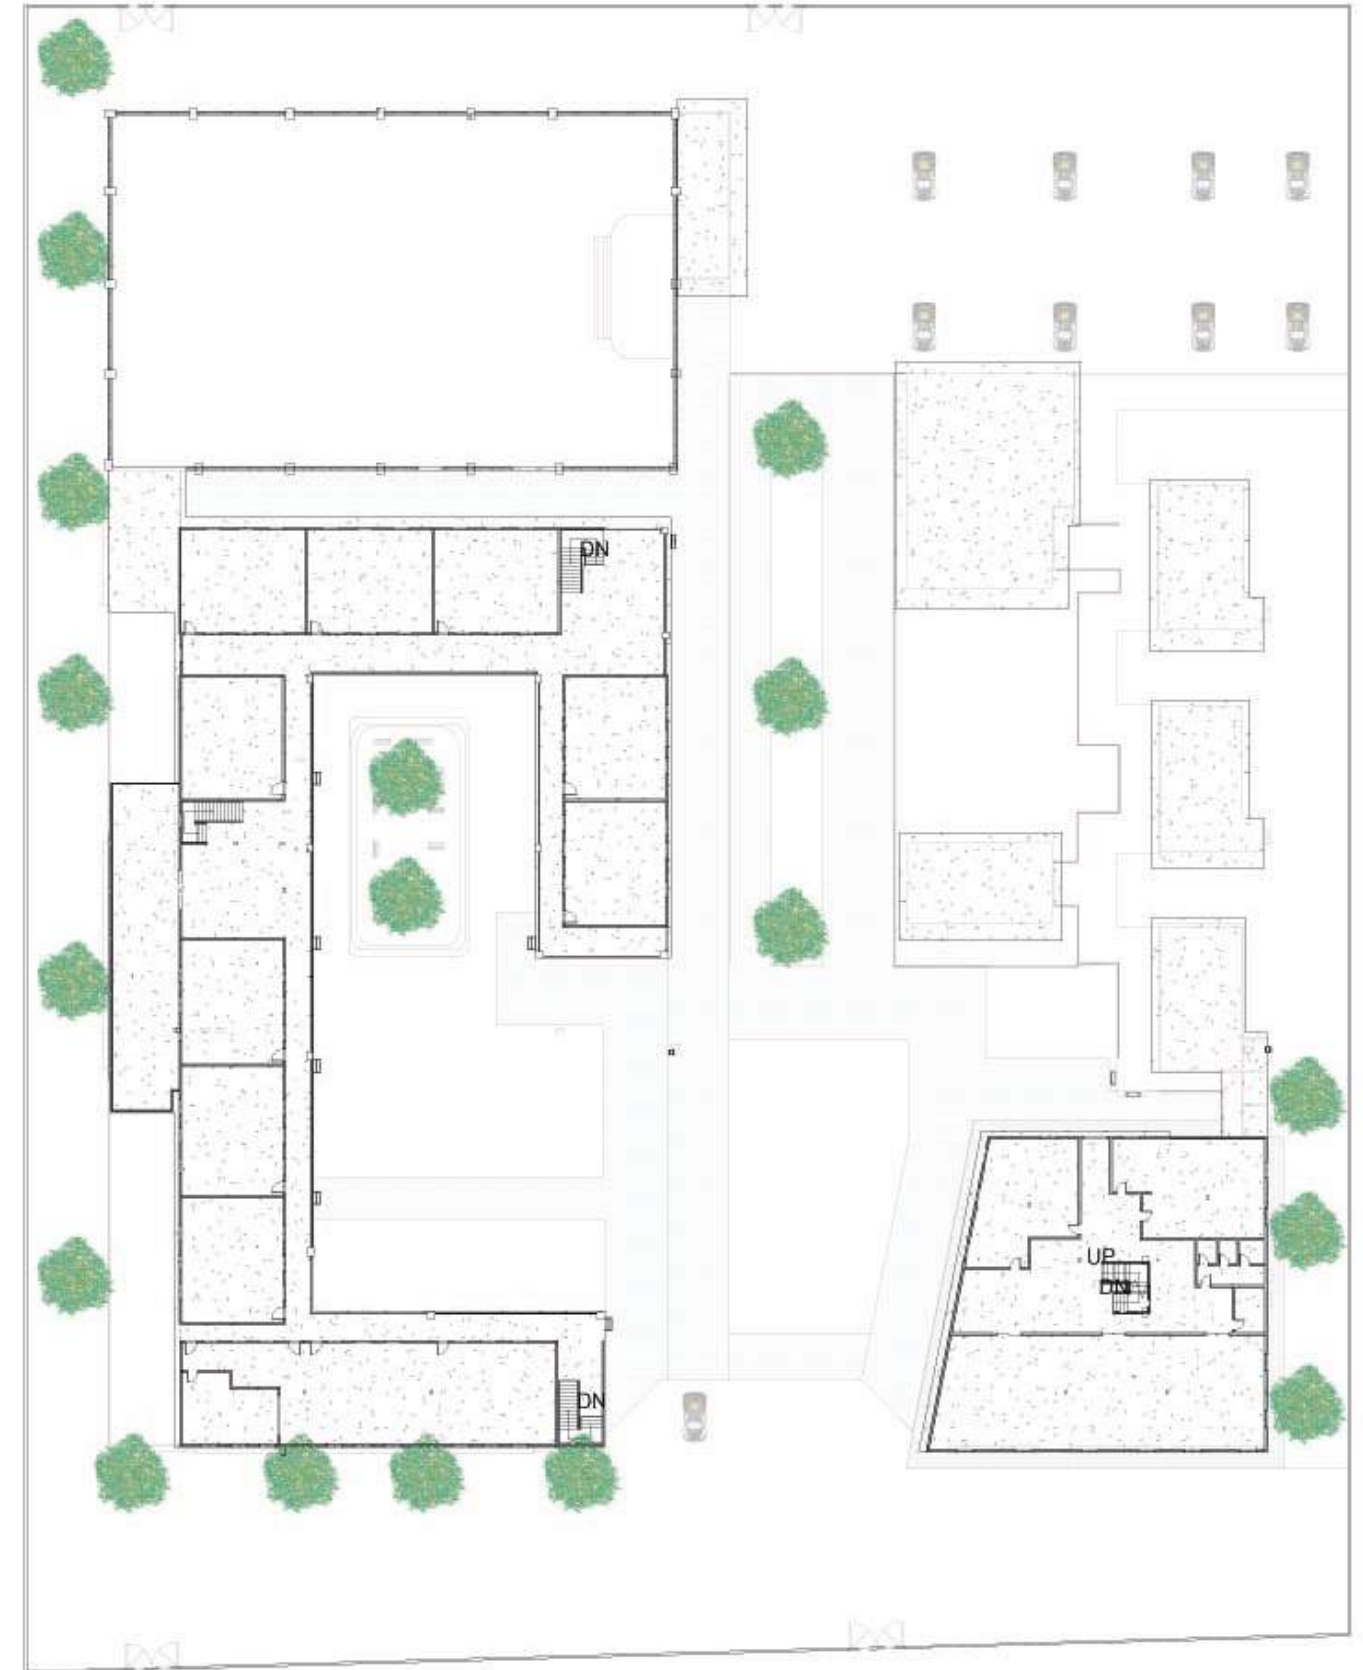

1. 15'-0" Compulsory open space on the rear and three sides.
2. 40'-0" compulsory open space from the front side.

# PROJECT # 1

DESIGNING AND PLANNING  
OF A THREE STAR HOTEL

THIS PROJECT WAS  
CONSIST OF THREE  
STAGES

- SITE APPRAISALS
- DESIGN PROPOSALS
- DESIGN REPORT

BRIEF :

DESIGN OF A THREE STAR HOTEL  
OF 150 KEYSONS WITH 300 CAR  
PARKING ALSO TAKING IURBAN  
ISSUES IN CONSIDERATION WITH  
RESPECT TO THE SITE .

ACCORDING TO THE BYE-LAWS OF  
CONCERNED AUTHORITY.

LOCATION IN KARACHI

# SITE INTRODUCTION

METROPOLE HOTEL KARACHI

THE SITE GIVEN TO US WAS THE METROPOLE HOTEL KARACHI, WHICH HOLDS A HISTORICAL AND MEMORABLE VALUE, WHICH IS PRESENT IN THE BUSINESS DOWNTOWN OF KARACHI THAT