ARQDARIOGOMEZ@GMAIL.COM

I am Dario Gomez, Architect & archviz artist.
I have a specialty in interior design and 3d modeling, photo montages, CGI arch video tours, arch plans drafting in CAD and Revit, and freehand drawings.

WORK EXPERIENCE

Since 2023

- SENIOR ARCHITECT AT "MAUSOLEOS" FUNERAL HOME

Coordination of the architectural design department

2015-2023

- ARCHITECT & RENDERIST AT "MAUSOLEOS" FUNERAL HOME

Façade design, interior and exterior design, design of new products, renderings and video tours for sale, architectural plans for executive projects, and descriptive reports for contractors.

Additionally

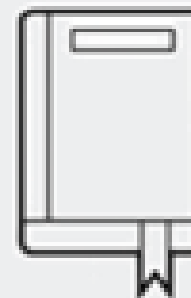

- Since 2024: English teacher (as Second Language) at DC&English

SOFT SKILLS

ETHICAL WORK
CREATIVITY
RESPONSIBILITY
TEAMWORK

ACTIVE LEARNING
DETAIL ORIENTED
SELF MOTIVATED
GOOD ATTITUDE

SCHOLARSHIP

- ARCHITECT BACHELOR 'S (2012-2017) AT INSTITUTO TECNOLÓGICO DE CHIH. II (DEGREE EQUIVALENCY CERTIFIED BY WES)
- 3DS MAX + VRAY DIPLOMATE
- INTERIORISM DESIGN DIPLOMATE
- REVIT LEARNING COURSE

LANGUAGES

- ENGLISH (CLB 7 IELTS CERTIFIED)
- SPANISH (NATIVE)

SOFTWARE SKILLS

- REVIT
- AUTOCAD
- SKETCHUP
- D5 RENDER
- PHOTOSHOP
- ENSCAPE
- LUMION
- VRAY

LETTER OF RECOMMENDATION

To whom it may concern,

I am writing to recommend Dario Gomez. He worked with us at DC ENGLISH as an English teacher on Saturdays.

As an employee, Dario Gomez was always very committed in the performance of teaching students from children, youth and adults, showing teaching skills to the needs of each student.

He is a pleasure to work with and I would not hesitate to hire him again.

Any questions about him, please feel free to contact us at +52 614 351 3551

Thanks,

DC ENGLISH

Works for Mausoleos

Innovative designs for
modern funerary spaces

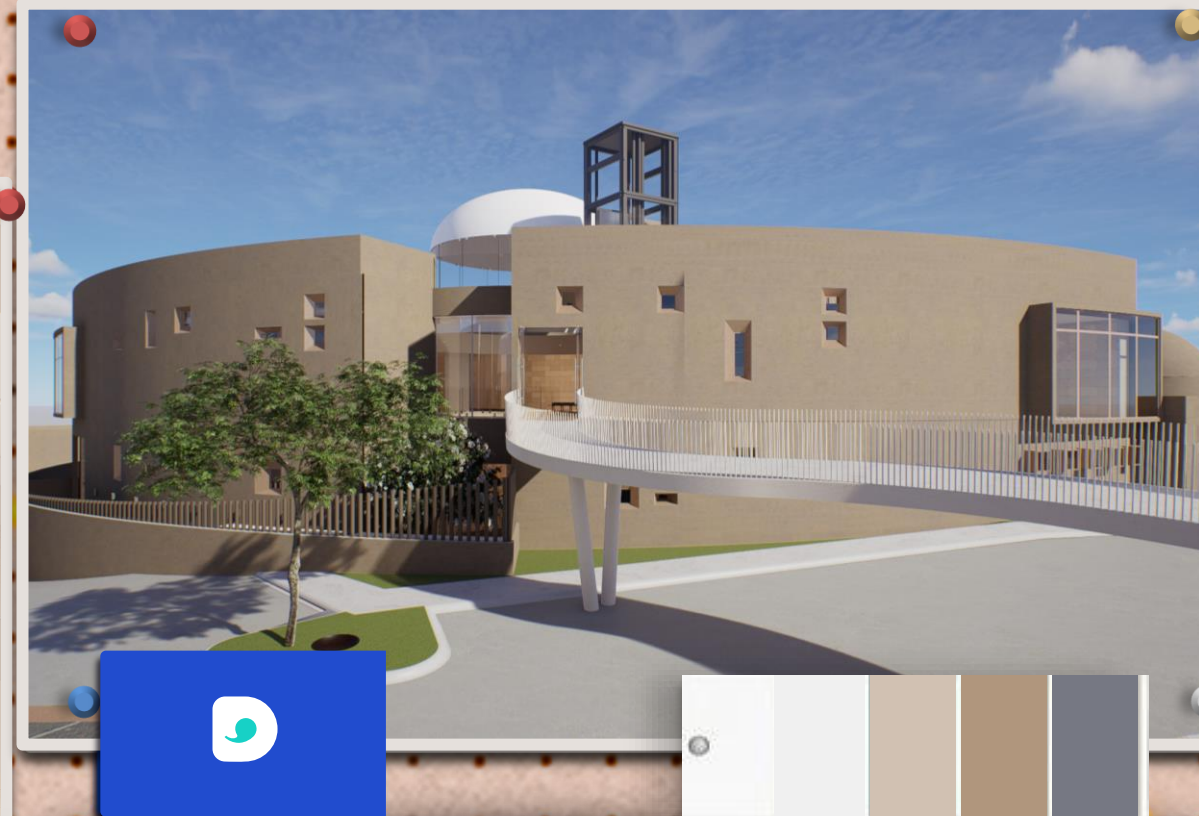

PROJECT “RE-FOUNDATION”

Design Challenges and Solutions

The goal was to move beyond the heavy atmosphere of traditional mausoleums by focusing on:

1. **Spatial Narrative:** Creating a journey through curated vignettes for varied emotional experiences.
2. **Light Modulation:** Balancing natural and artificial light to evoke reverence and tranquility.
3. **Material Palette:** Selecting elegant, durable materials that enhance tactile and visual interest.
4. **Vertical Integration:** Using multi-level structures to symbolize ascension.
5. **Flexible Phasing:** Developing a master plan for phased construction, ensuring long-term relevance.

