JANARA FISH MARKET

Aim: Designing the interior of a fish emporium to make the space appealing for the first party, second party and third party users.

Objectives: Zoning the spaces according to the activities and de- mand of the users Design with an efficient circulation. Incorporate a suitable drainage system, ventilation system and weather considerable design.'

JANARA FISH MARKET

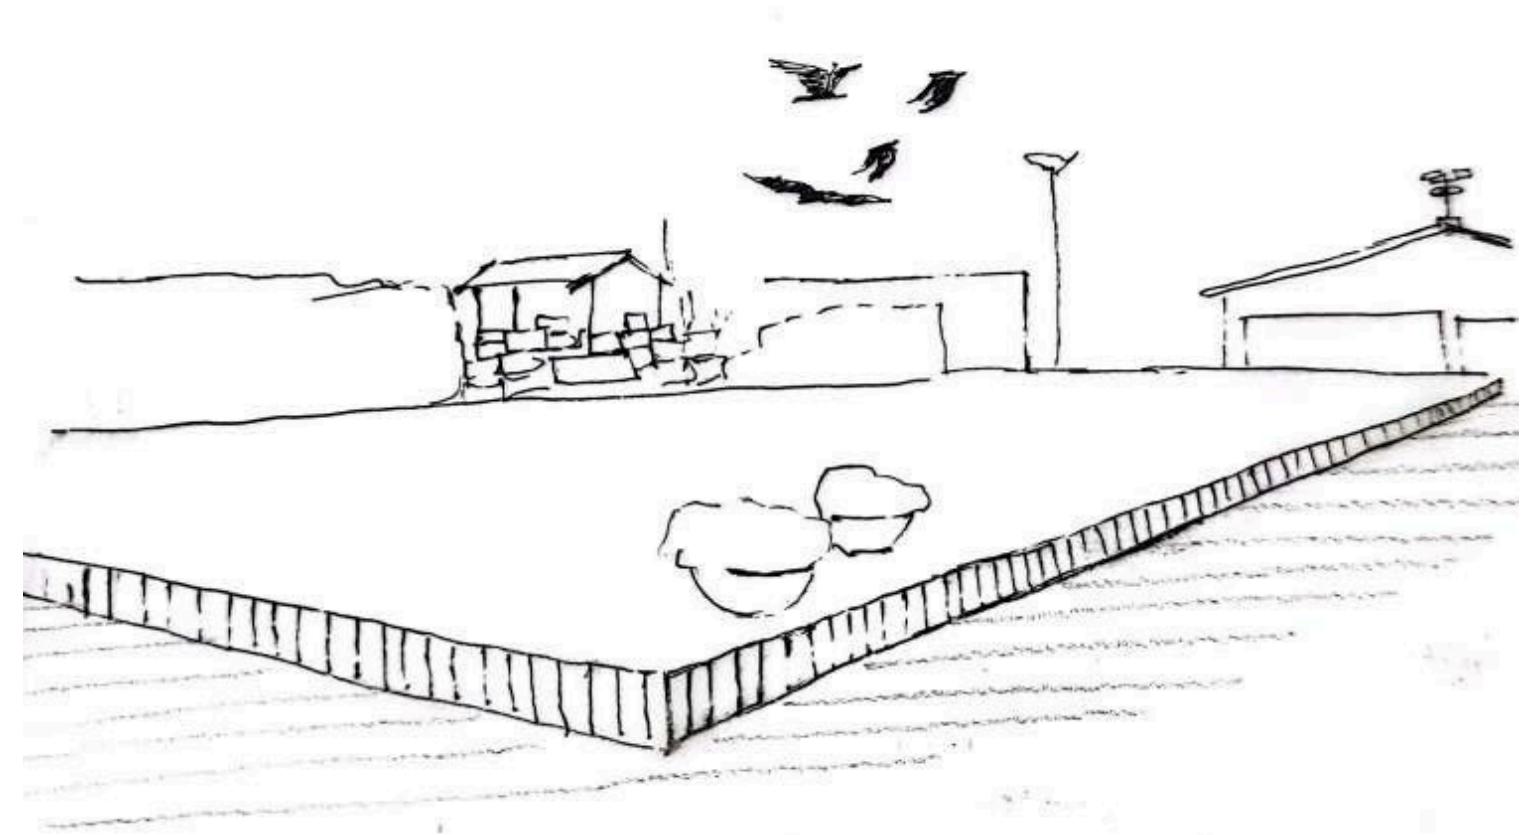

SITE ANALYSIS

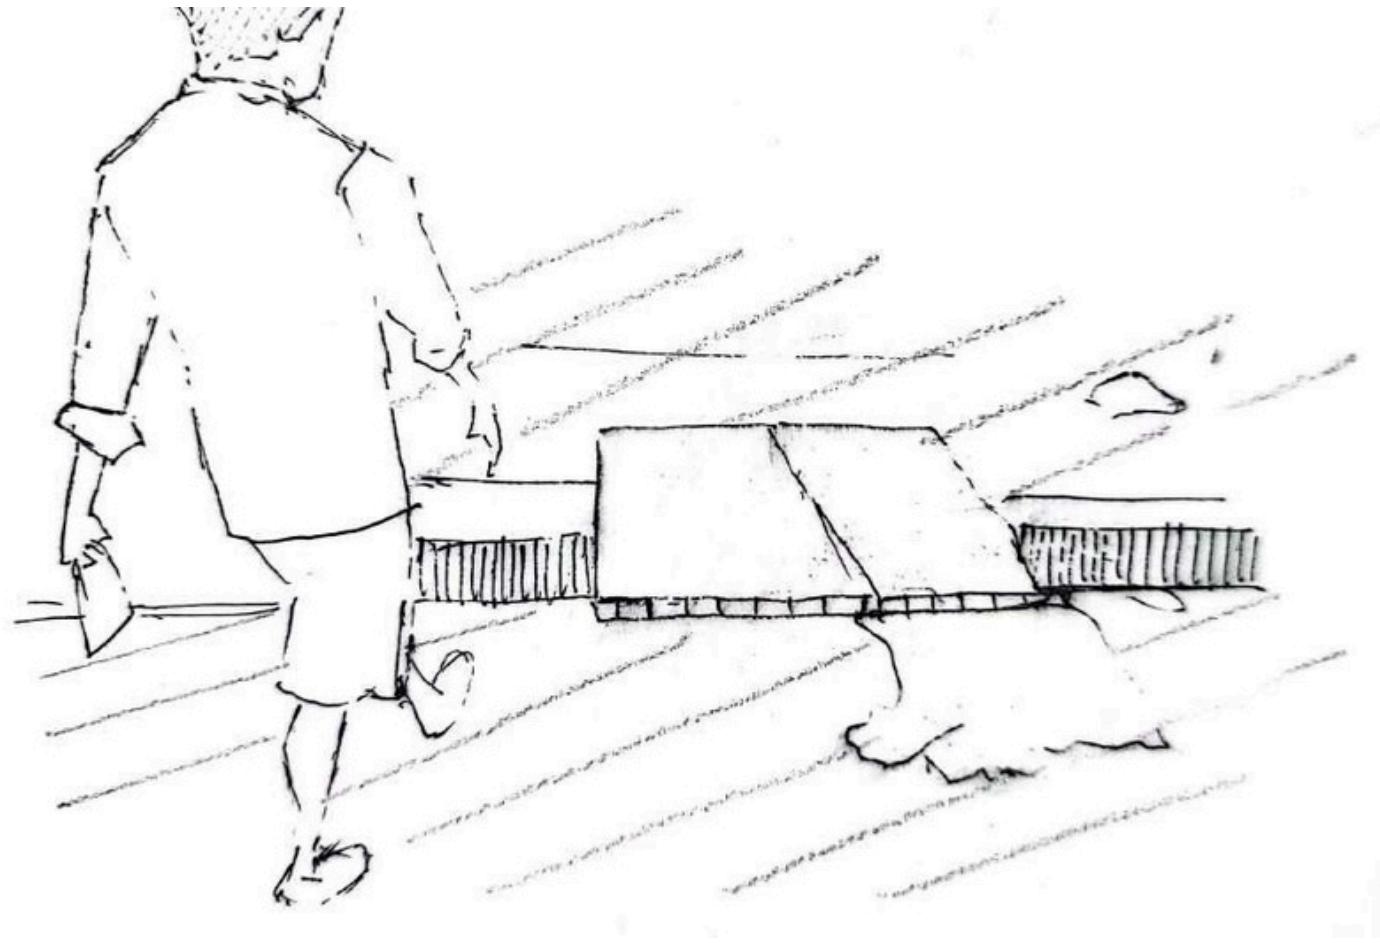

FISH MARKET INTERIOR

The fish sellers spread the fish on the floor and sits next to it along the stangnant water

FISH DRYING AREA

The area does not have a boundary and the fishes are often picked up by street dogs and birds.

LOADING AND UNLOADING AREA

Open drainage channel with stagnant water can effect the air quality

FISH MARKET EXTERIOR

The waste water from the crates gives the space an unbearable odour.

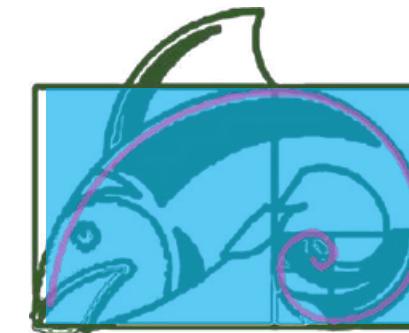

Golden Ratio for structure of the logo

Local language, meaning "People's"