IS ABDULLAH HAROON ROAD. METROPOLE HOTEL WAS BUILT IN, 1950 'S , WHICH WAS INCLUDED IN THE LUXURIOUS HOTELS AT THAT TIME . THE PEOPLE WHO CAME FROM ABROAD SPECIALLY GENERALISTS , METROPOLE HOTEL IN KARACHI WERE THE ONLY CENTER FOR THE FOREIGN GUESTS AND GENERALISTS, AND THERE WAS ALSO A GOOD TOURIST CENTRE , DUE TO WHICH THERE WAS ENOUGH TOURISM PROMOTED .

SITE SUN STUDY AT 2PM

VIEW AT SITE AT 2 PM

# SIGNIFICANT SITE ISSUES.

FROM TIME TO TIME, THERE IS A LOT OF NOISE IN TRAFFIC DUE TO TRAFFIC CONGESTION, POLLUTION IN THE AIR IN THE AIR AND THERE IS A LOT OF TRAFFIC, DUE TO WHICH THE PEDESTRIANS HAVE DIFFICULTY. IN THE NIGHT, THAT PLACE IS EMPTY AND AND ACT AS AN URBAN VOID. WHICH CAUSED THE PROBLEM OF SOME SUSPICIOUS ACTIVITY AND A FEAR?