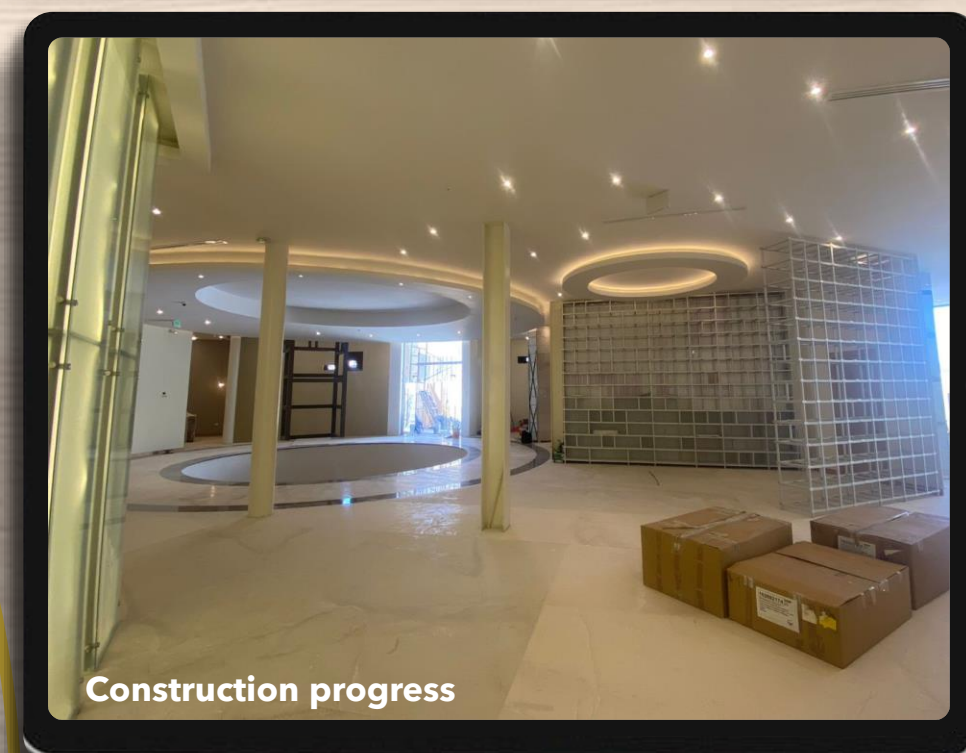

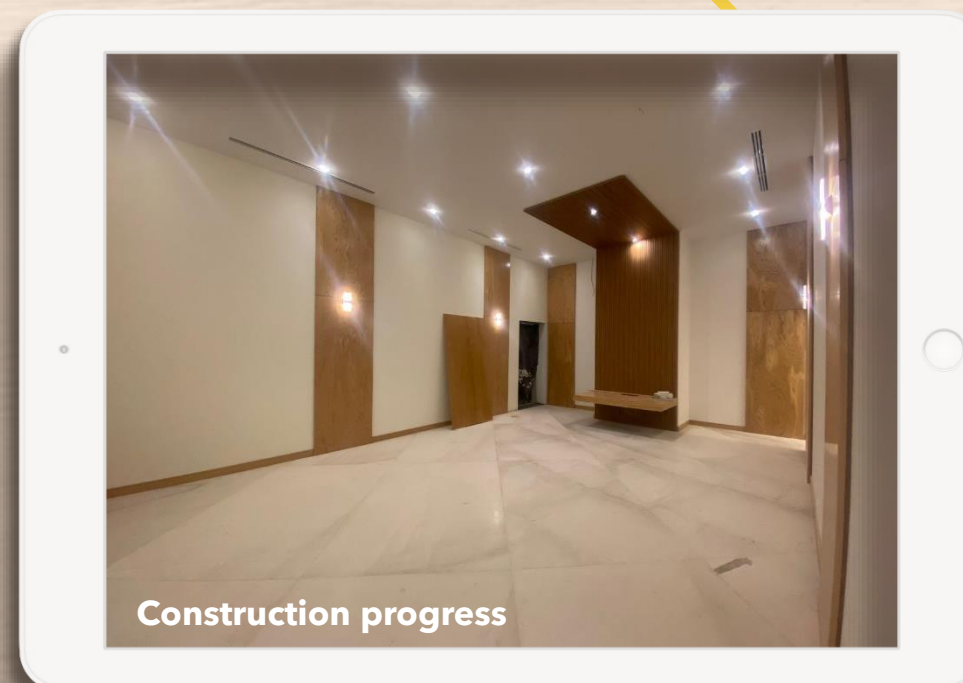

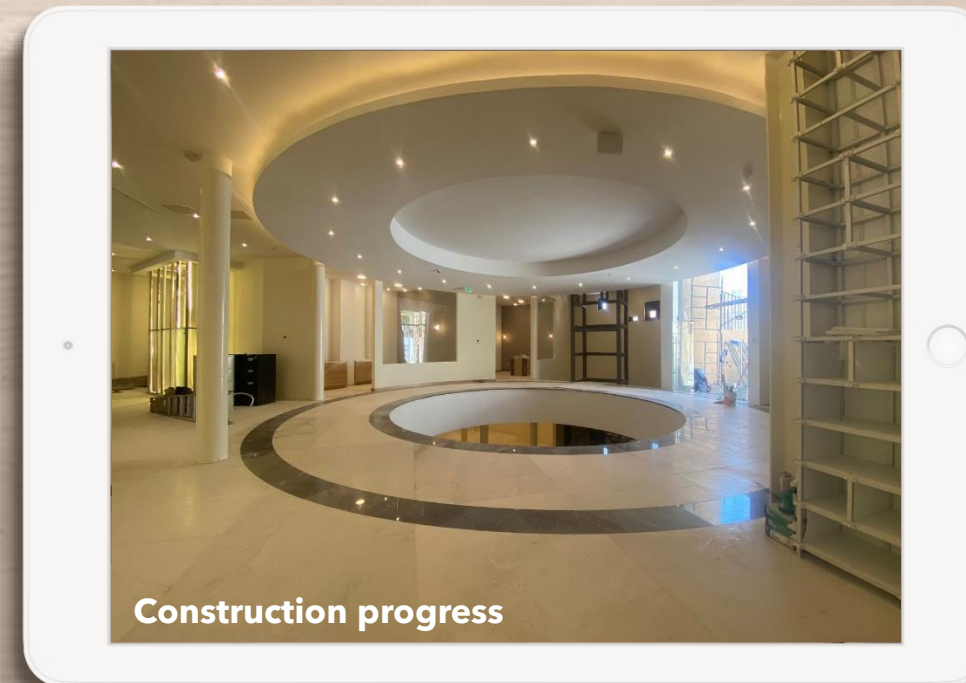

Project Overview

Project Re-foundation redefines funerary design for the 21st century, merging functionality, aesthetics, and emotional resonance within the company's flagship location. This ambitious expansion spans 1,500 m², accommodating approximately 20,000 niches across a basement, two floors, and a terrace, with a gallery-inspired open plan that enhances the visual experience.

PROJECT “RE-FOUNDATION”

 **DARIO GOMEZ**
ARCHITECT

My Role in the Project

These were some of my contributions to the project:

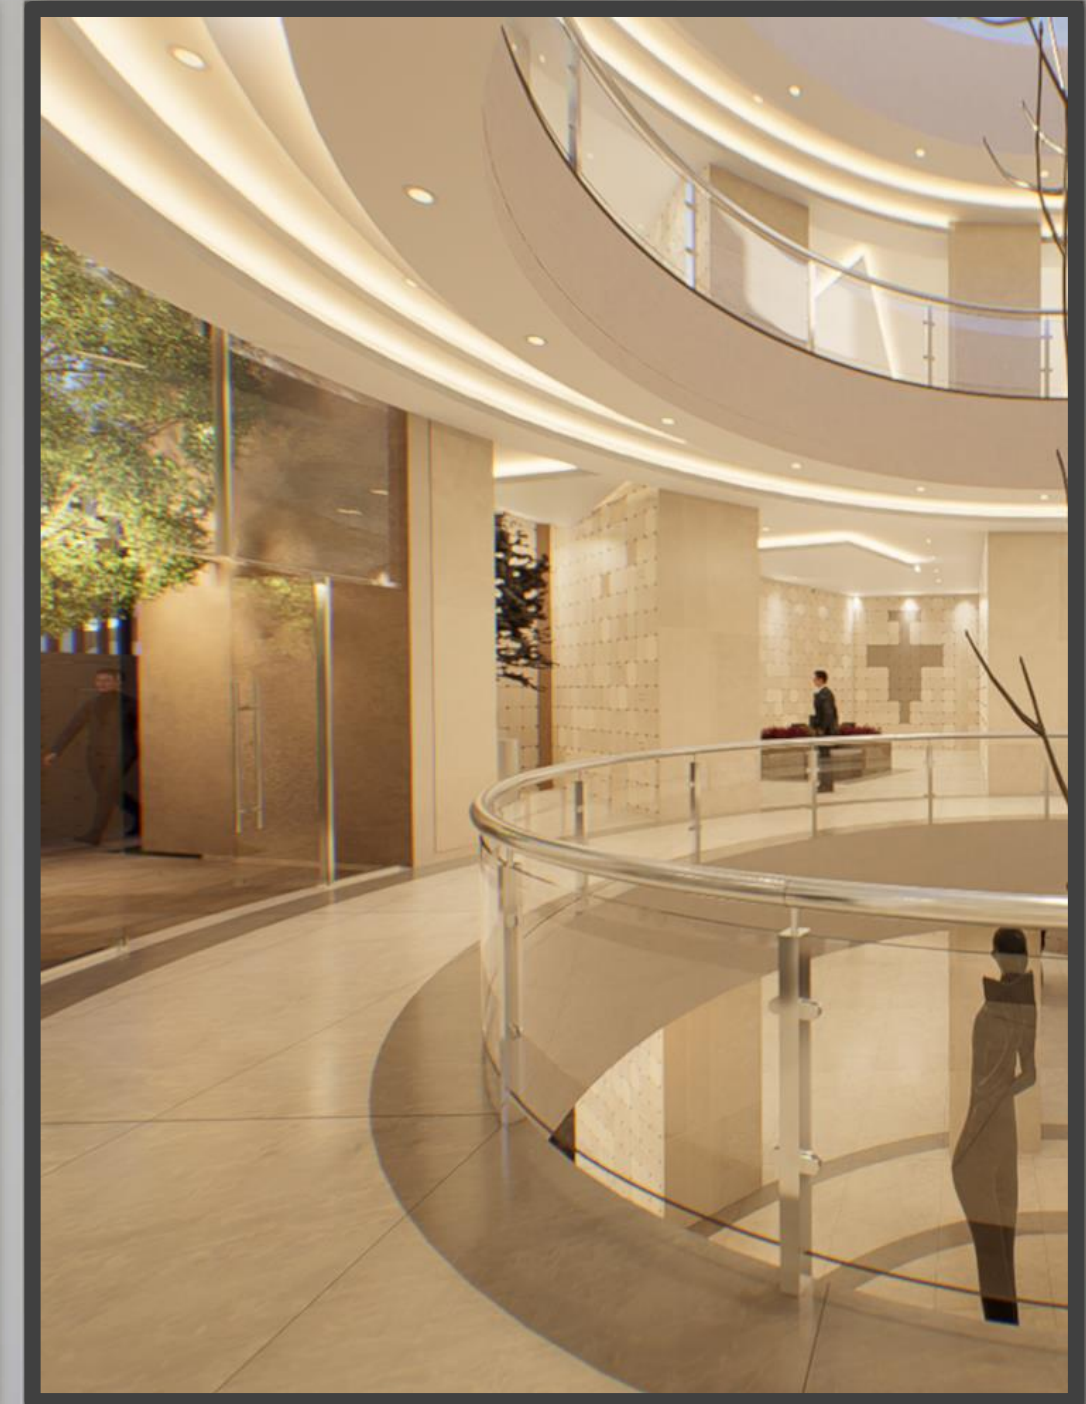

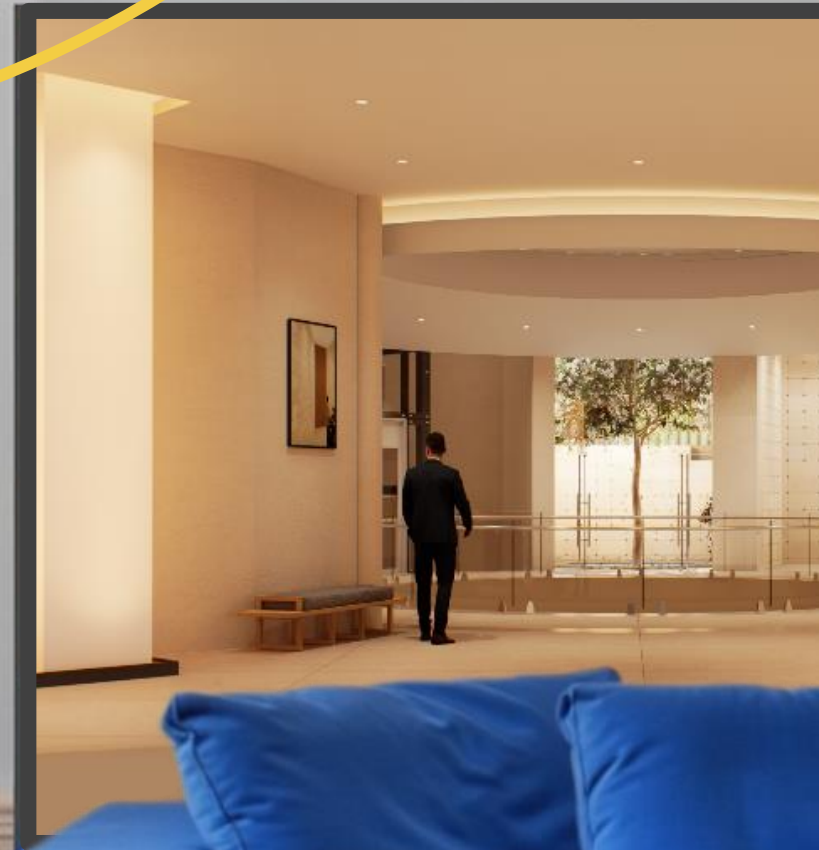

- **Design leading:** As lead architect, I oversaw the entire design process.
- **Conceptual Design:** Translated the client's vision into sketches and 3D visualizations.
- **Space Planning:** Optimized circulation and niche placement while maintaining openness.
- **Interior Architecture:** Designed cohesive interiors with selected finishes and custom fixtures.
- **3D Visualization:** Created detailed models and immersive virtual tours for client communication.
- **Documentation:** Prepared comprehensive construction documentation for the initial phase.
- **Client Communication:** Conducted regular design reviews to align with the organization's vision.
- **Construction Oversight:** Supervised on-site to ensure design fidelity.

PROJECT “RE-FOUNDATION”

Impact and Innovation

The project not only accommodates over 20,000 niches but also celebrates life, offering a meaningful space for remembrance. Its phased implementation ensures adaptability to future needs and technologies. Development took over two years, followed by another two for the first construction phase.

Design: These visuals showcase the project's design.

FUNERAL CHAPELS

Overview

Over the past eight years, I've designed various funeral chapels, requiring sensitivity and a deep understanding of emotional needs during grief. A standout project is the Plus Funeral Chapel model, a higher-end version of the Standard model, featuring unique design elements and a welcoming waiting area and room for close family members that resemble a small apartment for added comfort and privacy.

Concept & Philosophy

The primary goals are to create spaces that:

- Offer elegant and respectful design
- Provide a warm, welcoming atmosphere
- Honor and support the grieving process

Color & Materials

- Neutral and warm tones (beige, light brown, white) for serenity
- Natural materials like wood and stone for warmth and connection to nature
- Subtle soft color accents for a touch of life

Lighting

- Indirect and diffused lighting for a comforting ambiance
- Natural light complemented by warm artificial lighting
- Decorative elements to add character and highlight key areas

Juarez City Funeral Chapel Plus

FUNERAL CHAPELS

Design Details

- Integration of natural elements such as plants or floral arrangements to bring life and comfort.
- Use of soft textures in upholstery and curtains to create a warm and inviting atmosphere.
- Interior design of the waiting area and room for close family members, resembling a small apartment, to enhance comfort and privacy.

Impact and Outcome

- The design of these funeral chapels aim to provide an environment that goes beyond functionality, providing emotional and spiritual comfort to people in moments of vulnerability.
- Attention to detail, from material selection to space layout, creates a setting where people can honor their loved ones with dignity while finding comfort in a welcoming and respectful environment.

Delicias City Funeral Chapel Plus

FUNERAL SITE DESIGNS

Project Overview: Funeral Site Designs

1. Project Experience:

- Designed two complete funeral projects with a cemetery from the beginning, including master plans.
- One of them was my graduation project and the first project to be constructed, completing the first phase of the master plan.
- Developed the master plan of three additional cemeteries.

