PROFESSIONAL PROFILE

Architect from Los Andes University. Bogotá, Colombia. Currently doing a MFA in interior design at the new school, Parsons school of design.
Born and raised in Barranquilla, Colombia.
Skilled in the use of Architectural Marketing programs of 3D rendering and visualization, such as Revit BIM, Adobe programs, Rhinoceros, and AutoCad. Professional interest in interior design, urban planning, landscape architecture, and how these aspects interact with cultural, physical, and social environments. Careful with time management and organized, entirely self-motivated to improve her knowledge in different areas as a person and as a professional.
I can create and maintain good relationships with the team, and eager to put my skills to work and learn from others.

I am passionate about communicating and relating architecture to the world through techniques that convey stories, evoke feelings, inspire the audience, and invite them to engage.

design is a poetic dance of culture and environment,
weaving tales in every texture, brush of color and whisper of form.

In Between patios
Tumaco, Colombia

Crafting a narrative of resilience amidst conflict, this interior concept honors the soul of an isolated community. Through *rustic simplicity* and local craftsmanship, spaces are transformed into *sanctuaries of healing*. Embracing historic *narratives of trauma*, each corner echoes the spirit of home and culture reclaimed. Warm hues and earthy textures envelop resilient spaces, where every detail *tells a story of survival and strength*.

in between patios *entre patios*

Safe havens of care, reconciliation, and hope
-In a wounded Latin American community dealing with armed conflict-

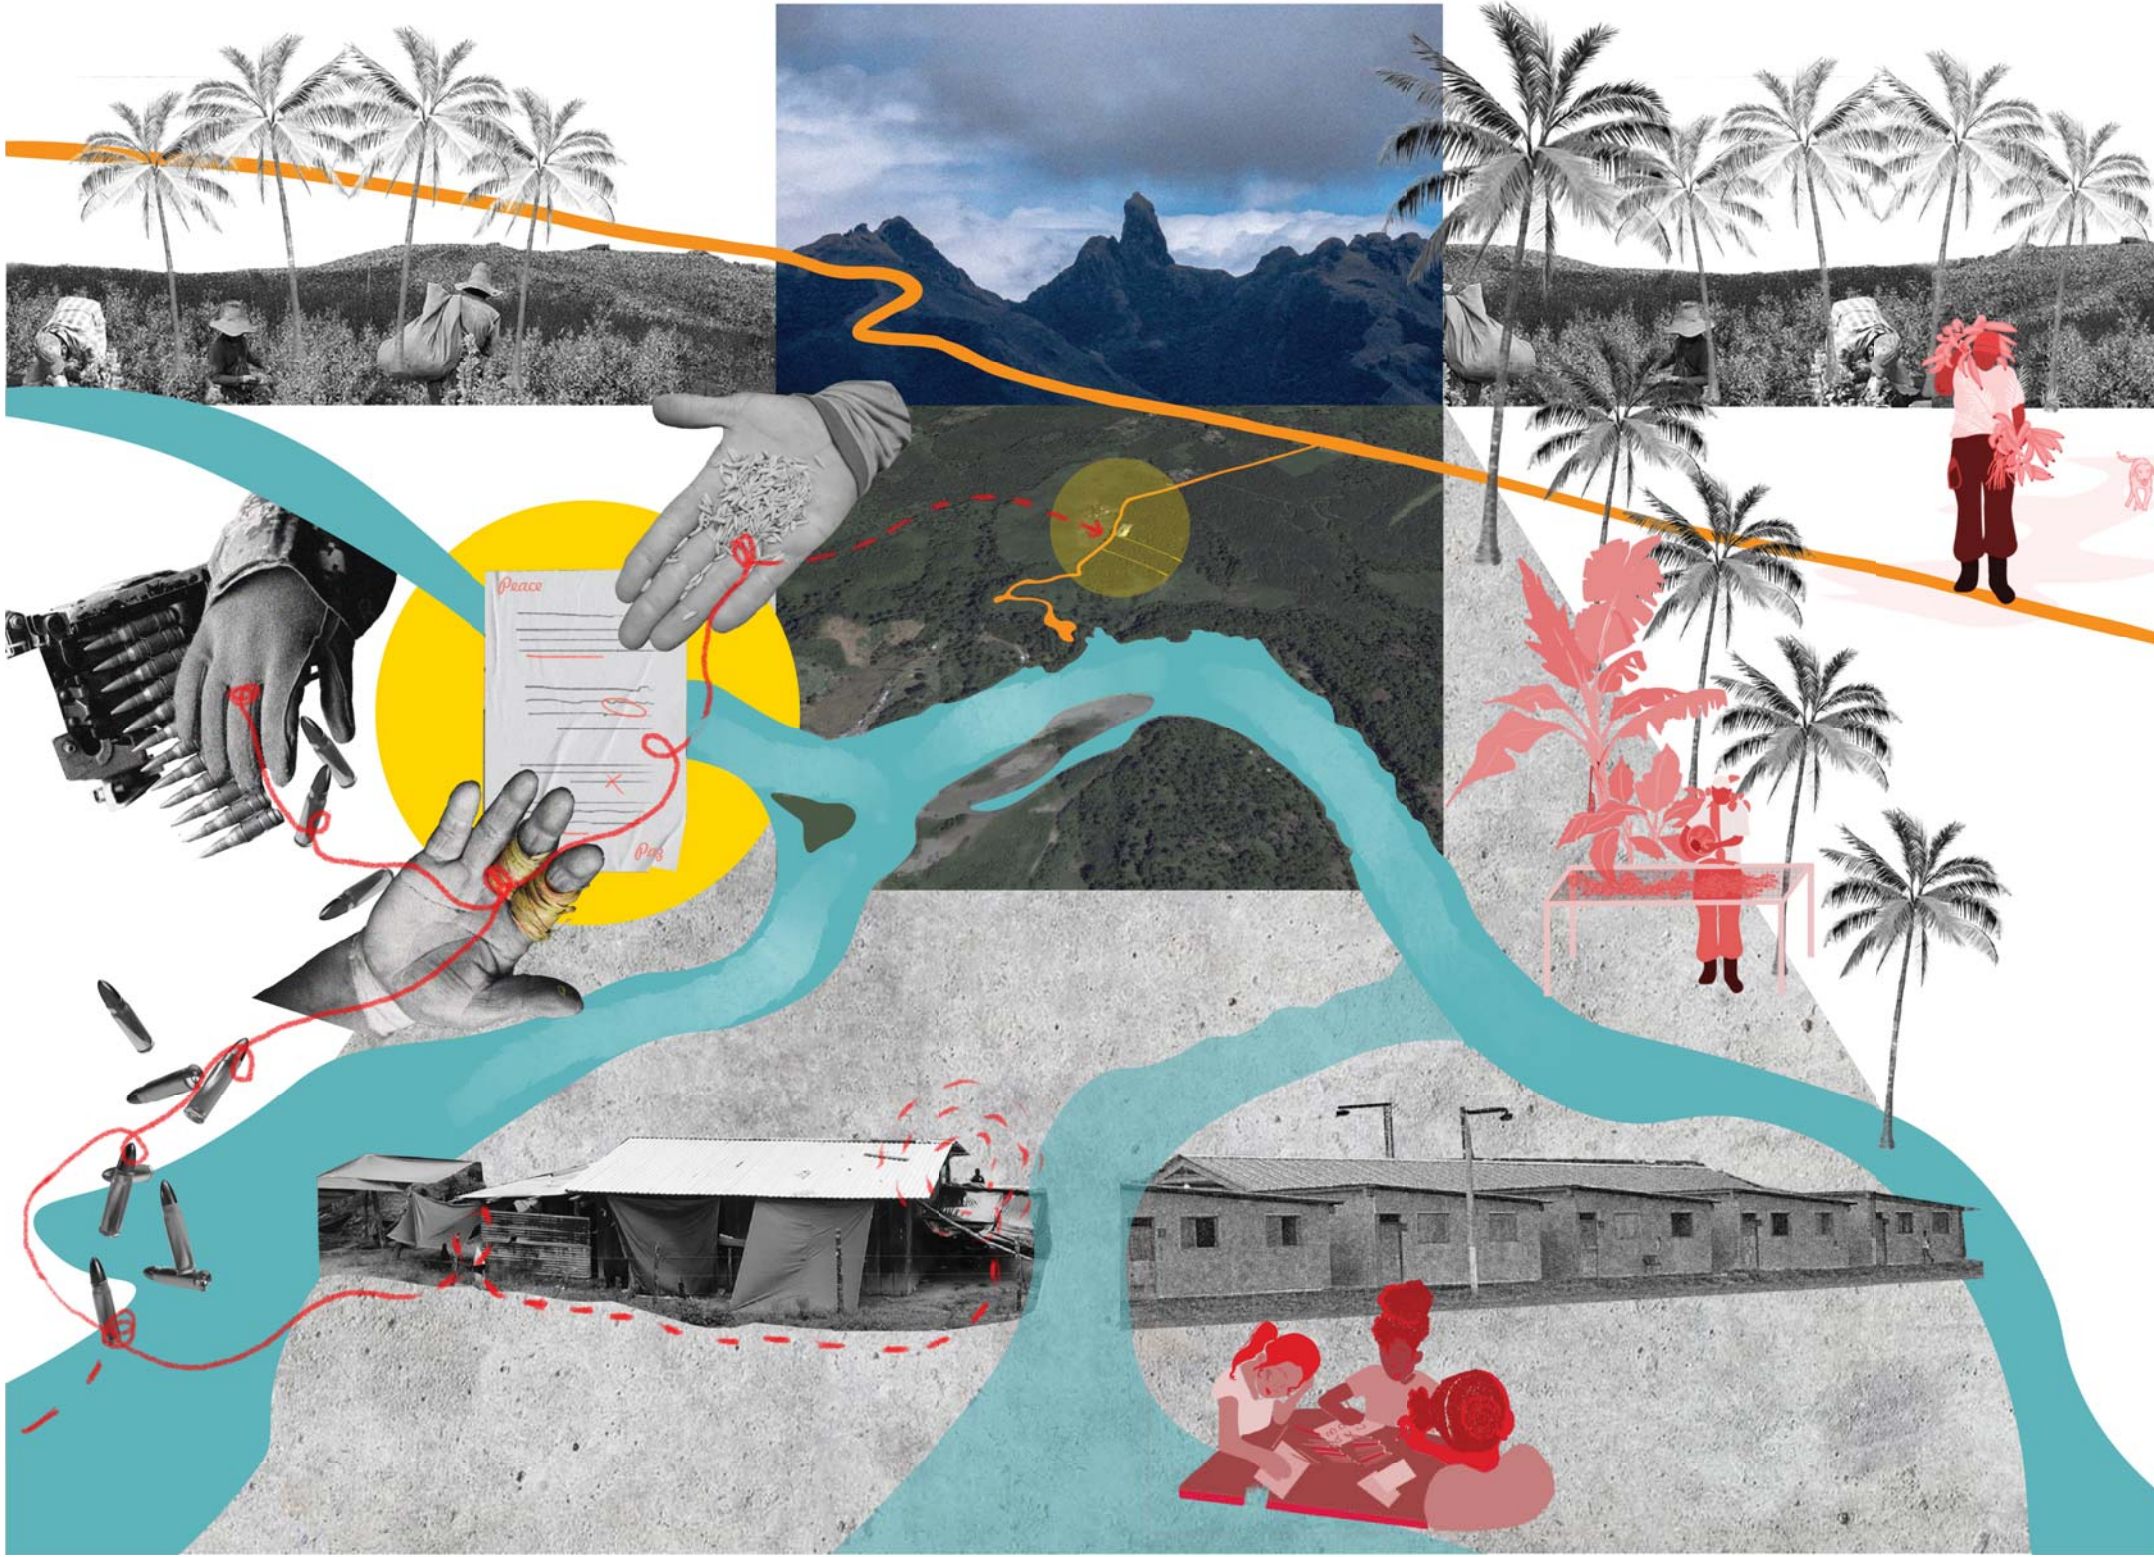

Tumaco, Colombia

D Graffiti - arte urbano - murales con declaraciones políticas y culturales - Graffiti - urban art - murals with political and cultural statements

P Jardines comunales para producción local y venta externa - Communal gardens for local production and external sales

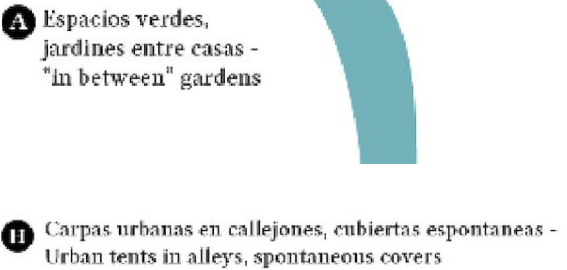

C Espacios de descanso - hamacas en terrazas - resting spaces - hammocks - at the front terraces

K Uso de callejones, Tendederos exteriores de ropa entre callejones de casas - outdoor clotheslines between passageway of houses

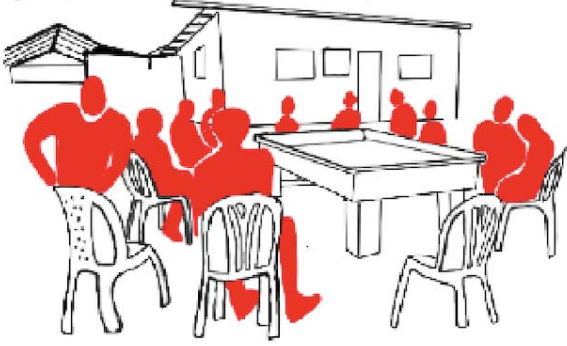

Passageways - "sendas"