# EXISTING AND POTENTIAL RECREATIONAL ACTIVITIES.

THERE IS SINDH CLUB , FRÈRE HALL AND KARACHI GYM KHAN. WHICH PROVIDES HEALTHY ACTIVITIES TO ITS MEMBERS AND ALSO TO THE OTHER PEOPLE? SI I TAKE THIS AS AN OPPORTUNITY TO MY SITE.

# DESIGN PROPOSAL :

WHAT I SAW IN THE ATMOSPHERE THERE AND WHEN I WENT THERE, I FELT THAT THERE WAS NOISE OVER THERE, BECAUSE OF TRAFFIC ON THE ROADS AND WE HAVE TO MAKE A HOTEL THERE, WHERE THE ROOMS OF THE GUESTS WOULD BE THERE SO, WE HAVE TO CREATE A BREATHABLE ENVIRONMENT OVER THERE. THE ENVIRONMENT SHOULD BE PLEASANT AND CLEAN SO KEEPING THIS IN MIND I HAVE INCORPORATED GREENERY IN MY DESIGN SO THAT IT COULD BE ABLE TO MAKE THE ENVIRONMENT CLEAN AND ALSO CAN REDUCE THE NOISE POLLUTION IT WILL ALSO CREATE A BUFFER FROM THE OUTSIDE ENVIRONMENT, THAT IS VERY BUSY AND NOISY.

I HAVE CREATED TWO OUTDOOR SITTINGS. IT WILL ALSO BENEFICIAL FOR HOTELS REVENUE AND FOR THE PEOPLE OUTSIDE. PEOPLE WHO WORK IN THE SURROUNDING BUILDINGS CAN COME INTO THE HOTEL'S OUTDOOR SITTING FOR EATING. THROUGH THIS SOCIAL INTERACTION BETWEEN THE PEOPLE WILL INCREASE. ONE OUTDOOR SITTING IS FACING ABDULLAH HAROON ROAD AND OTHER IS FACING MEREWETHER ROAD. THESE OUTDOOR SITTINGS WILL ALSO BE RUNNING IN THE NIGHT SO THAT AREA WILL CREATE SOME LIFE IN THE EVENING AND IN THE NIGHT FOR THE PEOPLE.

RECREATIONAL CENTERS IN THE SURROUNDING, SIND CLUB, KARACHI GYMKHANA, FRERE HALL WILL ALSO BE PROVIDING A SUPPORT HEALTHY ACTIVITIES FOR THE GUESTS OF THE HOTEL. IF TOURISTS GET A CHANCE TO STEP INTO THE SIND CLUB AND QUAIDE AZAM MEUSIUM. HE CAN ENJOY THE SERENITY LEVEL AND THE MOMENT OF GETTING CLOSE TO THE NATURE BECAUSE THERE IS A LOT OF VEGETATION.

THE INGRESS AND EGRESS ROUTE OF THE HOTEL, I HAVE KEPT IT ACCORDINGLY, LIKE A FLOW FROM CLUB ROAD WHICH WILL COME TO ABDULLAH HARRON ROAD AND THEN THERE WILL BE MEREWETHER ROAD .BOTH GUST ENTRANCE AND SERVICE ENTRANCE IS FROM THE CLUB ROAD AND THE AND BOTH EXITS IS ON MEREWETHER ROAD.