2. Site Specifications:

Total area: 10,000 m²

Key features:

- Mausoleum crypts
- Cemetery plots
- Cremation niches
- Funeral chapels and a main chapel
- All facilities are housed in one location for convenience and coherence.
- Designed customized family mausoleum monuments.

3. Design Challenges:

- **Functionality Focus:** Prioritize specific functional requirements, differing from typical architectural projects.
- **Time-Intensive Learning:** Invest time to understand these unique requirements.
- **Emotional Design:** Create spaces that provide comfort and reflection.
- **Material and Light Use:** Utilize elements that evoke serenity.

Taking design to reality (Comparative)

CORPORATE OFFICES OF “MAUSOLEOS GROUP”

My Role in the Project:

I proposed the interior design and facade during the rendering phase and helped develop the preliminary architectural plans.

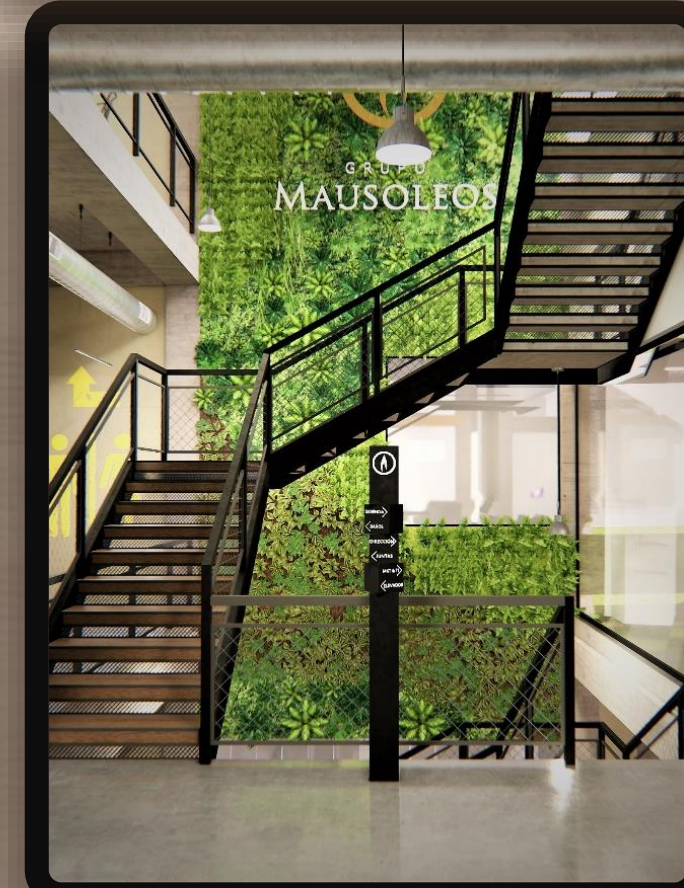

1. Design Concept and Vision:

The project combines business functionality with innovative industrial design, aiming to create a modern workspace that reflects the company's identity while boosting productivity and well-being. Industrial elements are balanced with natural touches to create a stimulating environment.

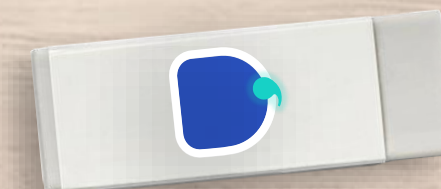

2. Key Design Elements:

- **Color Palette:** Neutral tones (grey and white) with bold golden-yellow accents to reflect the corporate brand.
- **Materials:** Polished concrete, black steel, and glass paired with wood and greenery to balance industrial and natural aesthetics.
- **Lighting:** The mix of natural and artificial lighting ensures an efficient, well-lit workspace.
- **Layout:** The open layout features a central staircase as the core, connecting all four floors.

3. Final Outcome and Impact:

The modern four-story building embodies Grupo Mausoleos' forward-thinking vision. Its geometric facade with golden accents creates a bold, contemporary look. Inside, open spaces, greenery, and industrial elements foster a dynamic, collaborative environment. The central staircase emphasizes growth and unity, promoting both innovation and employee well-being, and showcasing the company's commitment to professionalism and creativity.

- **Color Palette:** Neutral tones (grey, white) with bold golden-yellow accents to reflect the corporate brand.
- **Materials:** Polished concrete, black steel, glass, wood, and greenery to balance industrial and natural aesthetics.
- **Lighting:** A balance of natural and artificial lighting.
- **Layout:** Open design centered around a connecting staircase across all four floors.

3. Outcome:

The four-story building features a geometric facade with golden accents, open spaces, greenery, and industrial touches, fostering collaboration and innovation while promoting employee well-being.

“MEMORIES GALLERY” CAFETERIA

Overview

This project marked the company’s first attempt to implement a unique business model, combining a large café with a gallery showcasing funeral products. The design process took a year to complete, followed by over a year of construction. The goal was to create a warm, cozy café that subtly displays funeral products, ensuring both functionality and beauty.

Key Design Elements:

- **Color Palette:** Neutral tones with blue accents create a calm atmosphere, while light wood adds warmth.
- **Materials:** Wood for floors and furniture, complemented by elegant white marble with grey veining in the bar area.
- **Lighting:** Black pendant lights provide elegance and warm, soft illumination.
- **Layout:** Long blue benches with individual tables maximize space and foster intimacy.

Challenges and Solutions:

The main challenge was integrating the funeral gallery without making the space feel too somber. The solution was to house products in discreet glass cases between tables, blending them into the café’s style. Large windows and warm materials were utilized to avoid a cold atmosphere, creating an innovative space for client interaction.

Side works

“SAN FRANCISCO” RESIDENTIAL

In addition to my regular office duties, I applied my skills to other projects from different clients that refined my expertise in residential interior and exterior design.

Project Scope

This luxury residence project included:

- **Basement Renovation:** Transformed into a multifunctional entertainment space featuring a state-of-the-art TV and game room.
- **Outdoor Patio Redesign:** Integrated an existing pool and created a barbecue and entertainment area.
- **Facade Update:** Enhanced with a mix of glass, metal, and wood, and large windows for natural light.