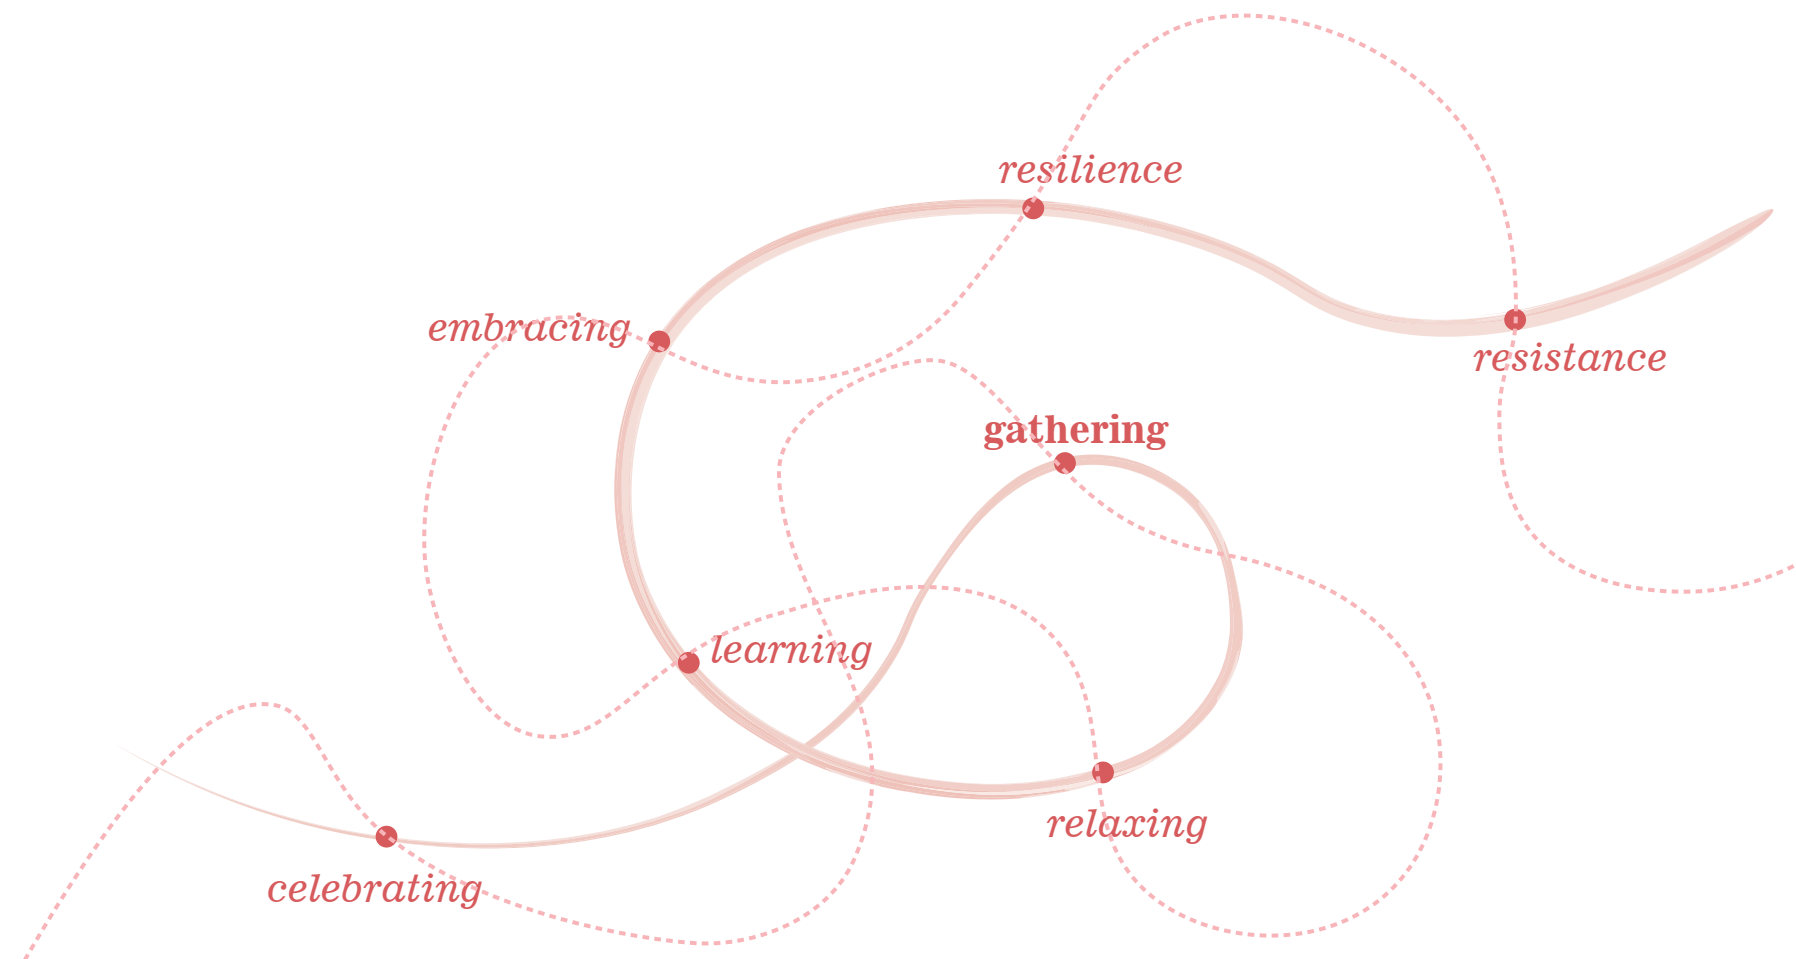

A Espacios verdes, jardines entre casas - "in between" gardens

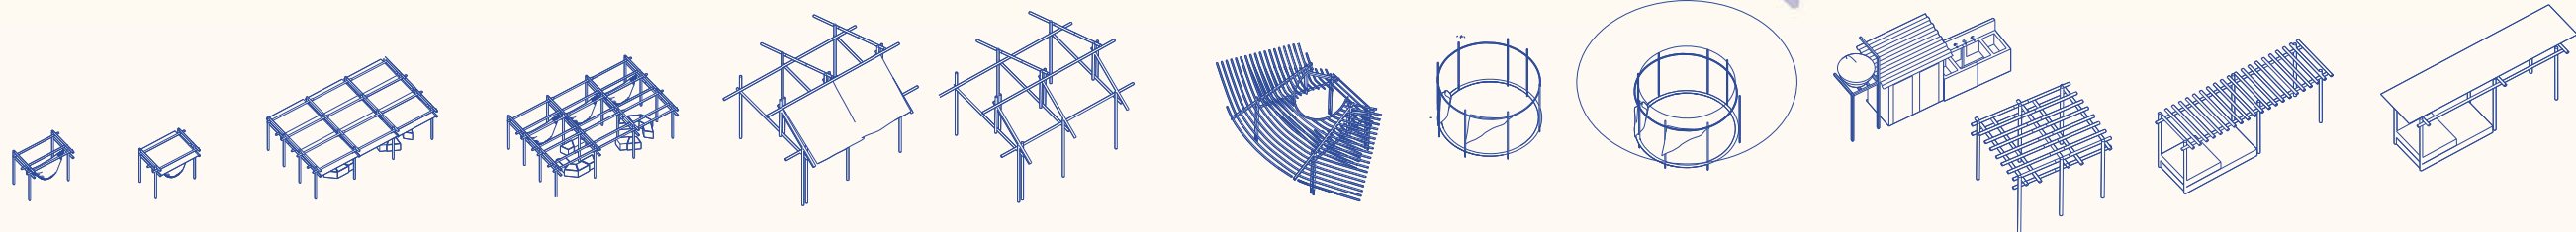

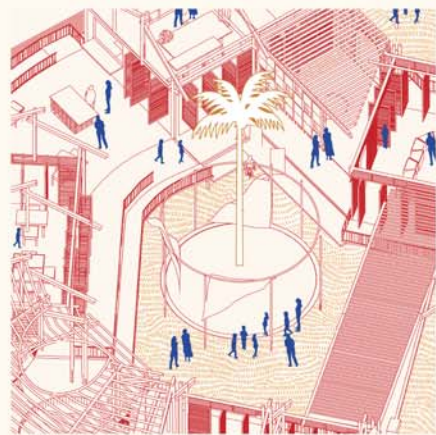

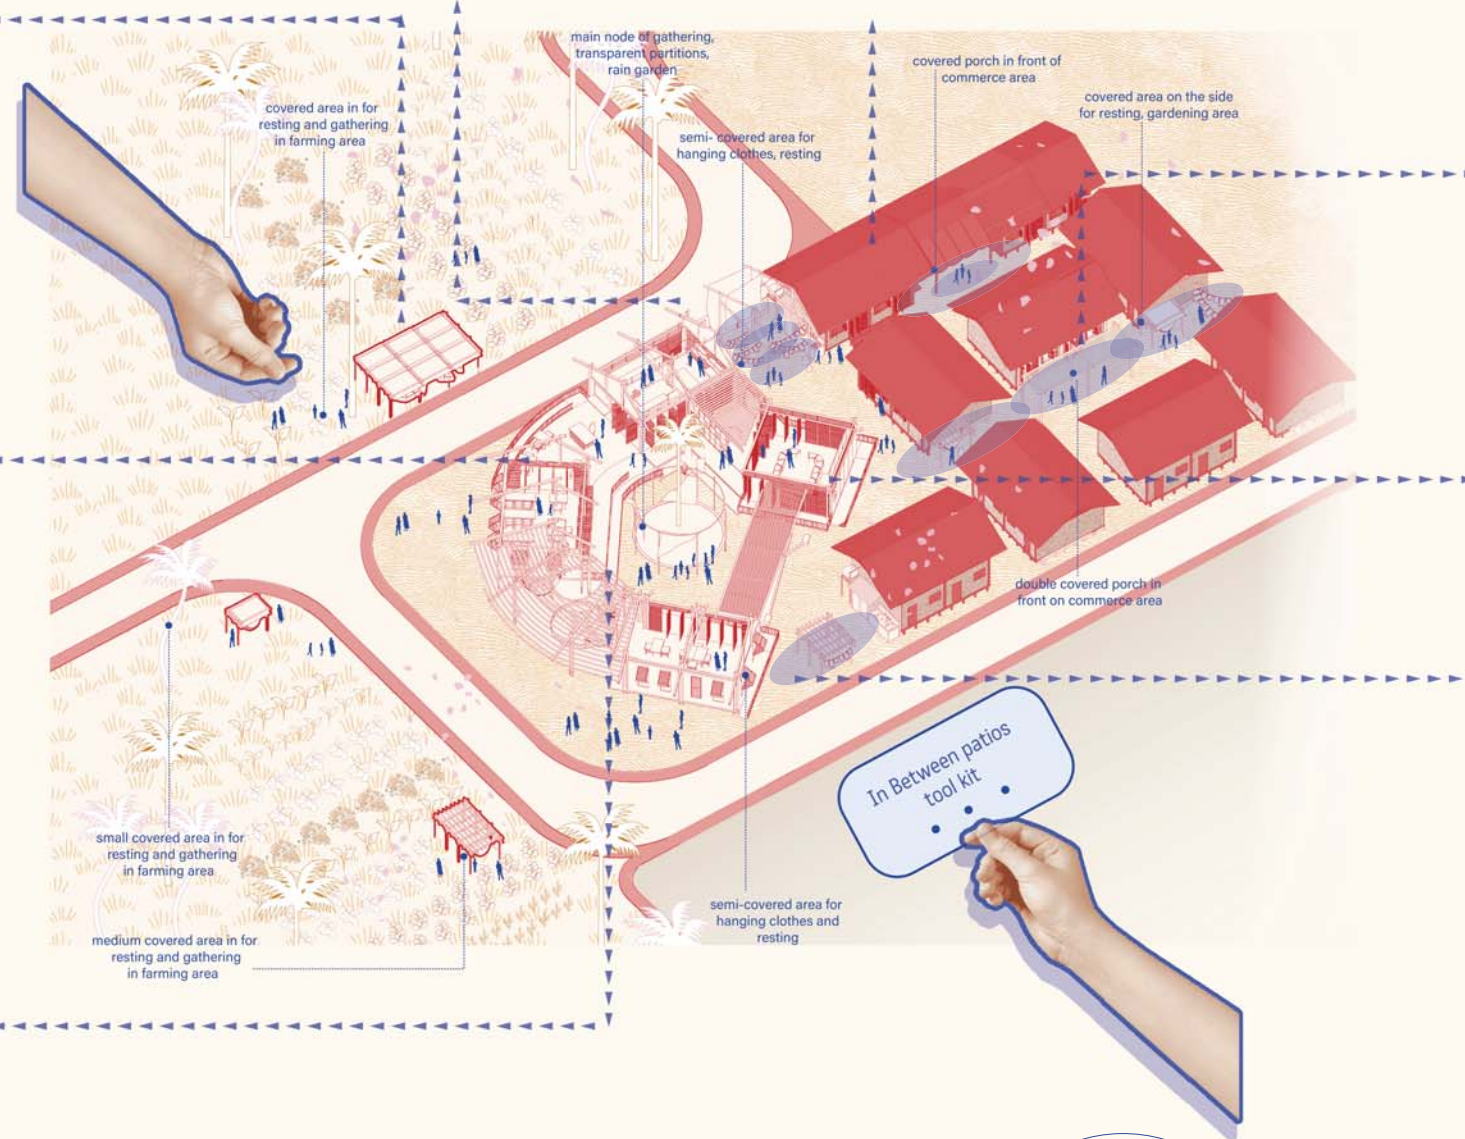

H Carpas urbanas en callejones, cubiertas espontaneas - Urban tents in alleys, spontaneous covers