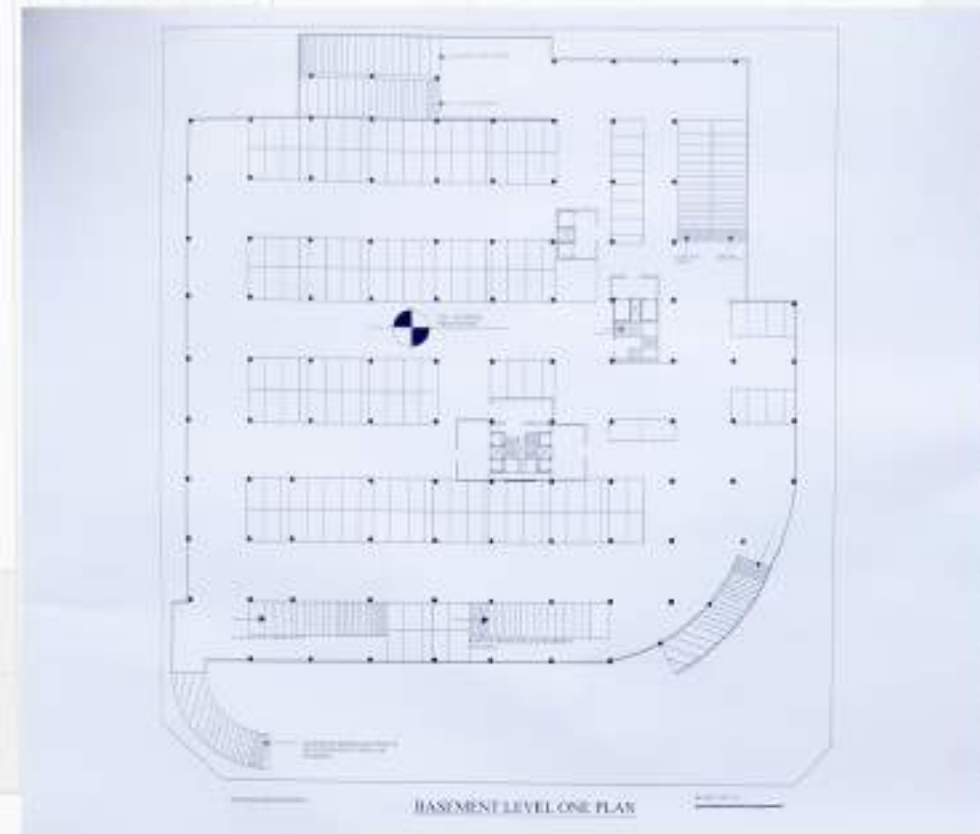

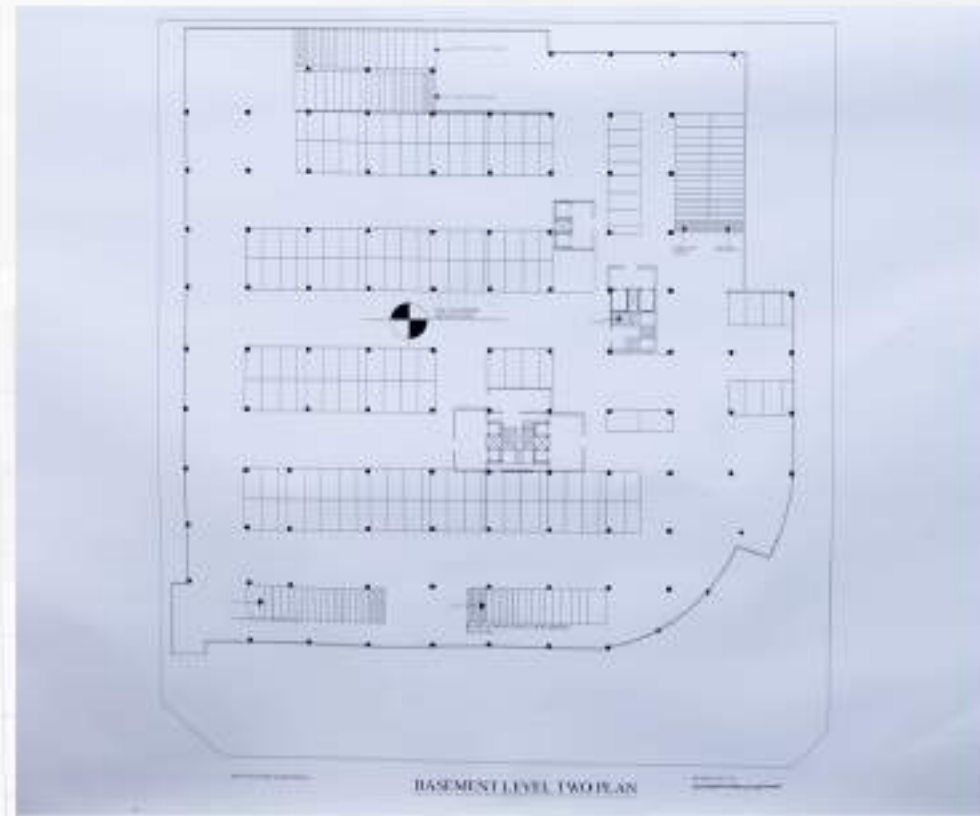

GROUND FLOOR PLAN

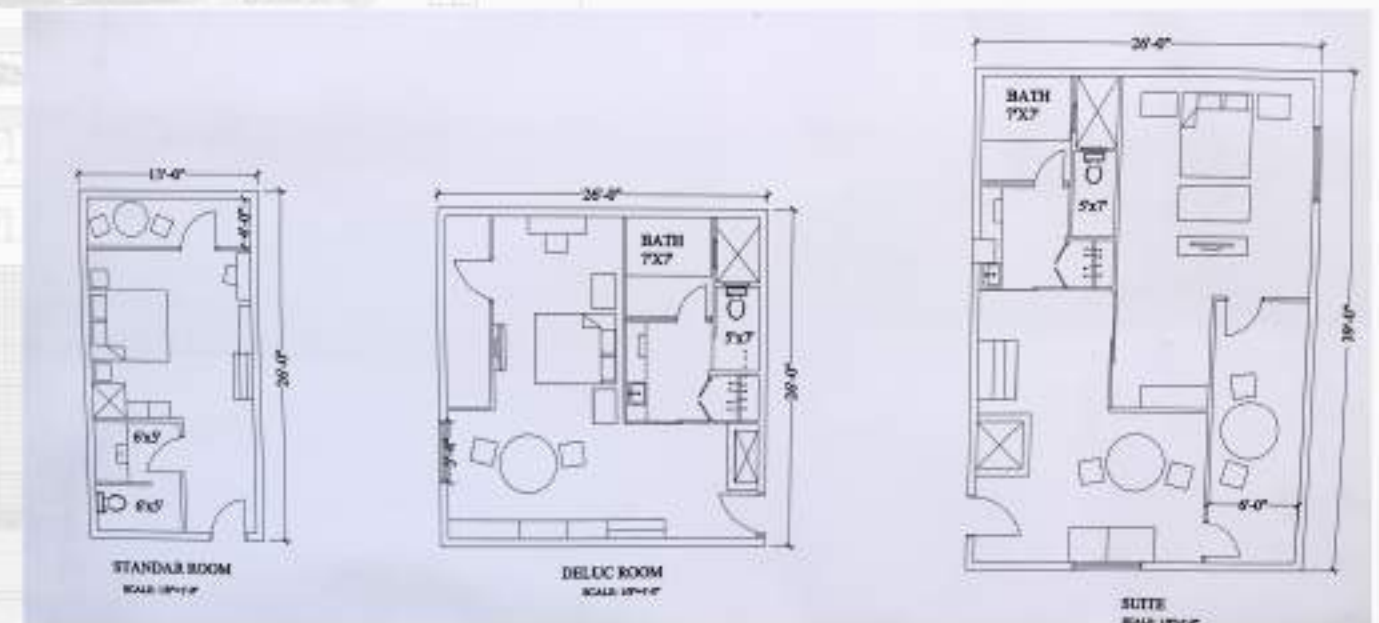

FIRST FLOOR PLAN

SMOG-EATING CONCRETE (OR PHOTOCATALYTIC CONCRETE) WAS DEVELOPED BACK IN 2007 BY THE ITALIAN CEMENT COMPANY ITALCEMENTI. IT WAS MEANT TO ACT AS A SELF-CLEANING CEMENT THAT WOULD BE AN INGREDIENT IN CONCRETE, BUT WAS LATER PROVED TO BE CAPABLE OF GETTING RID OF POLLUTION IN THE SURROUNDING AIR. REDUCING THE LEVELS OF CERTAIN POLLUTANTS BY 20 - 70%, DEPENDING ON LOCAL CONDITIONS AND THE AMOUNT OF EXPOSED SURFACE AREA.

YOU CAN SEE IN THE ELEVATION  
THROUGH ABDULLAH HAROON ROAD. I  
HAVE CREATED PLANTERS ON EVERY  
SINGLE FLOORS' CORRIDOR. I HAD  
STUDIED THE SHADOWS AND THE  
ORIENTATION OF THE SUN.

TECHNICAL BACKGROUND

BASEMENT CAR  
PARKING

THIS SPLINE CURVE REPRESENTS THE ACCESSIBILITY  