Design Approach

- **Entertainment Basement:** Designed a cozy, modern basement with ambient lighting, a large screen framed by textured wood, and comfortable seating in neutral and warm tones for family entertainment.
- **Patio and Outdoor Area:** Created a covered barbecue area with wooden elements that complement the home's modern aesthetic, ensuring the pool area blends seamlessly with the landscaping.
- **Facade:** Balanced contemporary elements with warmth using a mix of glass, metal, and wood for a visually engaging exterior that reflects the interior's sophistication.

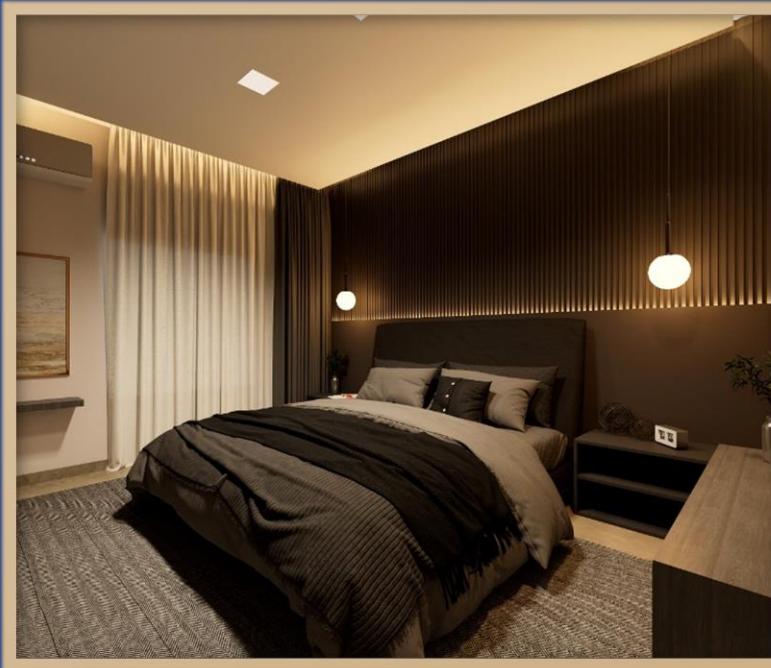

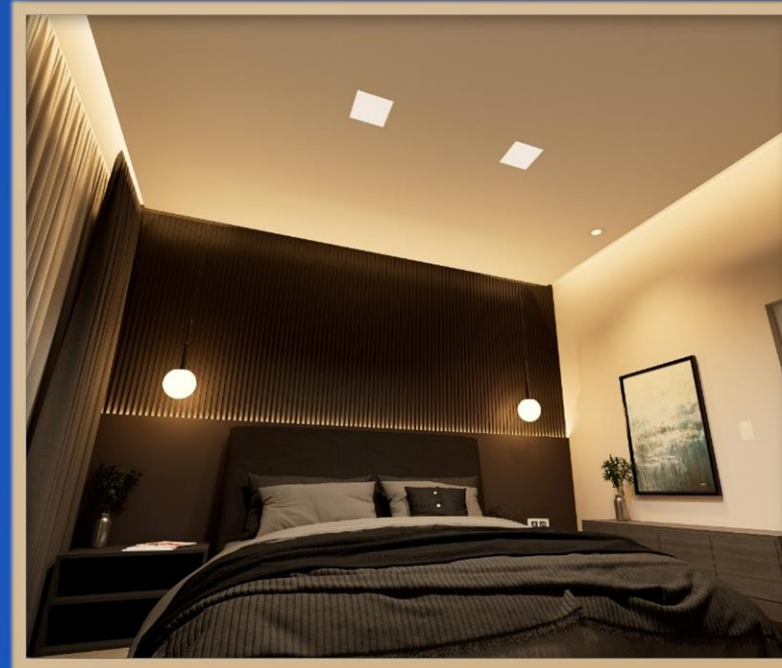

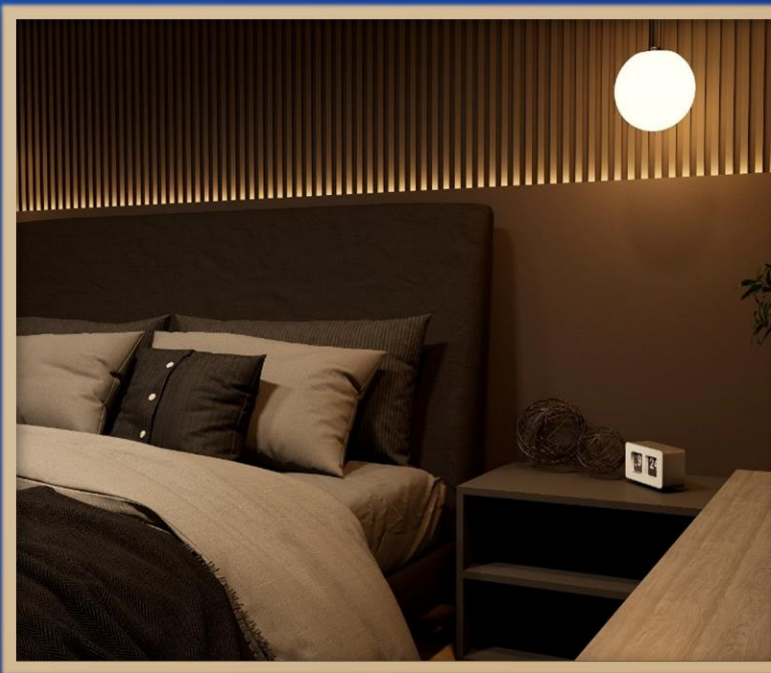

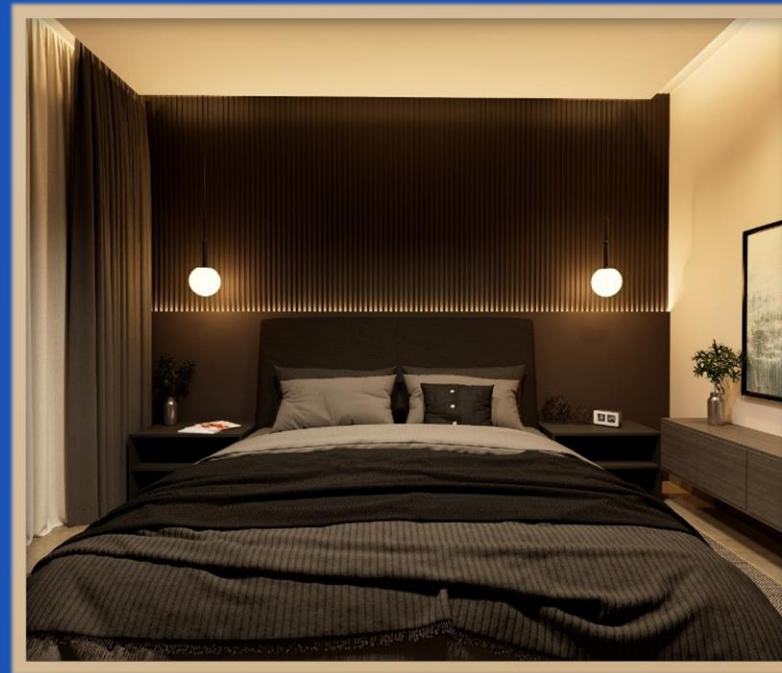

HOLGUIN BEDROOM DESIGN

Project Overview

This room renovation focused on creating a warm, inviting space that blends functionality with modern aesthetics, tailored to the client's needs.

Design Details

- **Architectural Elements:** Wooden wall paneling for warmth and texture
- **Focal Point:** The bed is framed by a backlit niche, adding depth and character
- **Lighting:** Layered lighting with spherical pendant lamps for ambient light, complemented by recessed ceiling lights for functionality

Design Vision

The main concept was to design a serene and welcoming retreat using a neutral and warm tones palette. Wood wall paneling added visual warmth and texture, enhancing the overall ambiance

Challenges and Solutions

Optimizing a Compact Space: Carefully designed the layout to maximize usable space without compromising comfort or aesthetics

Outcome

The result is a harmonious blend of functionality and aesthetics, with a calming ambiance that adapts to the user's needs. The thoughtful use of lighting and materials creates a retreat that feels intimate and spacious, offering comfort and style in equal measure.

HOLGUIN BATHROOM DESIGN