atardecer
product design
side table design and lighting fixture

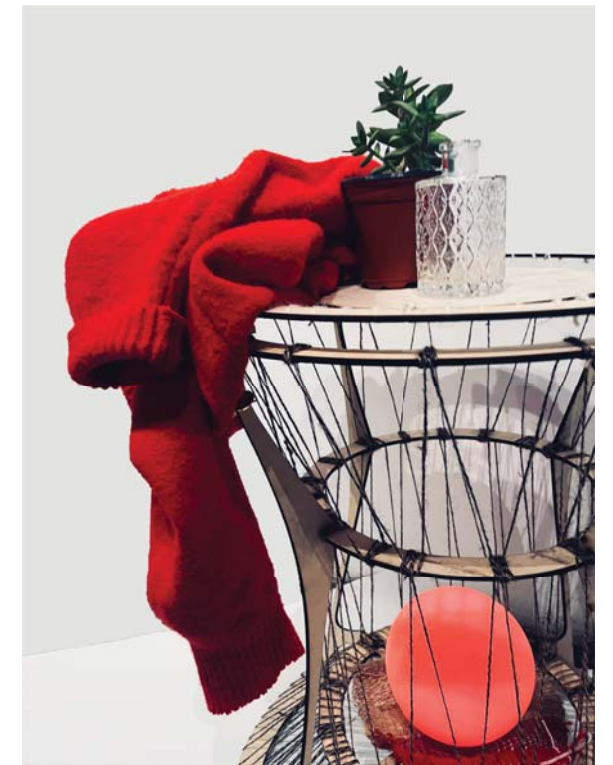

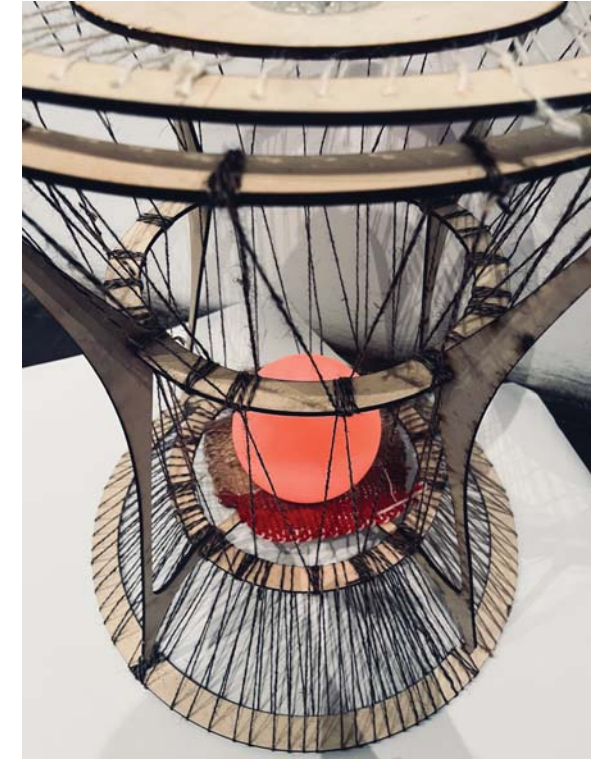

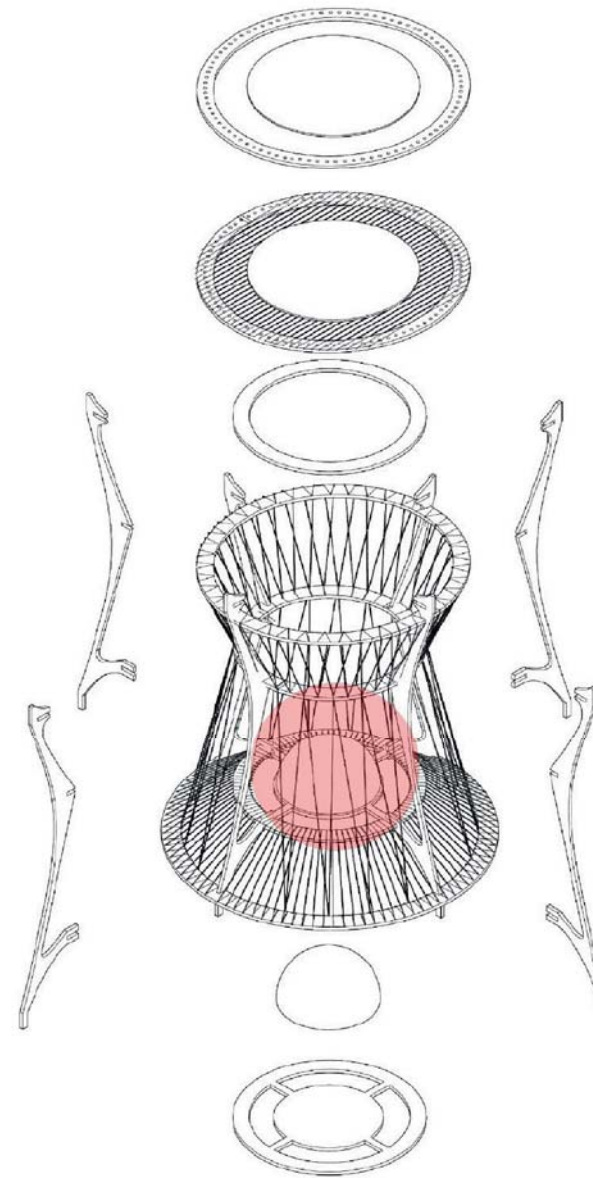

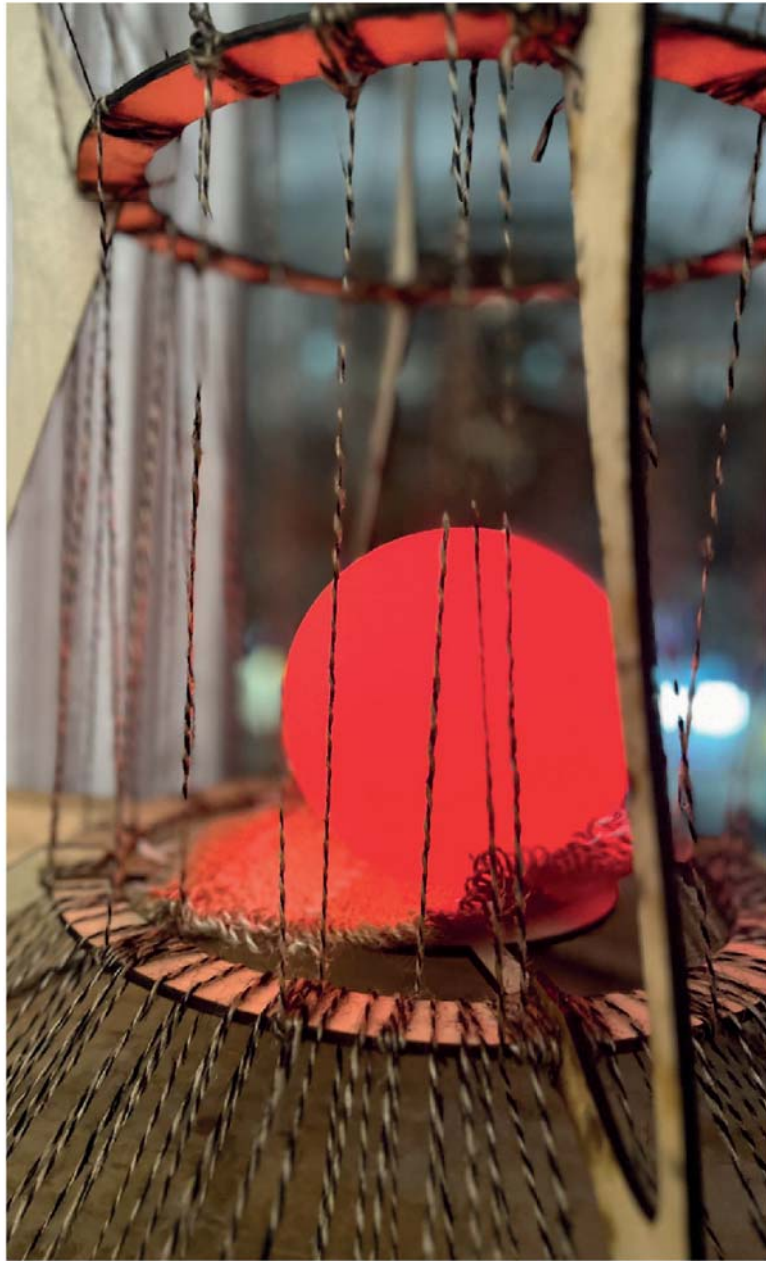

colombian villa with atardecer

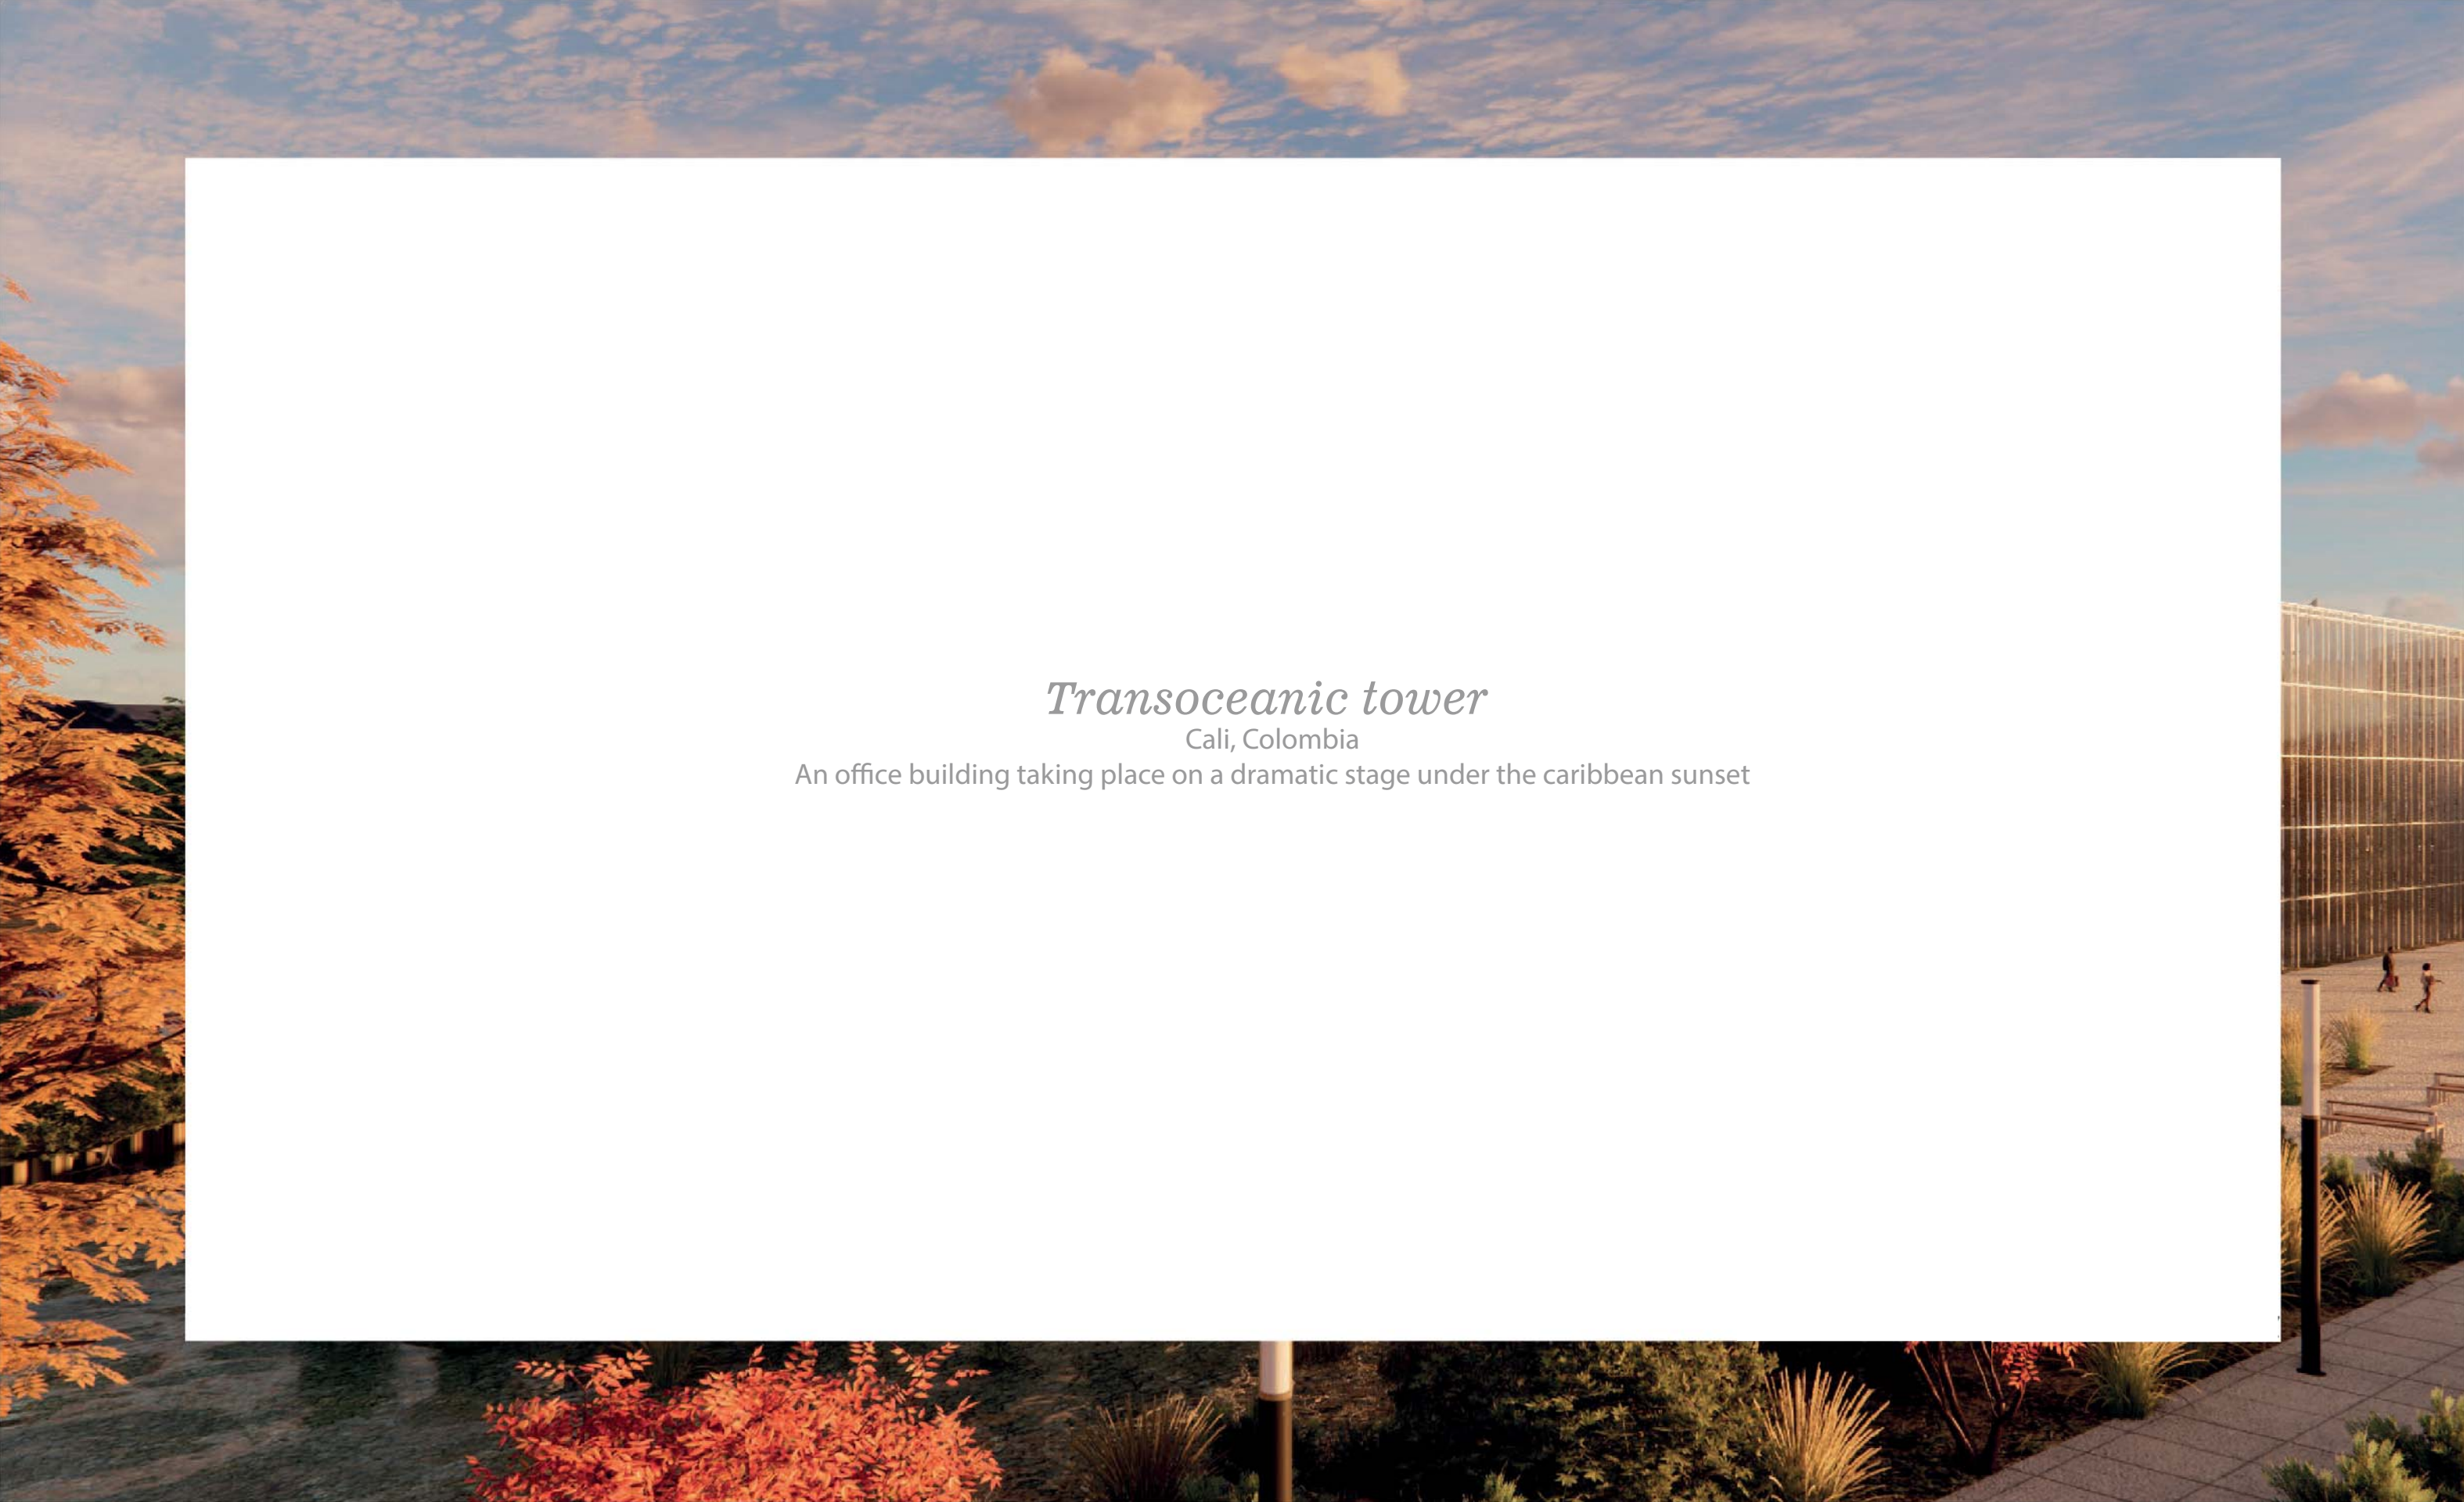

concept approach

In the tapestry of twilight, cultures intertwine, as the sunset weaves a story of unity in hues divine, where borders blur and souls entwine, beneath the canvas of a shared celestial design.

atardecer is a lighting fixture and side table piece. It aims to immerse the viewer into their memories of a sunset. It fits harmoniously with the caribbean tropical greenery and craftsmanship of the culture.