OR HUMAN CIRCULATION OF DESIGN.  
CELEBRATING THE PASSAGEWAY WITH ENCLOSED  
AND OPEN SPACES. INSPIRED BY THE  
LARGE HADRON COLLIDER (LHC) IS THE WORLD'S  
LARGEST AND HIGHEST ENERGY PARTICLE  
BEETWEEN SWITZERLAND AND FRANCE. THE LARGE  
HADRON COLLIDER WAS BUILT TO HELP ANSWER  
SOME OF THE FUNDAMENTAL OPEN QUESTIONS IN PHYSICS.

STACKING OF ENCLOSED SPACES REQUIRED  
FOR THE PROGRAM BRIEF IN A WAY  
CREATING VISTAS AND PLAYFULL SPACES.

BASEMENT UTILIZED FOR PARKING PLUS HAVING  
AN ACCESS TO OPEN EXHIBITION FOR PUBLIC

## FIRST FLOOR PLAN CAFETERIA

RAMP LEADING FROM GROUND FLOOR TO FIRST FLOOR  
AT +15' FT FLOOR LEVEL CAFETERIA WITH SITTING ALSO  
CONNECTED BY CARGO LIFT AND GENERAL PUBLIC LIFT.

## FOURTH FLOOR AND FIFTH FLOOR PLAN

RESEARCH CENTER PLUS WORKSHOPS FOR STU .PROJECTING OVER THE EXISTING FACILITY AS A SUSTAINABLE APPROACH.

