

Rocio Perez Alvarez

ARCHITECT

P R O F I L E

I am an Architect offering 3 years of experience in architecture and interior design industry. I have developed my professional practice through numerous successful projects. In addition, I understand the process of taking a project from conceptual design to full realization. My core strengths include a passion for learning and challenge, outstanding problem-solving skills and dedication to team work. I possess a strong technical background in programs such as SketchUp, Revit, AutoCAD, Illustrator, Photoshop and 3d MaX all of which I use on a daily basis. My hobbies include staying current with industry trends through blogs and magazines so that I can constantly challenge myself with new skill sets. I look forward to increasing contract workshops with established architecture firms that foster an environment conducive to growth while pushing creativity at all levels.

EXPERIENCE

Architect and Interior Designer

november 2021 - september 2024

PROYECTO ESPACIOS

During my time working at the company Proyecto Espacios (a company specialized in interior design and furniture making), I worked as an architect and interior designer. There, I worked on various types of projects, such as the design of hotel rooms and other hotel spaces, offices, bars and restaurants, residential areas, and spas.

Freelancer Architect and Interior Designer

January 2023 -today

-Since the beginning of 2023, I have also started working as a freelancer, undertaking architectural drafting and interior design commissions. This experience has allowed me to expand my skills beyond working in a company.

Revit

Autocad

Sketchup

Photoshop

Illustrator

EDUCATION

Architecture Degree | 2017-2022

Universidad Tecnológica de La Habana "José Antonio Echeverría", CUJAE

I earned my Bachelor's degree in Architecture from Universidad Tecnológica de La Habana José Antonio Echeverría CUJAE. During my time in the program, I gained a deep understanding of architectural design principles, building construction techniques, and sustainable design practices. I also had the opportunity to collaborate with fellow students on various design projects, from conceptual design to construction documentation. My architecture degree has equipped me with the skills and knowledge necessary to tackle complex design challenges and create innovative solutions that meet the needs of clients and communities alike.

Certification in Facility Management - Management of Buildings in their Life Cycle | 2021

This program equipped me with the skills and knowledge required to manage and optimize the use of buildings throughout their complete life cycle, from initial design to operation and maintenance. I gained a deep understanding of facility management principles and practices such as project management, energy management, sustainability, and maintenance planning. This certification has broadened my knowledge and expertise in facility management and has prepared me to tackle complex challenges in the field.