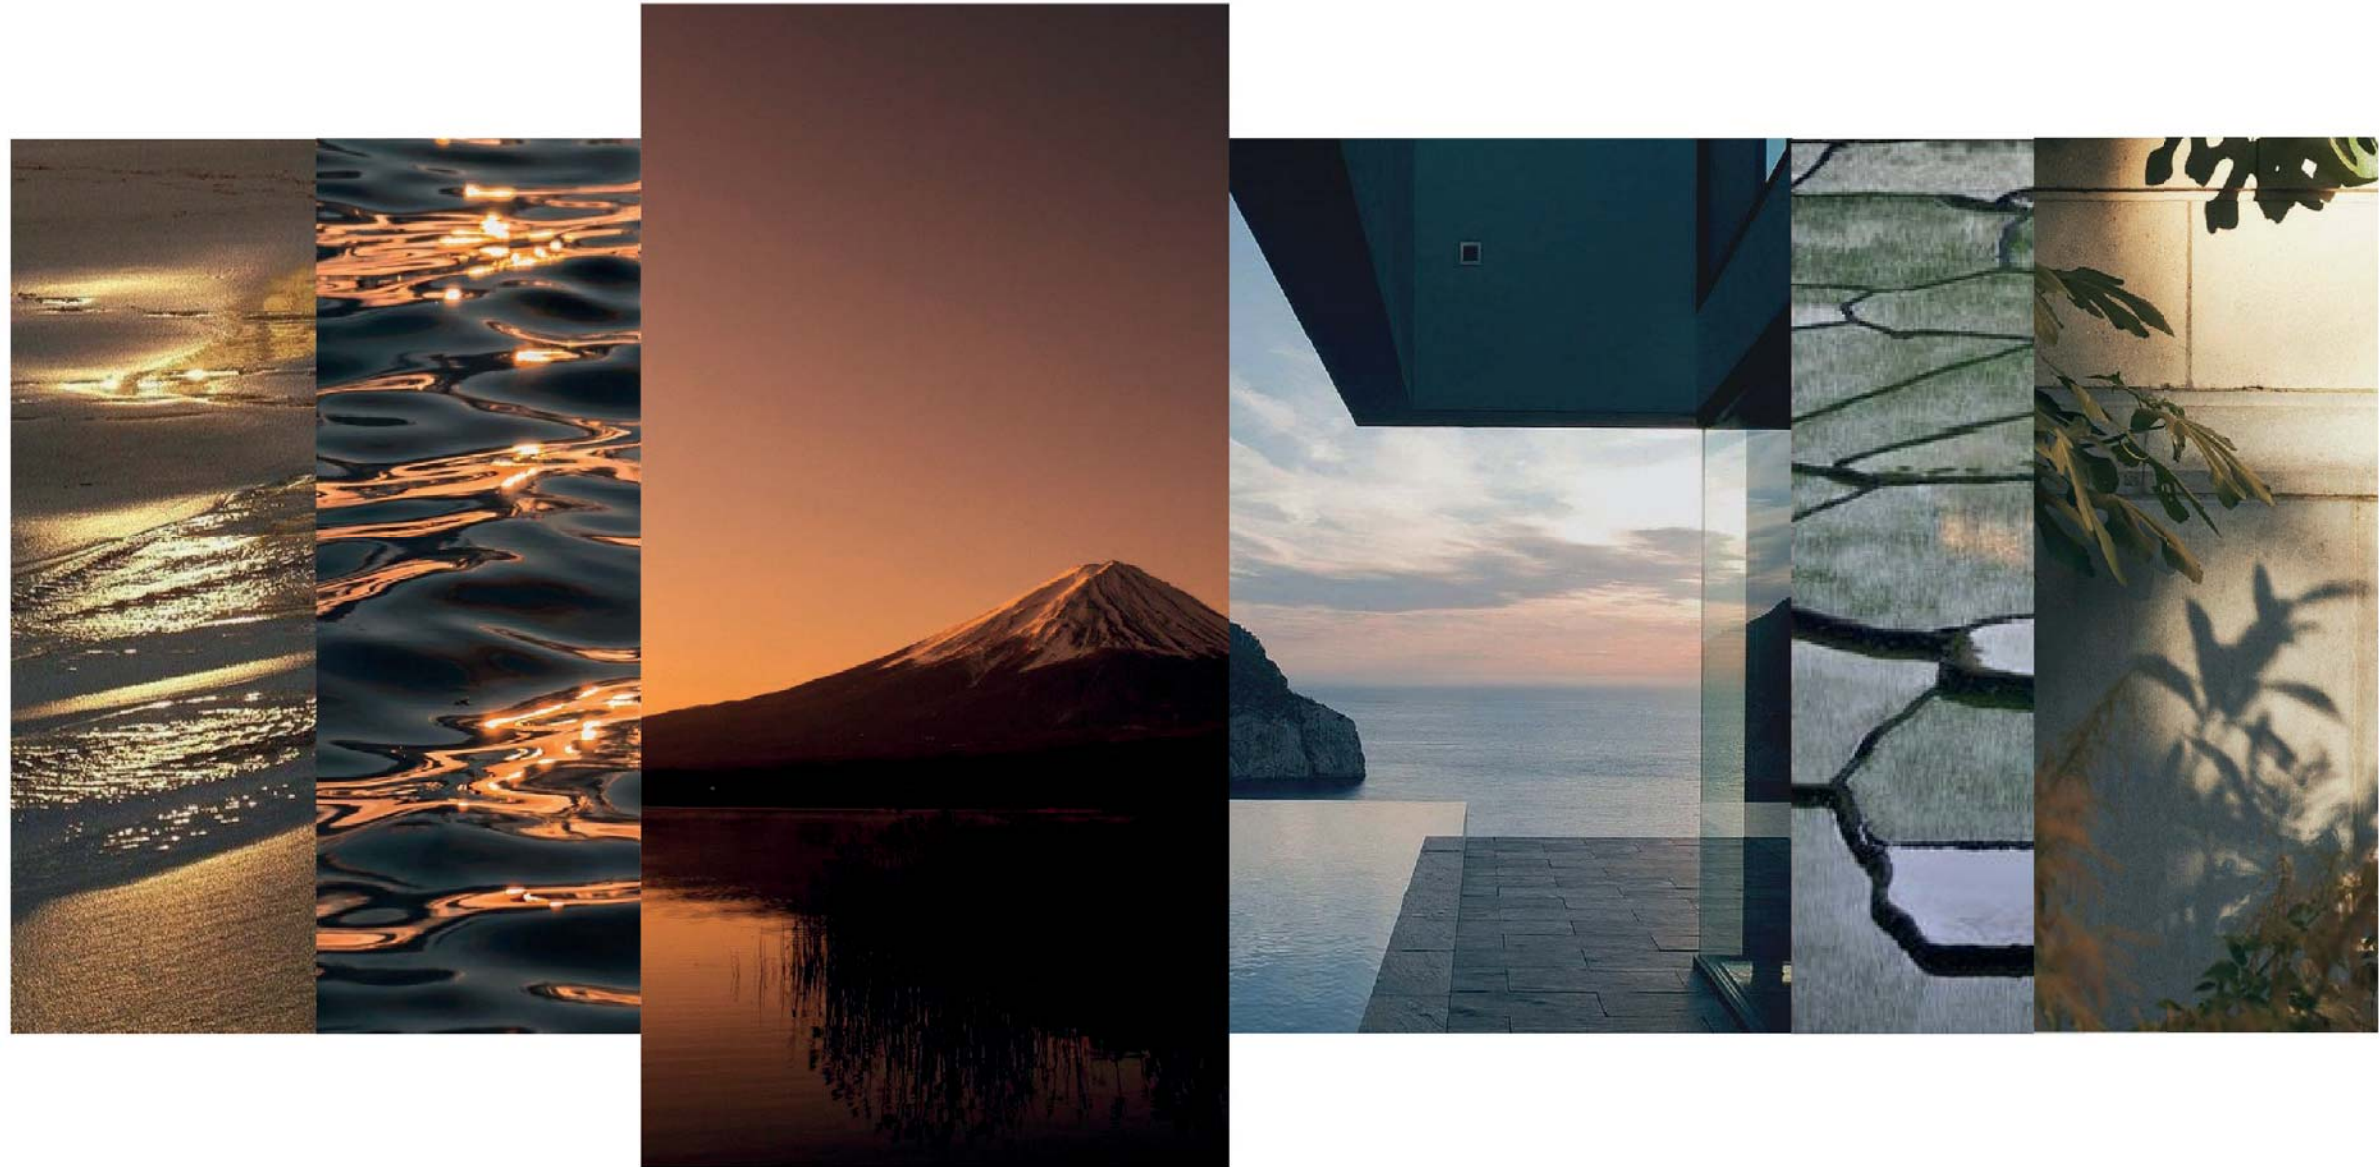

Transoceanic tower

Cali, Colombia

An office building taking place on a dramatic stage under the caribbean sunset

The narrative

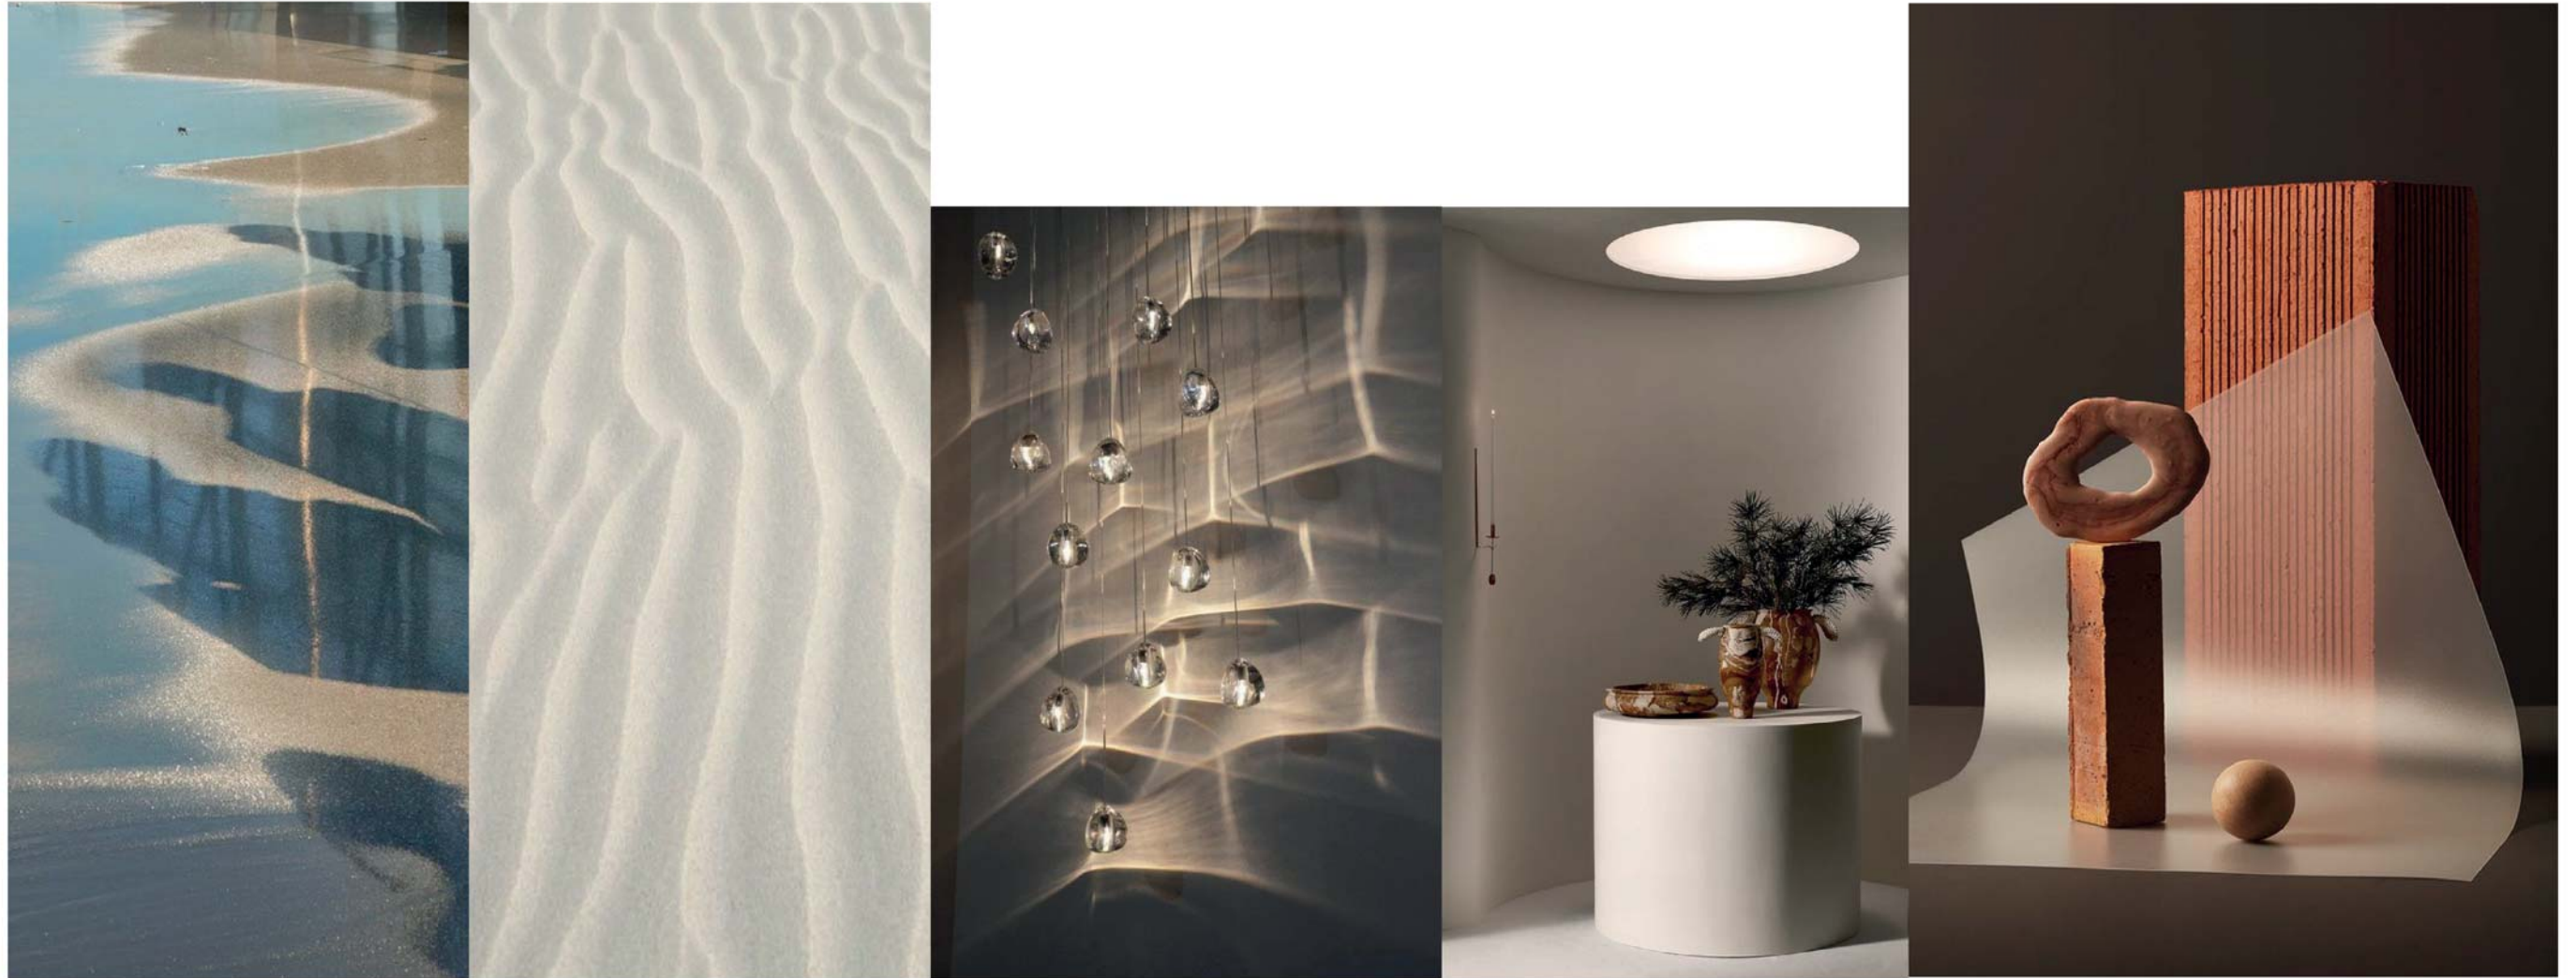

An office building experience where sea waves, mountain landscapes, breathtaking sunsets, and wild greenery collide as one

exterior design

As a Colombian designer, architect, and as a global citizen, my morals of tenacity, perseverance, and sensitivity to local craftsmanship led me to view the cultural heritage of a place as the starting point in the creation of design narratives that shape one-of-a-kind