# THE CELEBRATION OF PROMENADES AND ARCHITECTURAL ELEMENTS

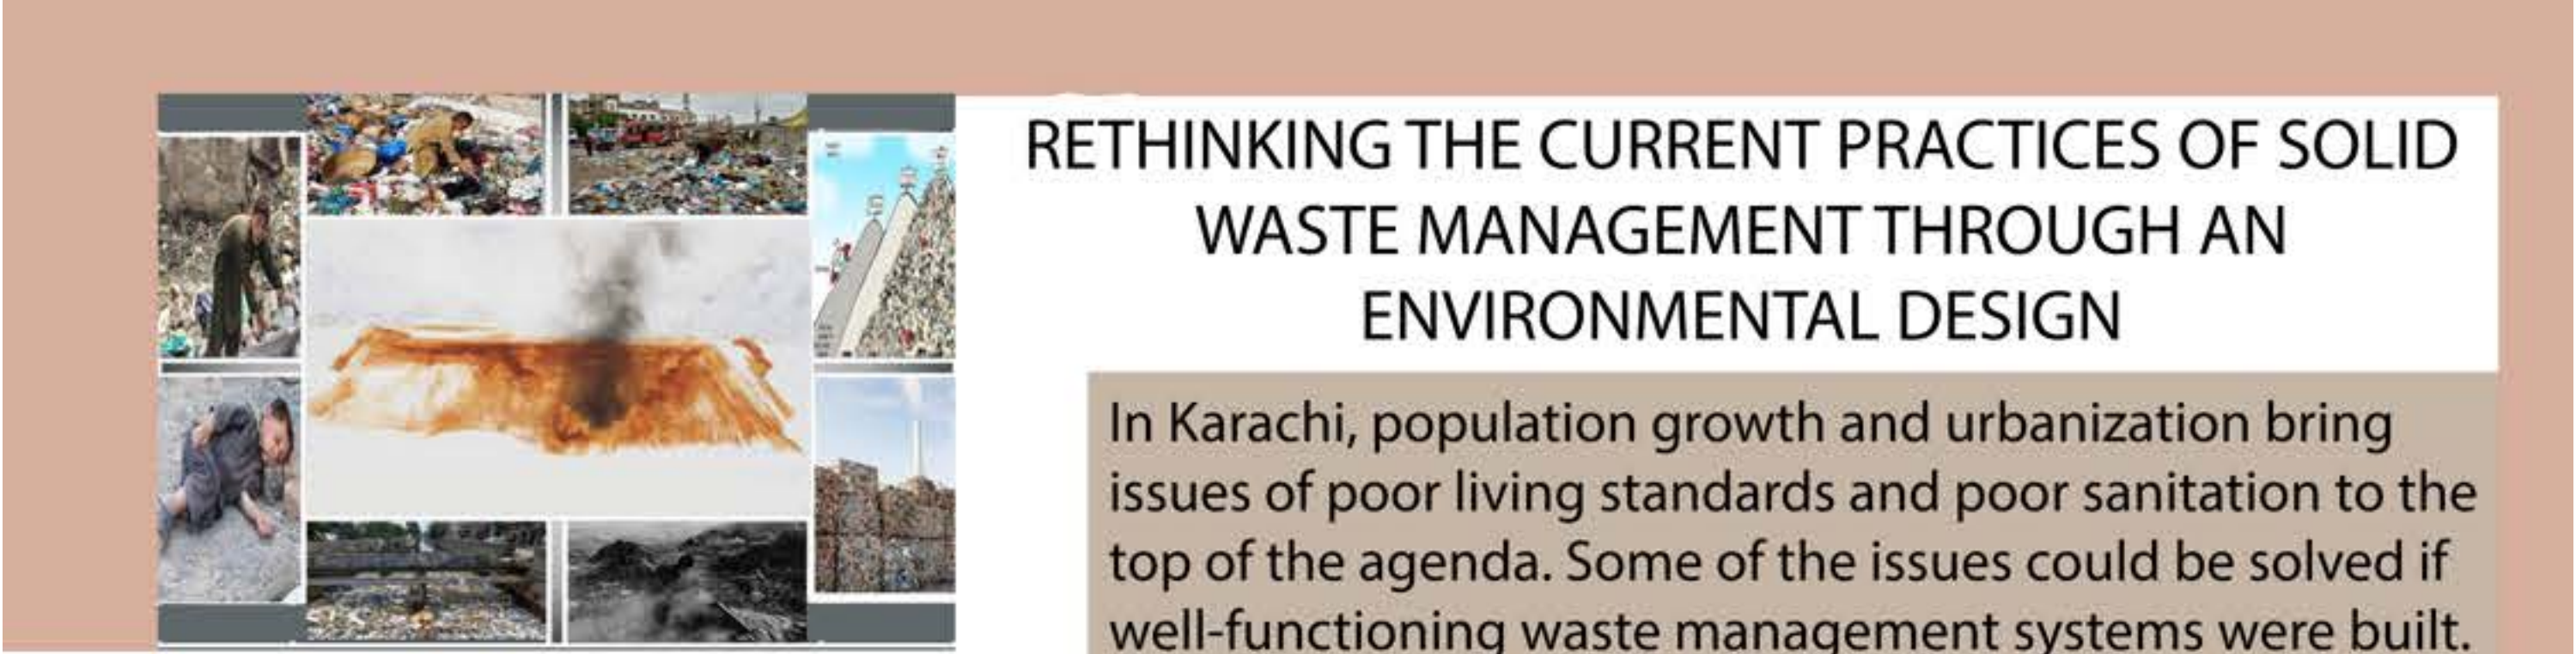

ARCHITECTURAL ELEMENTS LIKE RAMPS AND STAIRCASES SHOULD BE CELEBRATING AND BOLD RATHER THAN JUST A UTILITY FOR VERTICAL TRANSPORTATION

FIFTH YEAR FIRST SEMESTER

THESIS PROJECT  
A COMMUNITY BASED DECENTRALIZED WASTE MANAGMENT UNIT  
IN GULSHAN-E-IQBAL KARACHI

# RETHINKING THE CURRENT PRACTICES OF SOLID WASTE MANAGEMENT THROUGH AN ENVIRONMENTAL DESIGN

In Karachi, population growth and urbanization bring issues of poor living standards and poor sanitation to the top of the agenda. Some of the issues could be solved if well-functioning waste management systems were built. To reduce the environmental burden and improve the overall situation in dense cities, the already existing local informal waste handling system, which is widespread in many low-income nations, needs to be developed with suitable management and recycling options.

## DESIGN CONCEPT

THE DESIGN CONCEPT OF THIS PROJECT IS THE CLOSED LINEAR FUNCTIONALITY PATH, IN WHICH RECYCLING OF ORGANIC WASTE INTO THE LANDSCAPE IS AN EFFICIENT CUSTOMARY PRACTICE INTEGRATED INTO EVERYDAY HUMAN ACTIVITIES