Project Overview.

This bathroom design blends natural materials and warm lighting to transform a utilitarian area into a daily personal retreat, seamlessly merging beauty with practicality.

Concept and Design Approach.

The design emphasizes:

- Extensive use of natural materials, primarily wood
- Warm, strategically placed lighting
- Distribution maximizes function and aesthetics
- Discreet yet accessible storage solutions

Design Elements.

Color Palette and Materials:

Warm wood tones create coziness, complemented by white and beige fixtures. The matte black accents add sophistication.

Design Details.

- Lighting in niches and under furniture for ambiance
- Countertop sink on a wooden vanity with storage
- Spacious shower with a glass partition
- Wooden wall paneling for texture
- Circular mirror with integrated lighting
- Plants and decorative elements for a natural touch

“DOUCE PARIS” CAFETERIA

Overview

The "Douce Paris" design seamlessly blends Parisian charm with modern elements to create a cozy, romantic café atmosphere. The goal is to maximize functionality while reinforcing brand identity, immersing customers in a unique experience through distinct areas that enhance their visit.

Design Details

1. Branding

- Prominent "Douce Paris" logo inside and out
- Use of plants, flowers, and gold accents
- Mural art and Parisian photos to emphasize the theme

2. Color Palette and Material

- Warm neutrals (white, beige, light wood) with soft pink and gold accents for sophistication
- Wood, marble, and textiles to add warmth and texture

3. Lighting:

Warm ambient lighting complemented by art deco-inspired wall lamps.

4. Layout and Functional Areas:

- **Counter Area:** Marble counter with displays and an arched mirror
- **Seating Areas:** Lounge seating, café tables, and a cozy reading nook
- **Outdoor Terrace:** Pastel tables with flower planters for a Parisian vibe