environments with a strong sense of place, captivating experiences that engage the mind and senses, anchored in authentic and bold storytelling, intriguing material choices, and a playful touch of experimentation.

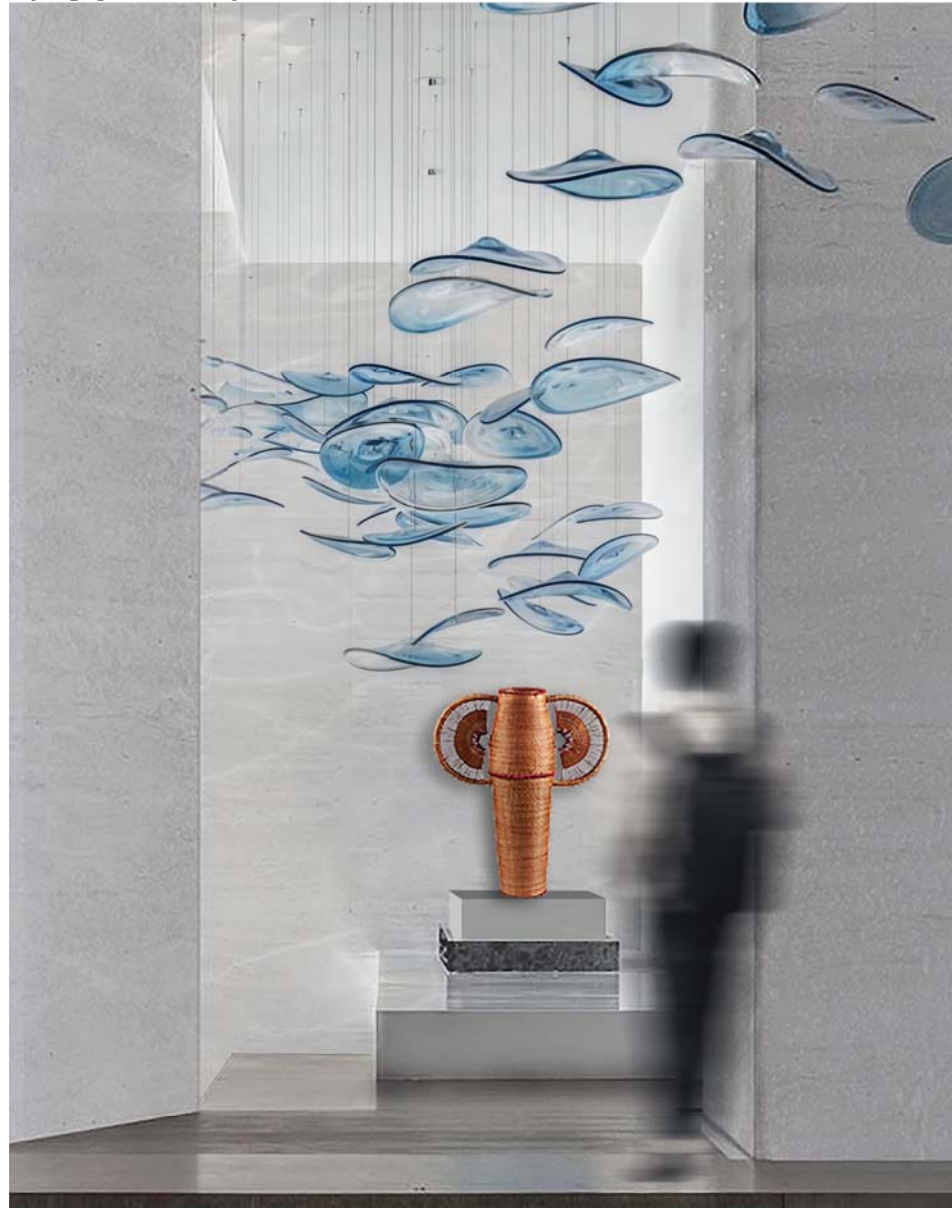

interior approach

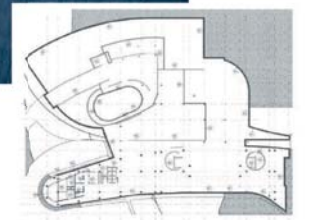

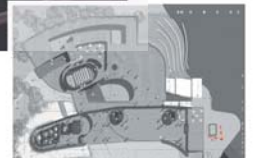

the interior

the interior of the glass wavy building is full of islands of serenity and contemplation. same as the ocean, this design is shaped by diverse islands, little contained spaces filled with aphrodisiac experiences, paradisiacal ecosystems, and cultural richness.

