Projects

Modern Small House Design – Sustainable & Space-Optimized Architecture (Link)

- Designed an energy-efficient 1200 sq. ft. modern house with optimized space utilization.
- Integrated sustainable solutions like solar panels, rainwater harvesting, and eco-friendly materials.
- Developed structural, electrical, and plumbing plans ensuring safety and compliance with regulations.
- Utilized AutoCAD, Revit, and SAP2000 for architectural drawings and structural analysis.

Certificates

•	July 2024
AutoCAD Essentials course for complete beginners (sourcecad.com)	Feb - 2025
Essentials of Fire Safety Inspection (The Knights of Safety)	Apr - 2025
Health and Safety Induction (The Knights of Safety)	Apr - 2025
The Impact of Climate Change and Heat Stress on Occupational Health and Safety (NEBOSH)	
The COSHH Manger Certification (The Knights of Safety)	May-2025
Personal Protective Equipment	
ISO 45001:201 Occupational Health & Safety Management System	May-2025
Digital Marketing, Hobspot Academy	Jun - 2024
Data Visualization with PowerBI, Udemty	Jun - 2024
Data Manipulation with Python, Udemy	Aug - 2024
Public Speaking, Udemy	Aug - 2024
Certificate of Appreciation, NIC Swat	Jun - 2024

Bootcamps

• **B.E.S.T Build Entrepreneurship Skill Training,** Red International	Mar 2024