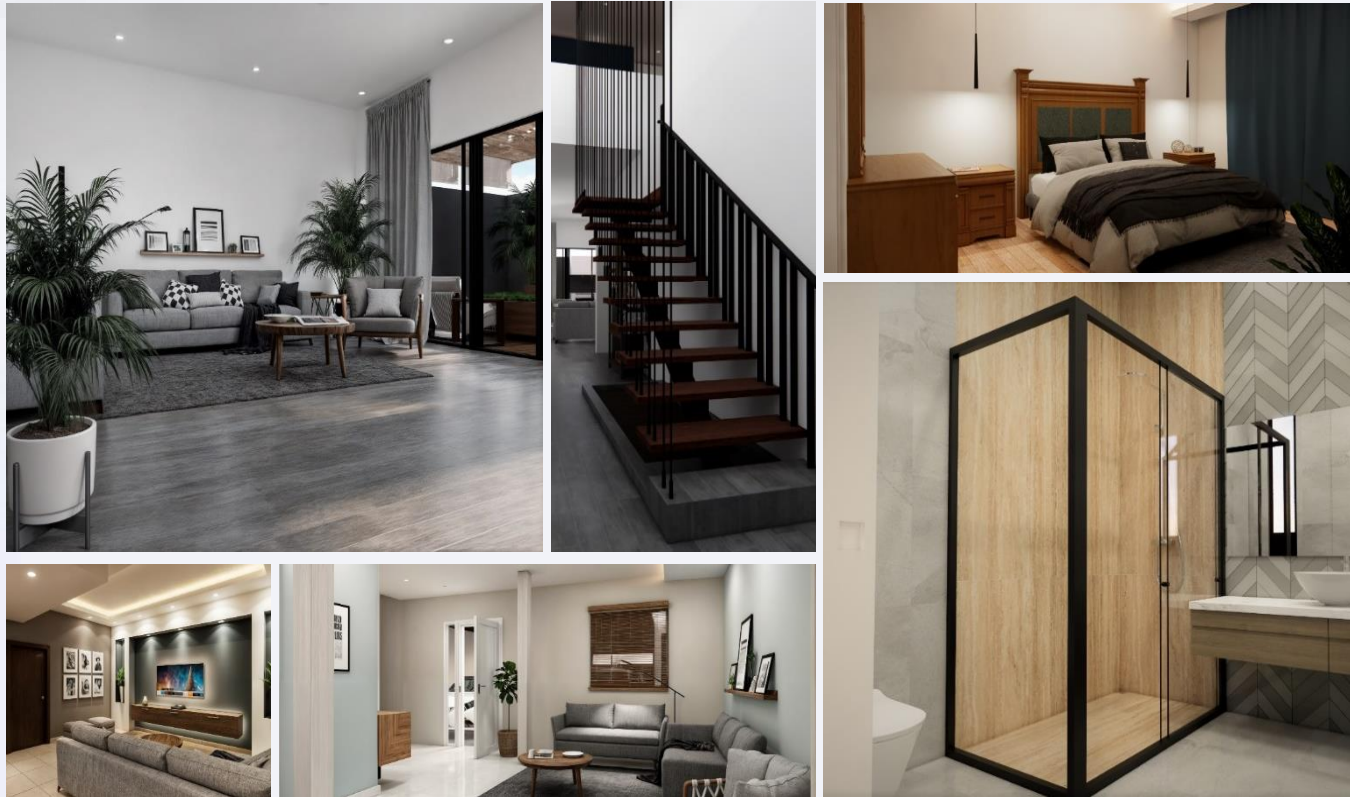

Challenges and Solutions:

Space Optimization: Added a second level to increase capacity while maintaining comfort

Diverse Ambiances: Created varied areas from social to intimate

OTHER WORKS FOR DIVERSE CLIENTS

Project Highlights

Other notable projects I've made:

- A luxury residential proposal (façade, patio, staircase, living room, kitchen, dining room)
- Two room and façade renovations
- Three living room remodels
- A bathroom makeover
- A patio redesign

Design Vision

These projects transform everyday spaces into modern, inviting environments by maximizing functionality and aesthetics while maintaining elegance, focusing on living rooms, bathrooms, and bedrooms.

Challenges and Solutions

Key challenges involved adapting designs to client needs and existing structures, often using glass partitions and custom furniture. For the luxury proposal, the challenge was blending modern design with local architectural styles.

Design Impact

The projects achieve a balance of modern design, comfort, and functionality. Renovated spaces are warm and elegant, while the luxury proposal showcases contemporary architecture with high-quality materials and thoughtful details.

Advanced AI in Image Design

My expertise in AI-driven image creation and editing allows me to efficiently generate, refine, explore stylistic variations, add or remove objects or people, or upscale images, offering a wide range of design possibilities and detailed visualizations.

1. AI-Driven Image Generation

I specialize in generating high-quality images from textual descriptions leveraging tools like Stable Diffusion and Flux. These advanced tools are used within Krita (akin to Photoshop). I can create detailed visuals from initial concepts, allowing for rapid prototyping and visualization of design ideas.

2. Upscaling and Refinement

By integrating AI-powered tools in Krita, I can take sketches and convert them to renderings or enhance some renderings to produce high-resolution, polished images. This process ensures that even preliminary concepts evolve into refined visual representations that faithfully convey the design's intent.

3. Stylistic and Functional Variations

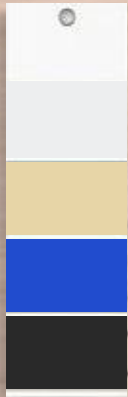

Using these tools, I can select specific elements or entire images to explore various styles, decorations, or furniture arrangements. This enables the presentation of multiple design alternatives, enhancing the decision-making process and client interaction.

4. Image Expansion and Modification

With the latest AI-driven technologies, I can expand images by adding new elements or reconfiguring existing ones. Whether it's adjusting composition or integrating new details, these capabilities ensure that the final images are precisely tailored to meet project needs.

THE PORTFOLIO PROJECT

Portfolio Overview

This portfolio is a meticulously crafted project designed to deliver a standout visual experience, featuring mockup-style photomontages that bring each design to life.

Development Process

Research: Analyzed exemplary works to draw inspiration and identify standout elements.

Concept & Planning: Built a cohesive narrative across slides, simulating a journey through residential spaces, focusing on interior design. Design Refinement: Developed multiple ideas for the logo and overall aesthetic, ensuring a polished final look.

Branding & Visual Identity

Created a unified brand identity using a carefully curated color and material palette that reflects values of trust and professionalism. Designed a minimalist logo based on geometric forms, reinforcing a modern and recognizable image.

Each slide contributes to a flowing, cohesive story, visually representing the progression of a home, with a focus on residential interior design.

Technology Integration

Leveraged advanced AI tools for image creation and editing to ensure consistency and a modern, high-quality portfolio.

FINAL THOUGHTS

Crafting Spaces with Purpose and Emotion

This portfolio reflects my passion for creating spaces that blend functionality, elegance, and emotional depth.

From luxury homes to intimate funeral chapels, my focus has always been on meeting the unique needs of each space and the people who interact with it.

Every project here demonstrates my commitment to merging beauty with practicality, always considering how a space feels and functions.

Whether transforming everyday rooms into refined retreats or seamlessly integrating modern design into existing structures, my goal is to craft timeless, comfortable, and meaningful environments.

As I continue to grow as an architect and interior designer, I'm excited to take on new challenges and deliver creative, thoughtful solutions for each new project.