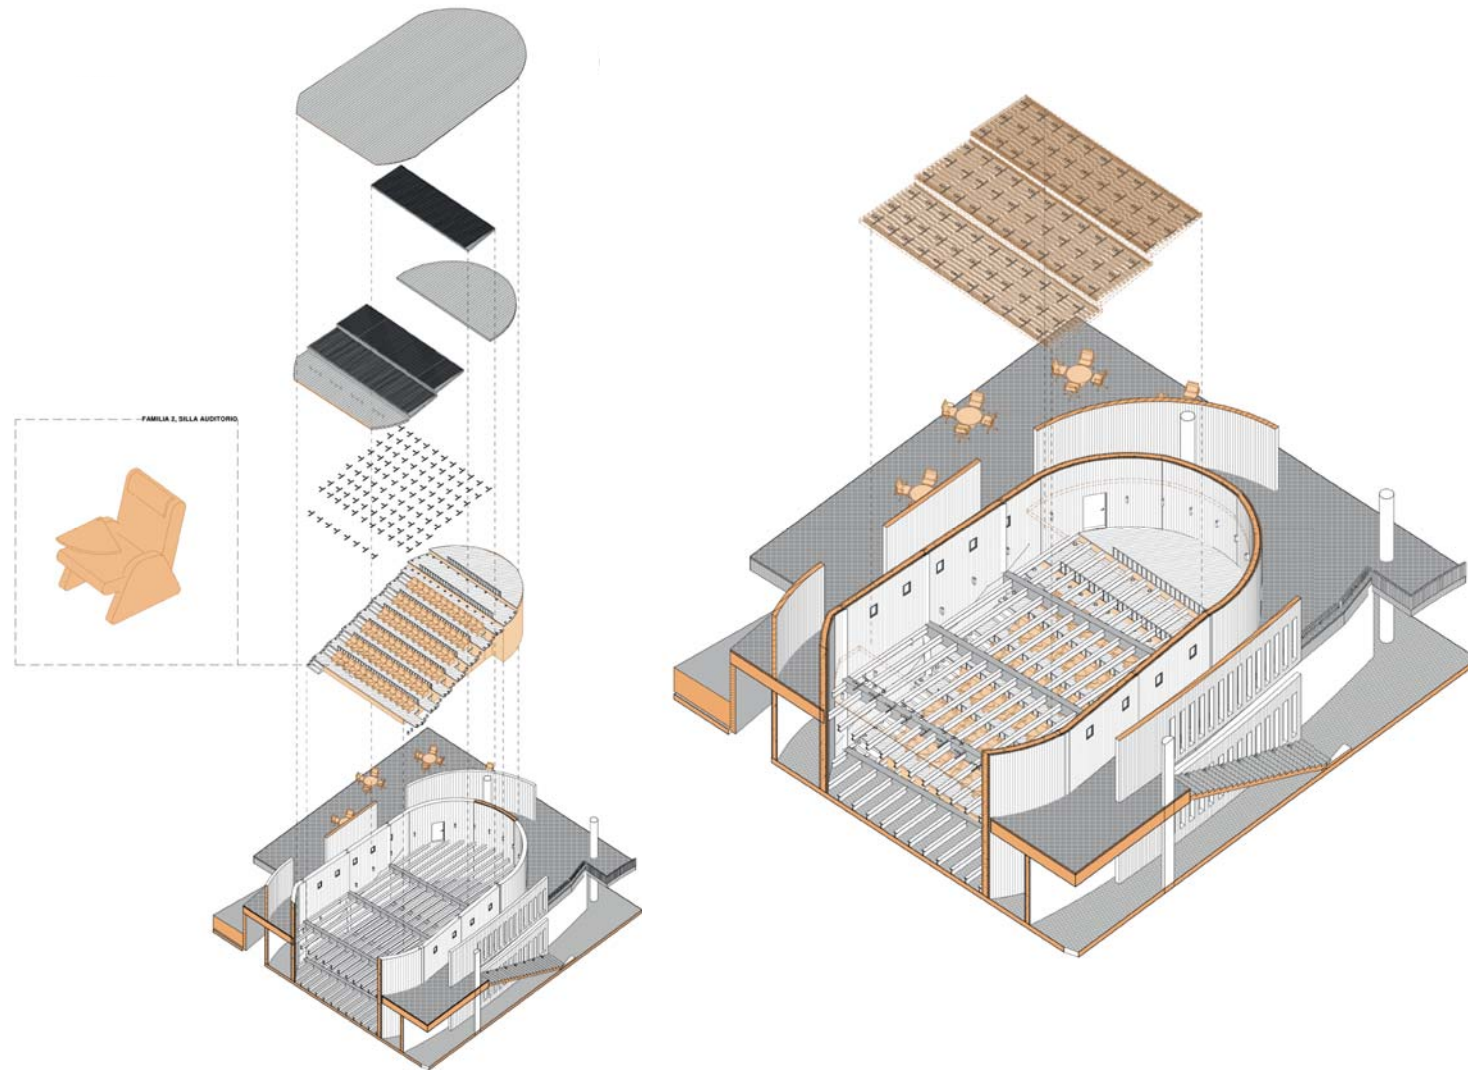

Styling approach - Lobby, Back corridor

Every element in the space is *intentional*.
Even the little corners possess the power to evoke the most *captivating surprises*.

basement auditorium

Within the auditorium's walls, where silence reigns and dreams engage,
Colombian sunset casts its spell, turning seats into a vibrant stage.

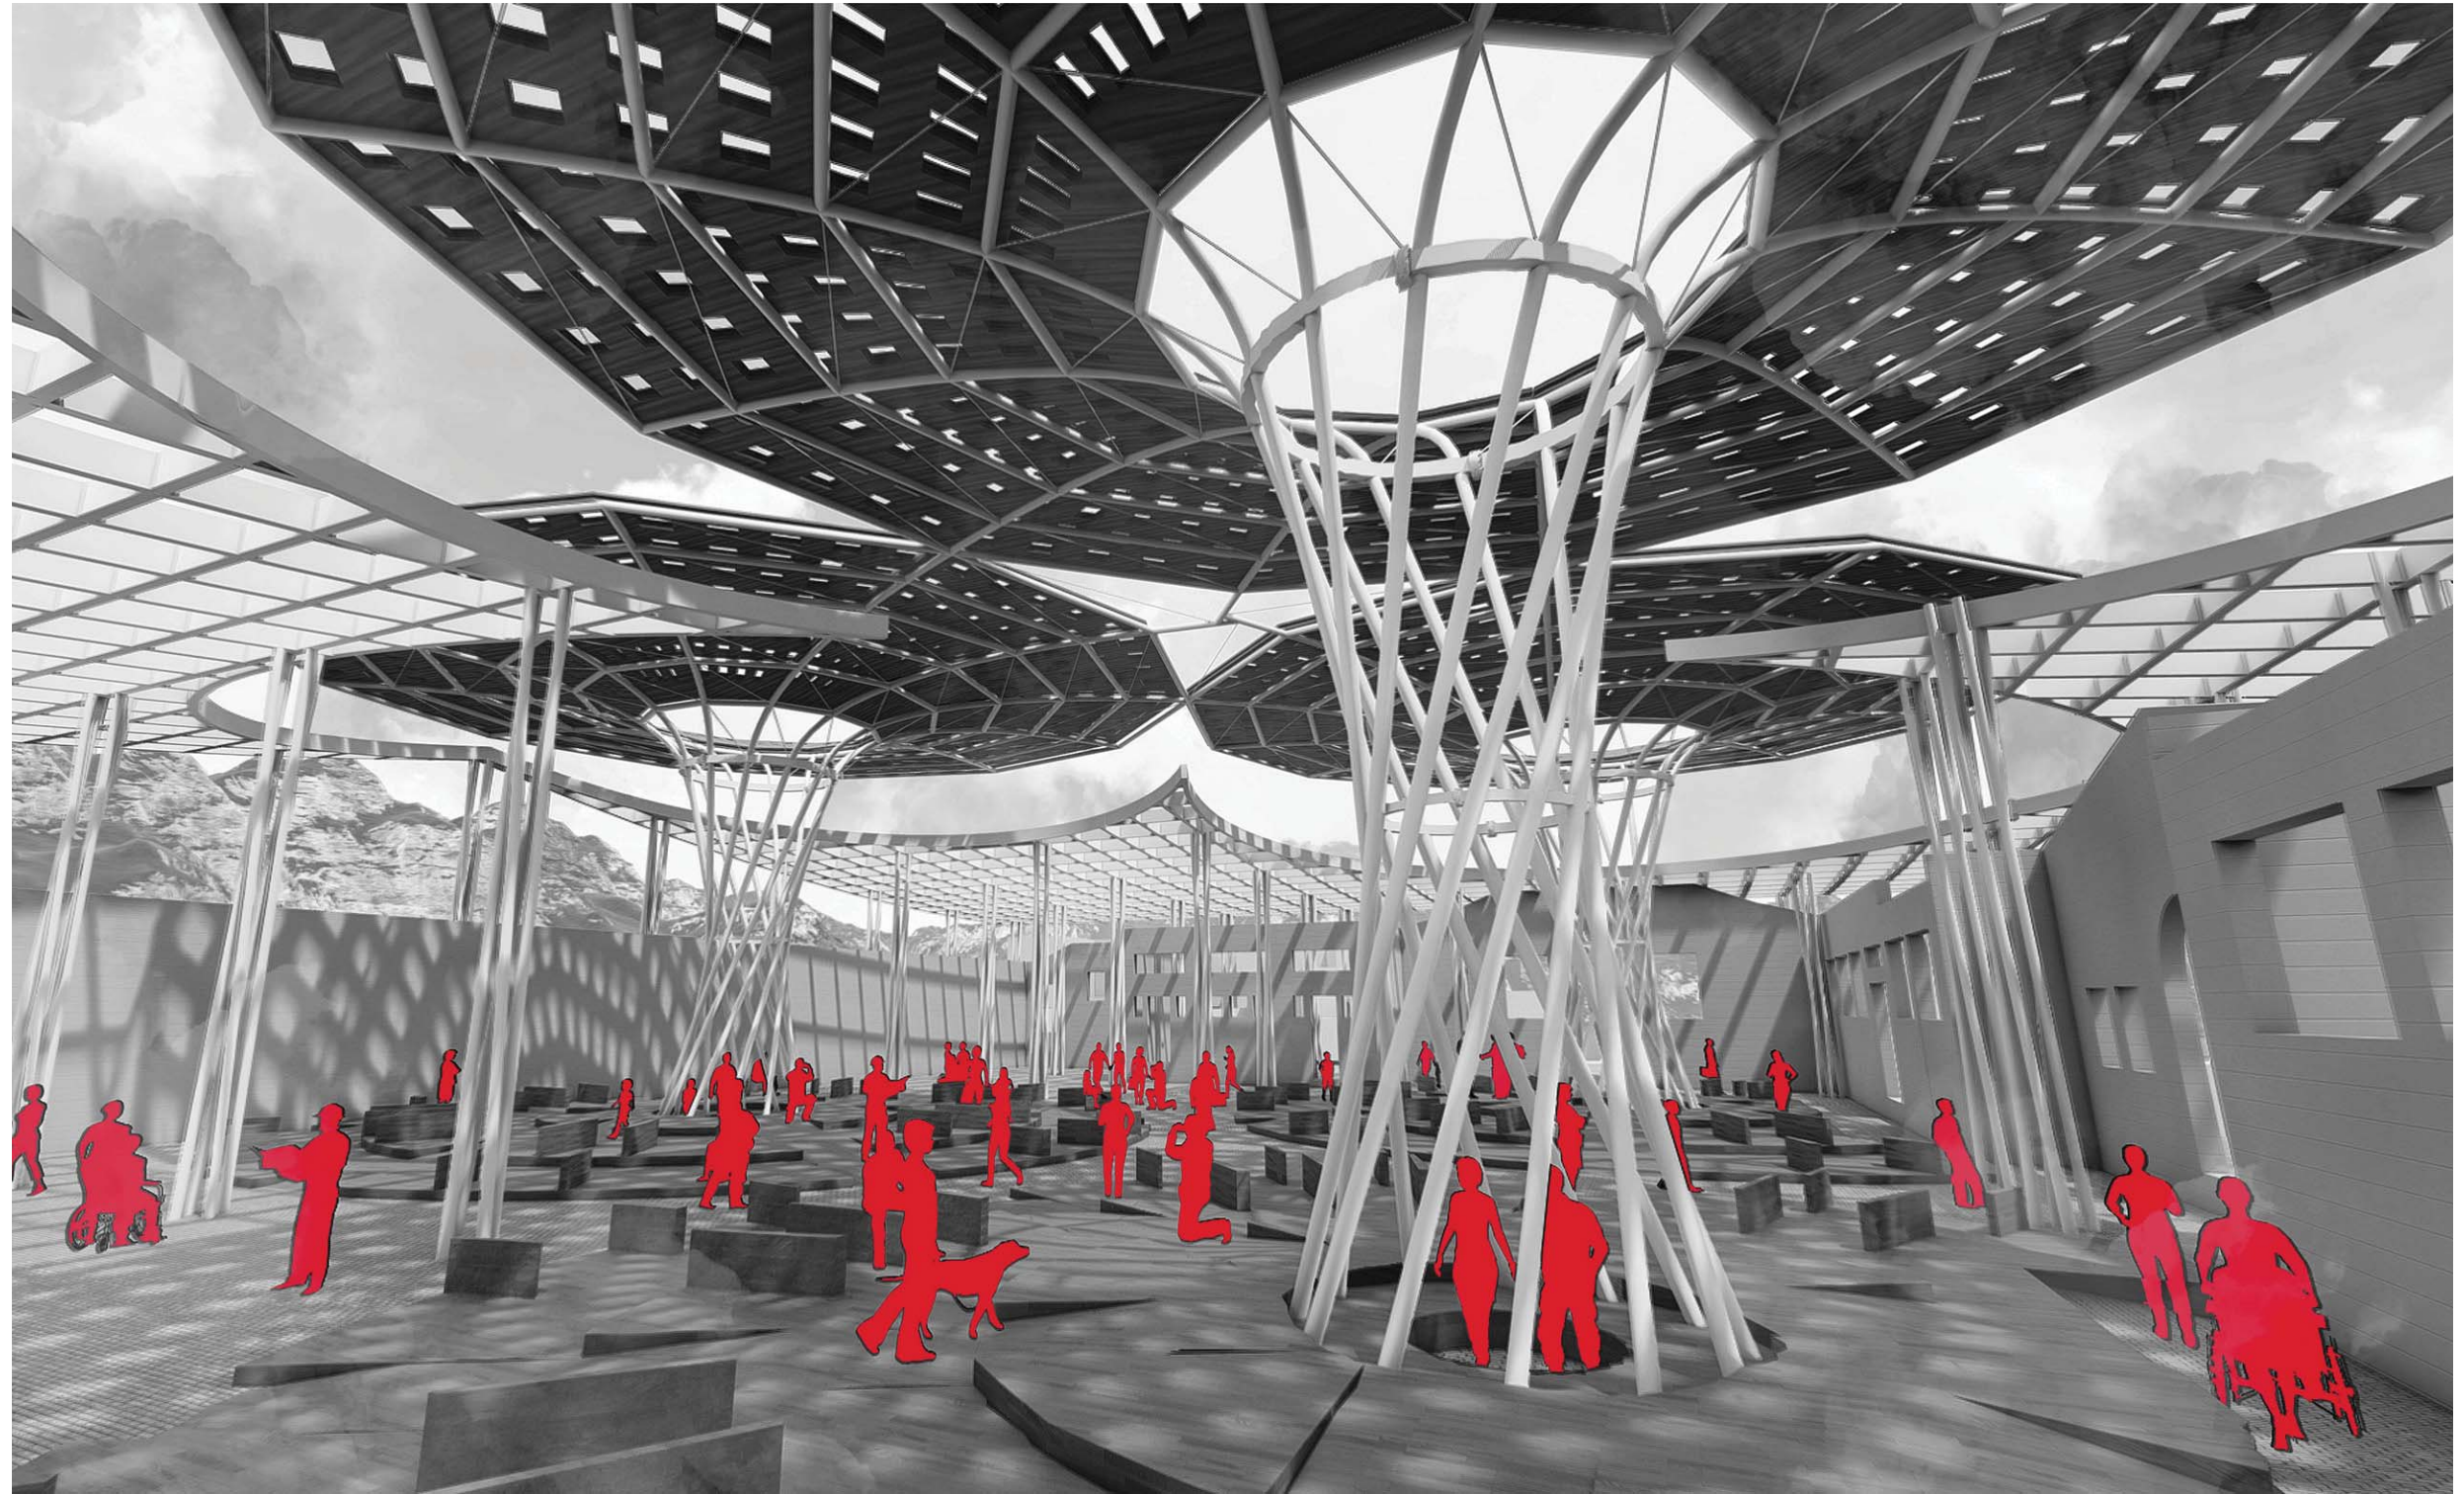

*In Cali, as the sun sets low,
Culture's heart beats with a warm glow.
Salsa and sunset, intertwined in the air,
In this city's rhythm, traditions flare.*