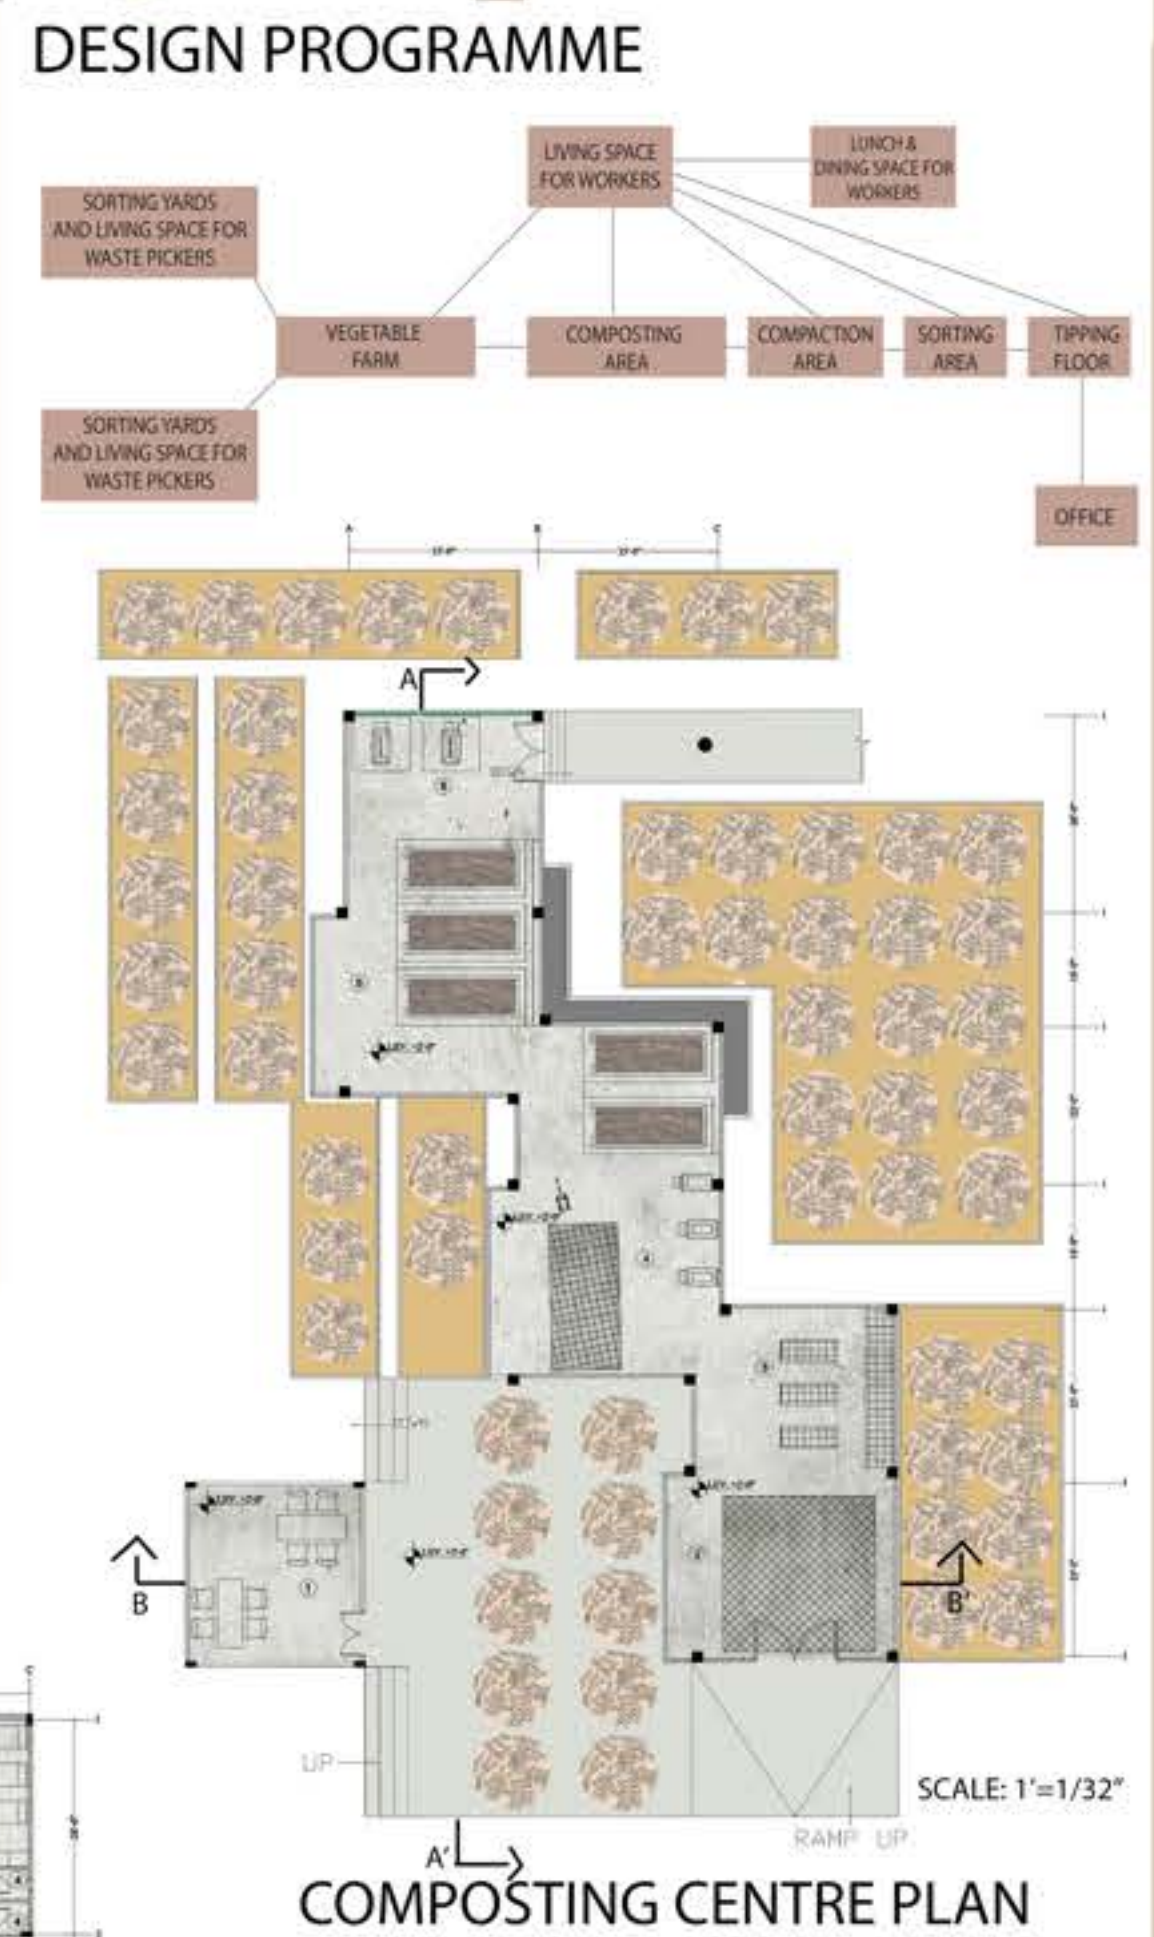

## MASTER PLAN

- 1. PUBLIC MEETING
- 2. COMPOSTING CENTRE
- 3. LIVING SPACE OF WORKERS