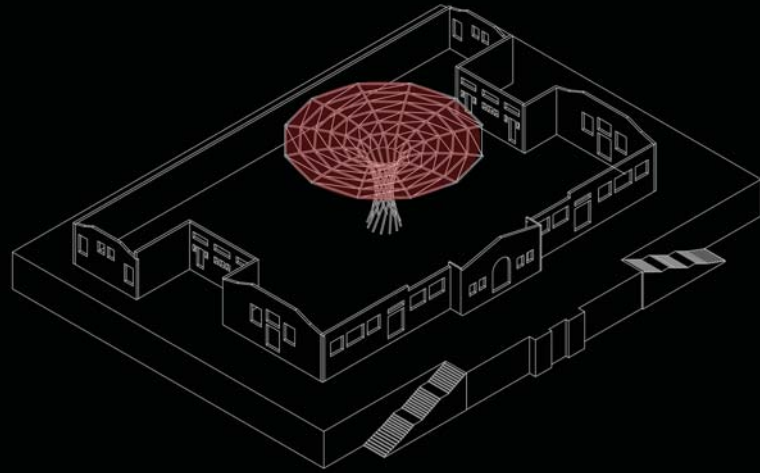

compluvium plaza

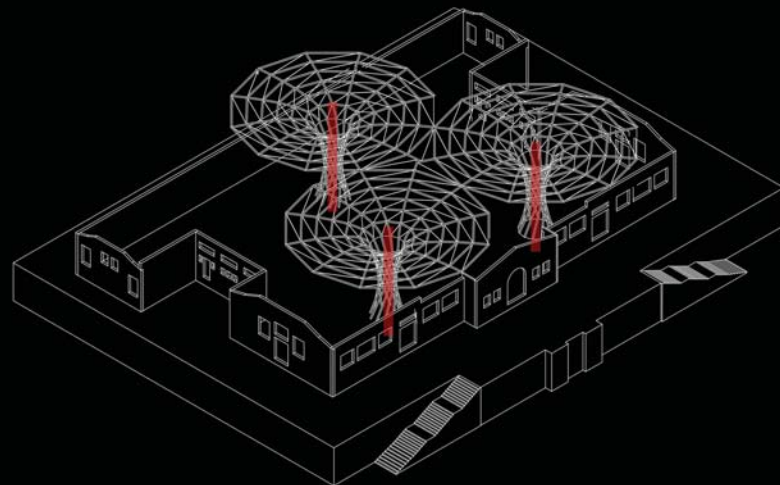

retail design

a plaza that captures the sense of belonging, bold experimentation, and local programming

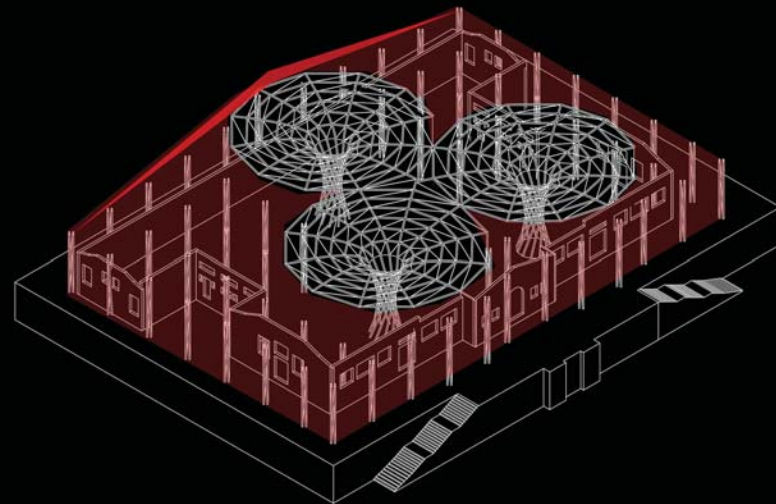

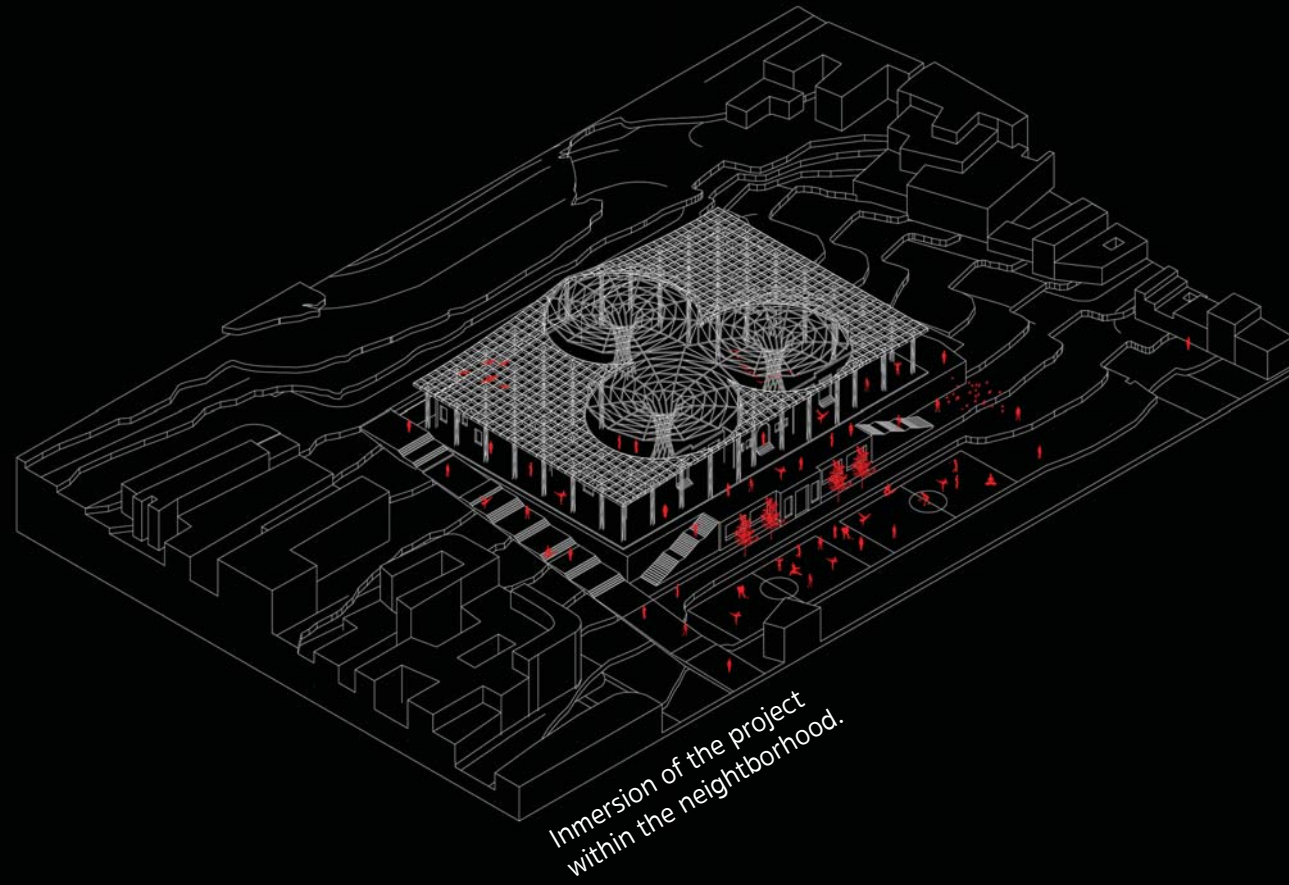

First piece,connector of the others.

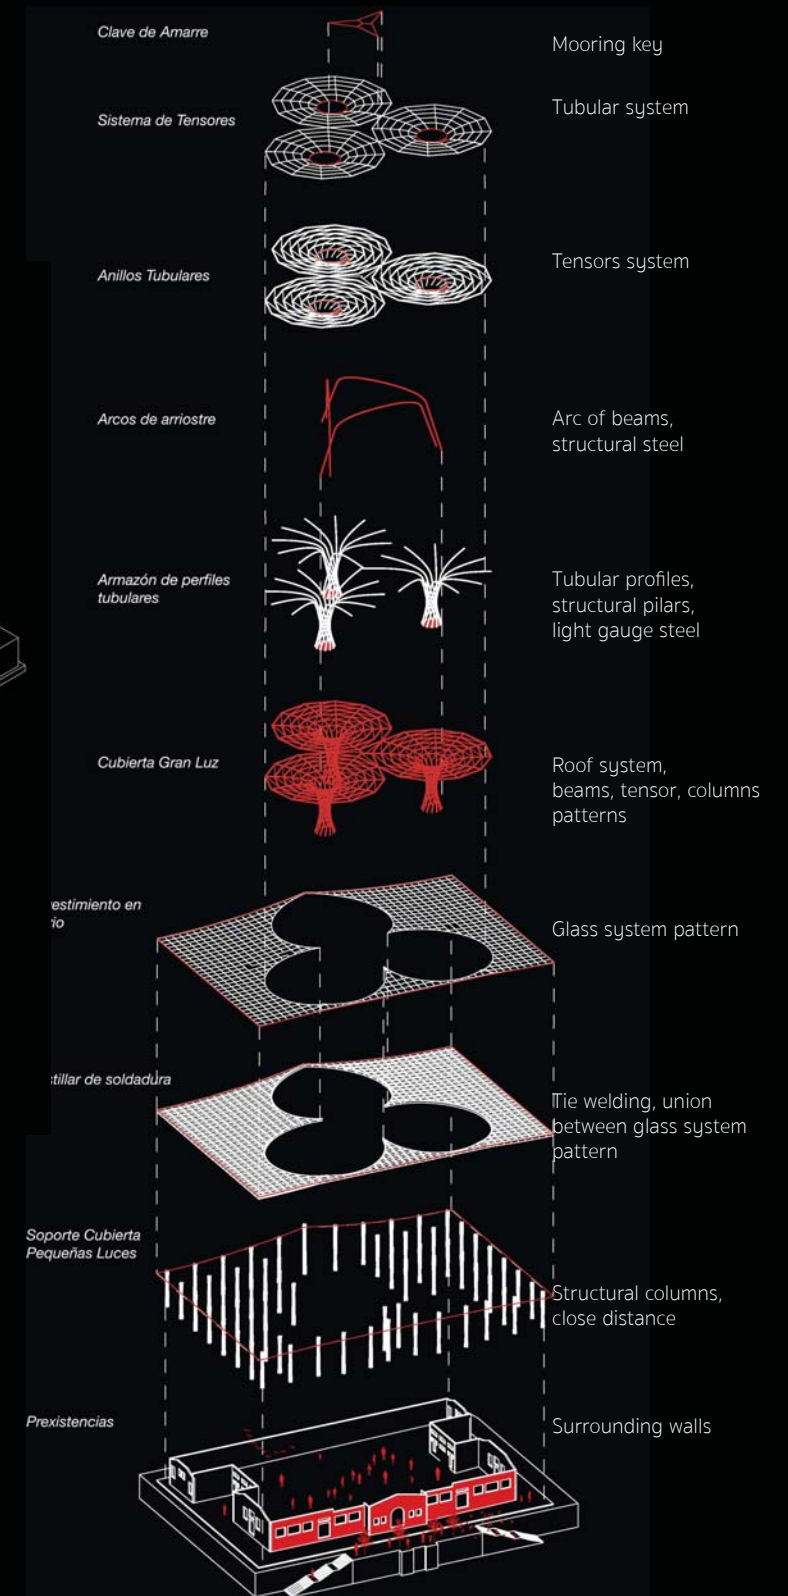

Connection of the Three elements

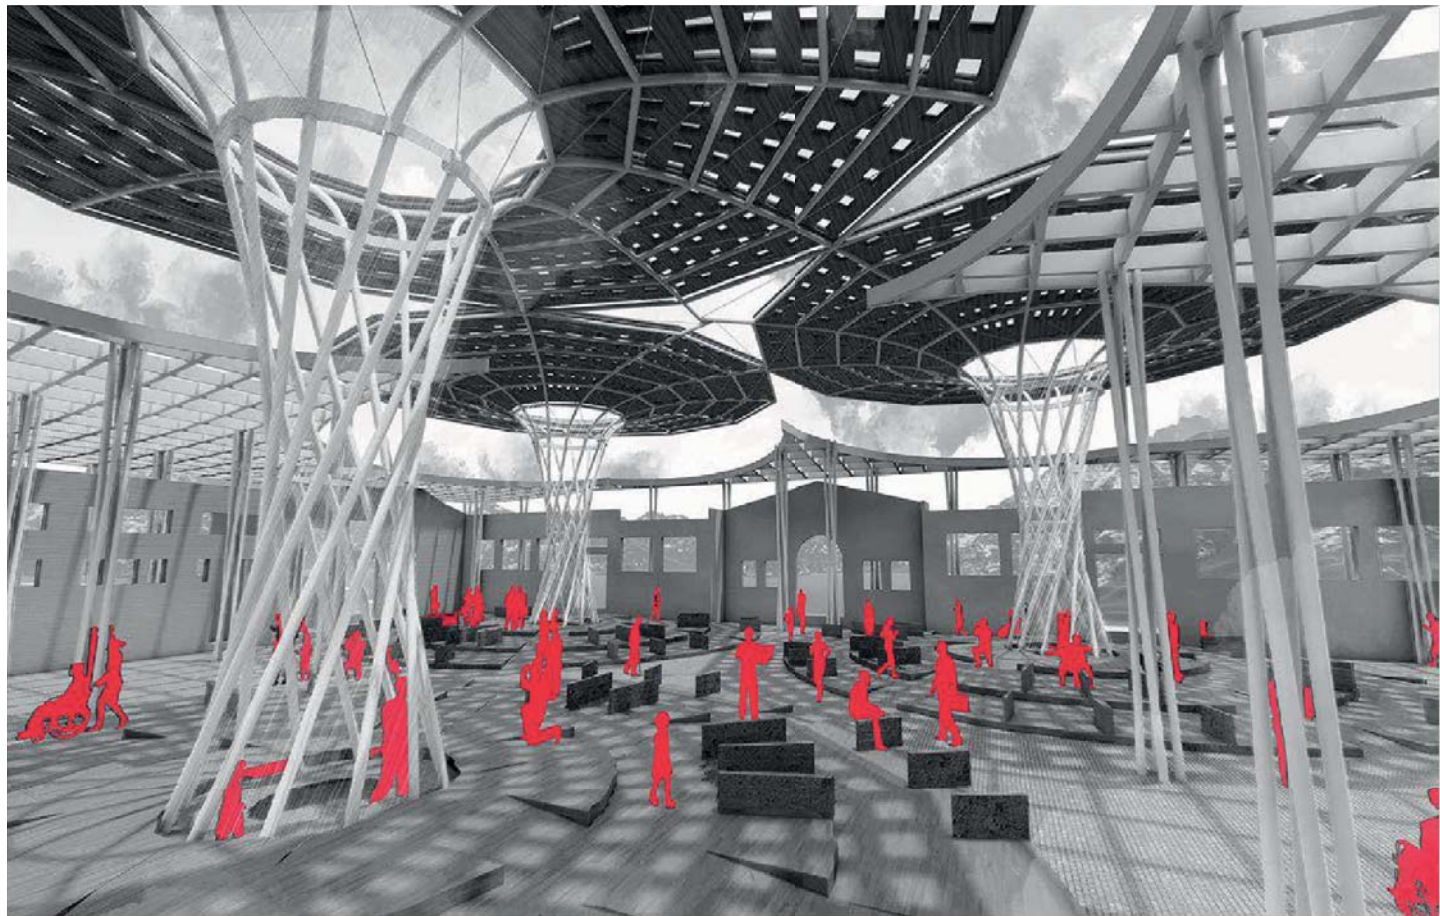

Network of the rest of the ceiling,
column, beams and slope.

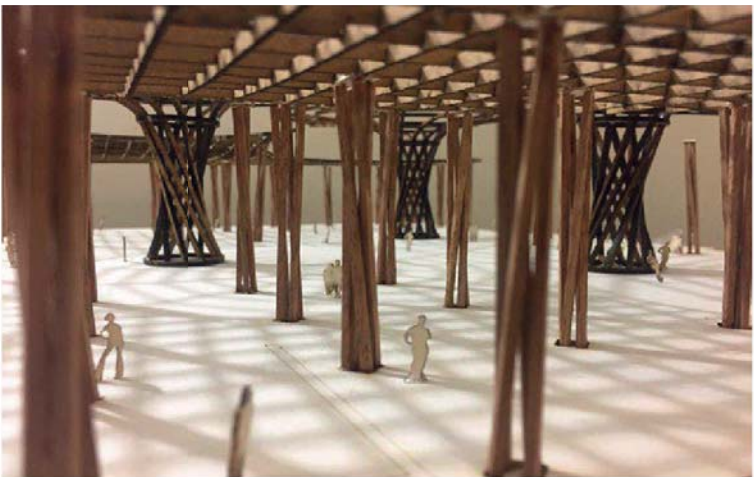

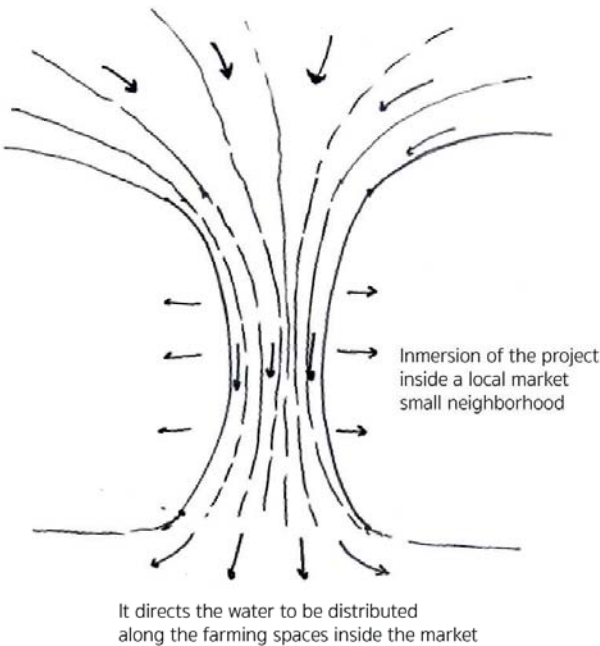

Immersion of the project
within the neighborhood.

Disposal of water from the rain

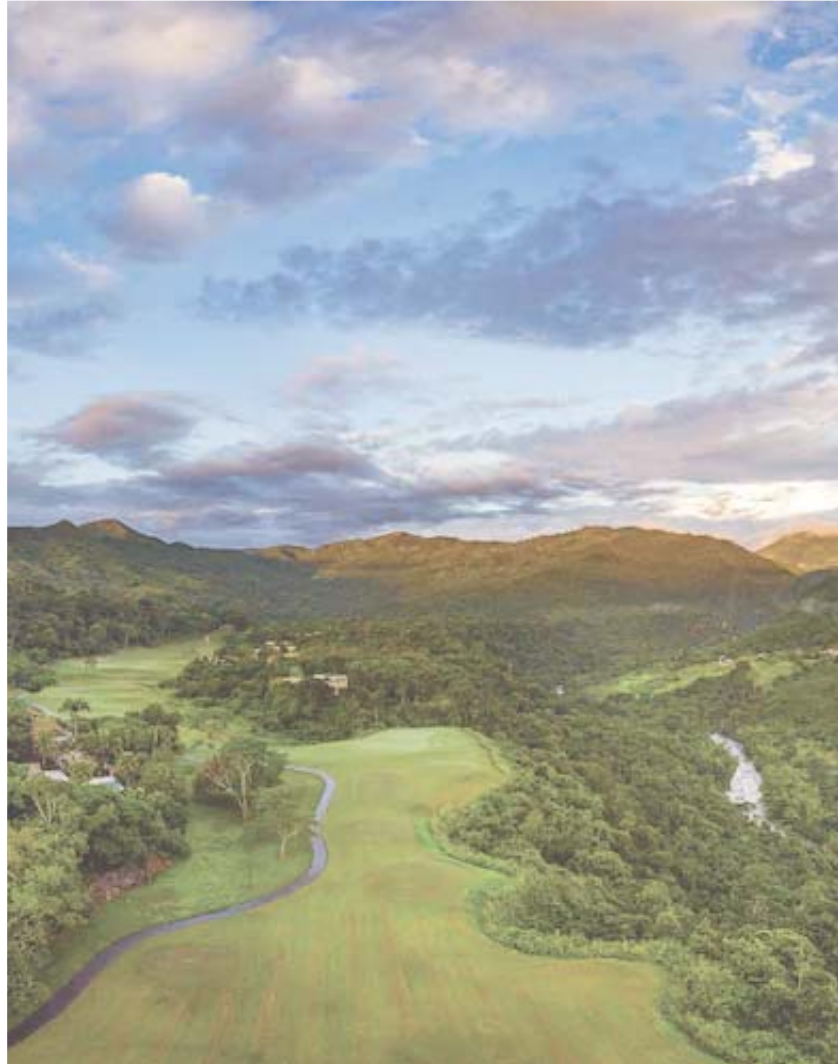

RAIN GARDENS, INTERNAL PATIOS, AND FARMING PRACTICES

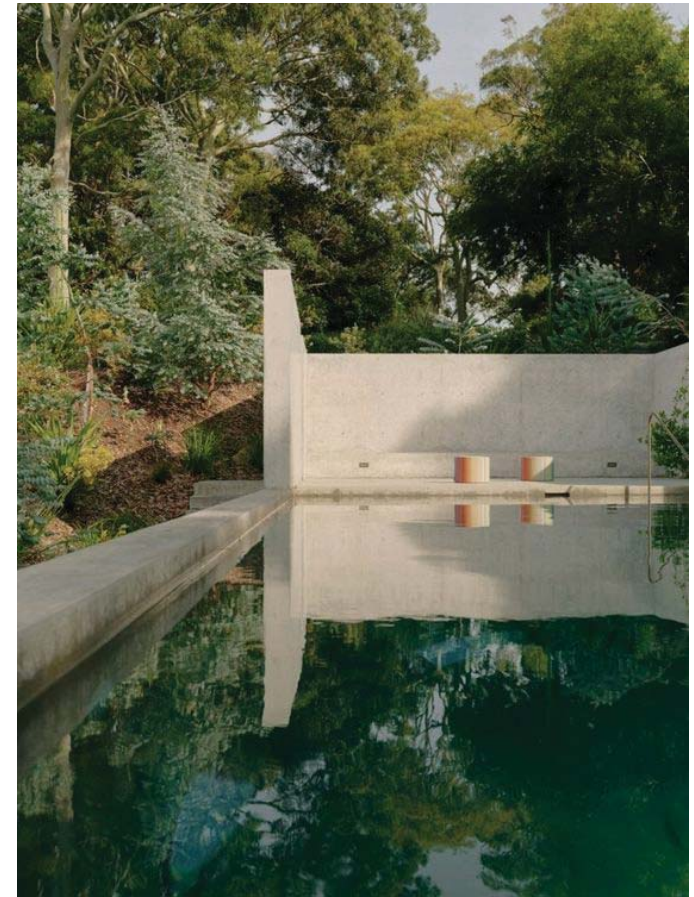

boolean villa
residential design
a place where the sense of home meets

site concept

In Mesa de Yeguas, a refuge serene,
From Bogotá's hustle, a tranquil scene.
Amidst lush greenery, where time slows its pace,
A retreat from the city's frenetic embrace.

exterior concept

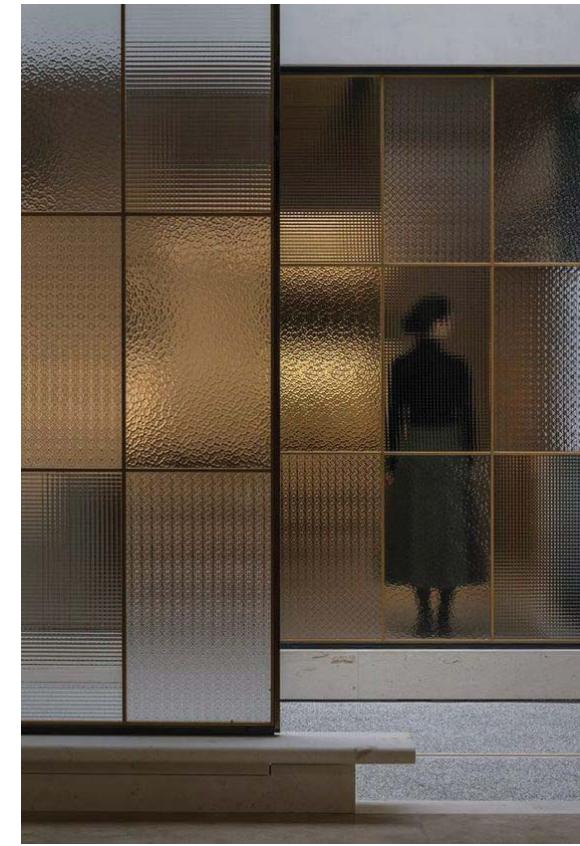

playful touch of light and shade, texture of water, and a brush of warm colors with white plaster walls

exterior approach

interior concept

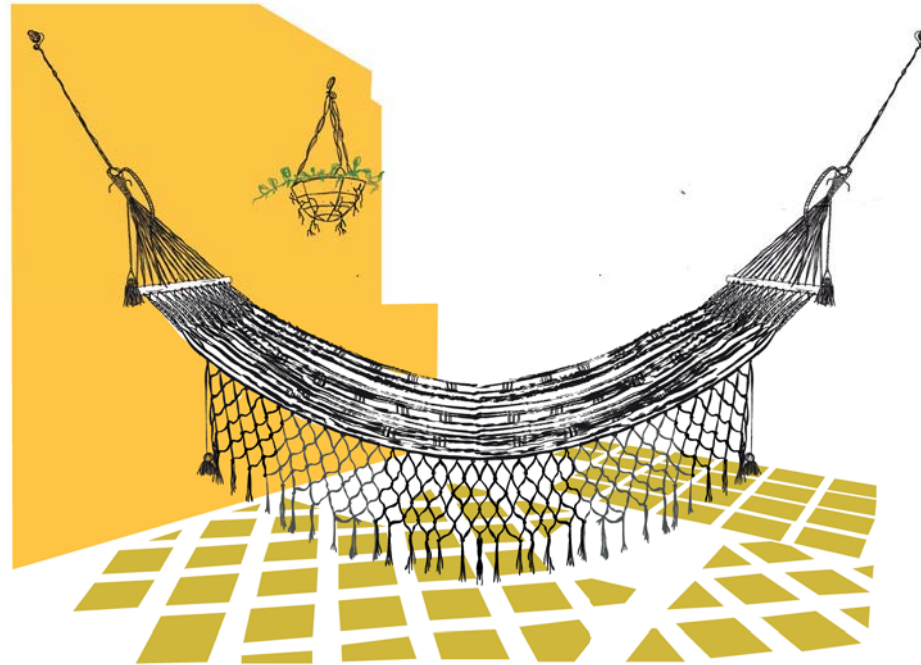

Imagine an interior where light is an art form. Crystal fixtures dangle like jewels, casting patterns on glossy white mosaics. Textured glass panels add intrigue, reflecting culture's rich tapestry. This concept weaves elegance and fascination into every corner

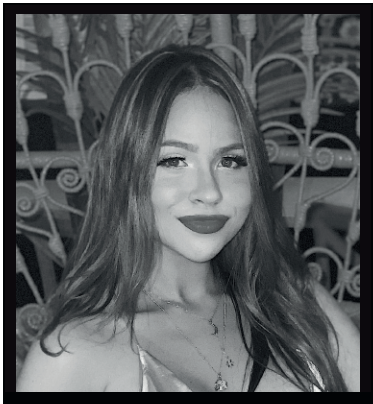

interior approach

Manufactured and crafted parts of the interior are experienced at the scale of 1:1, the interior becomes **the repository for memories** of fully embodied **sensory experiences.**"