The space is mentioned

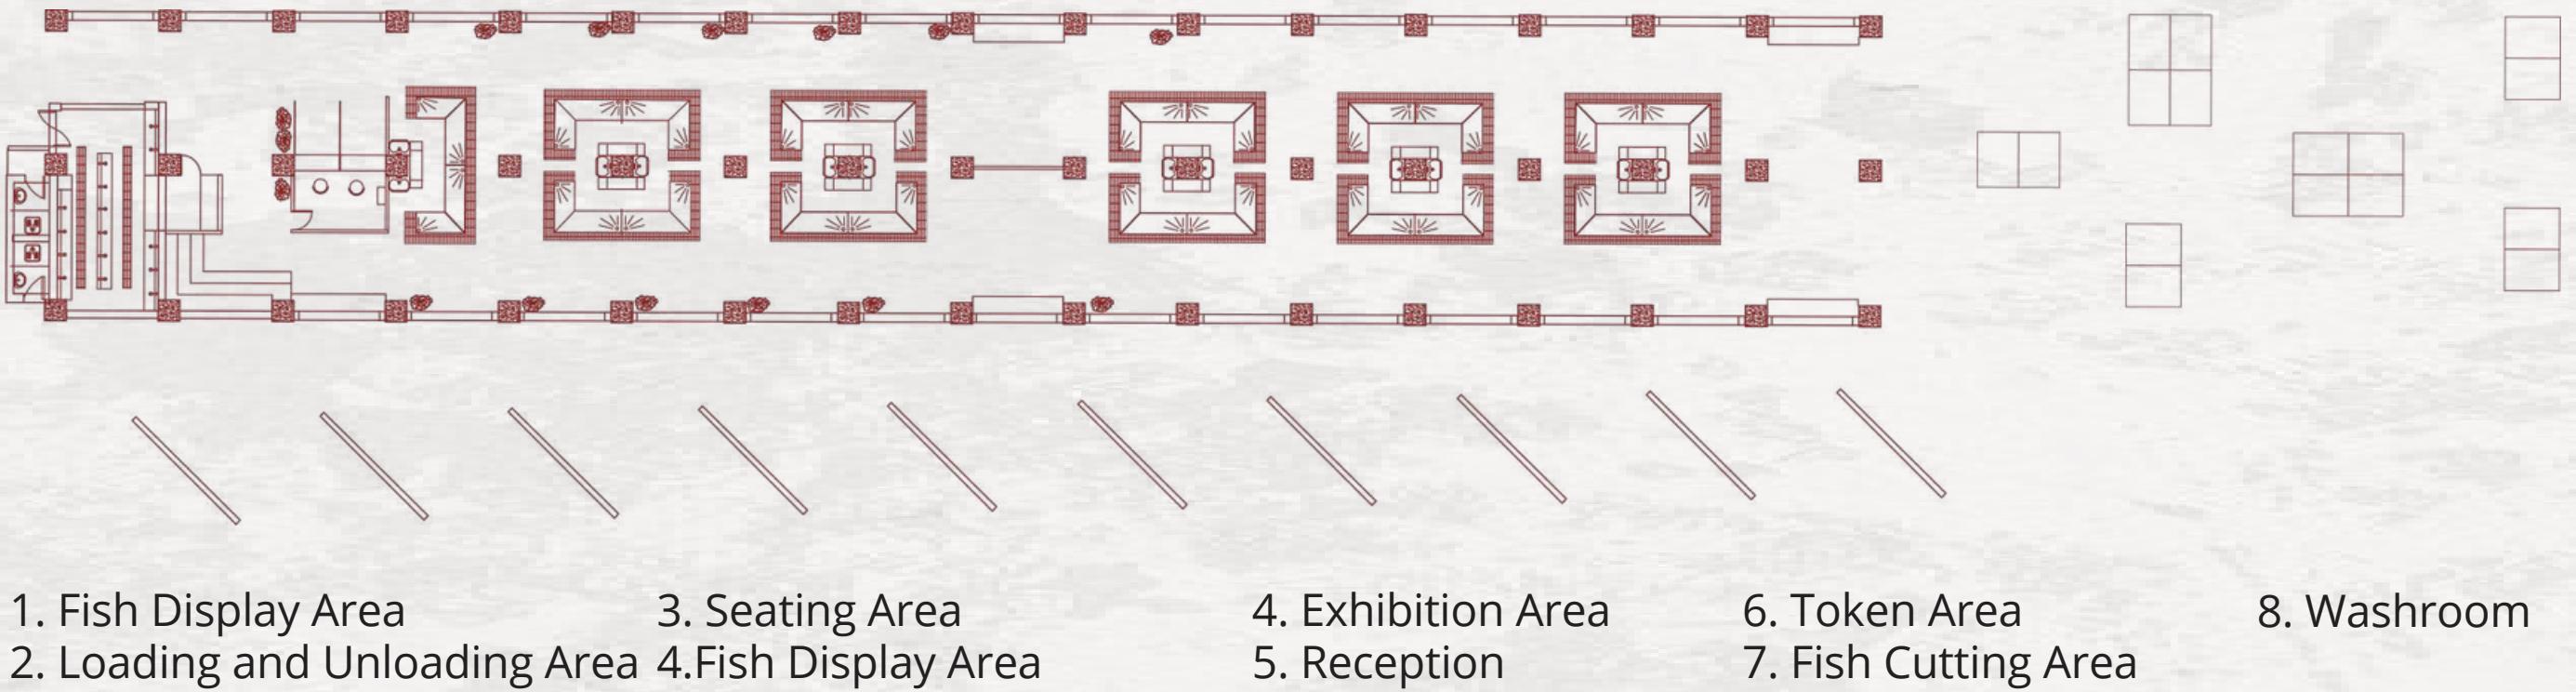

The sold product is emphasized and defined in a simplified way

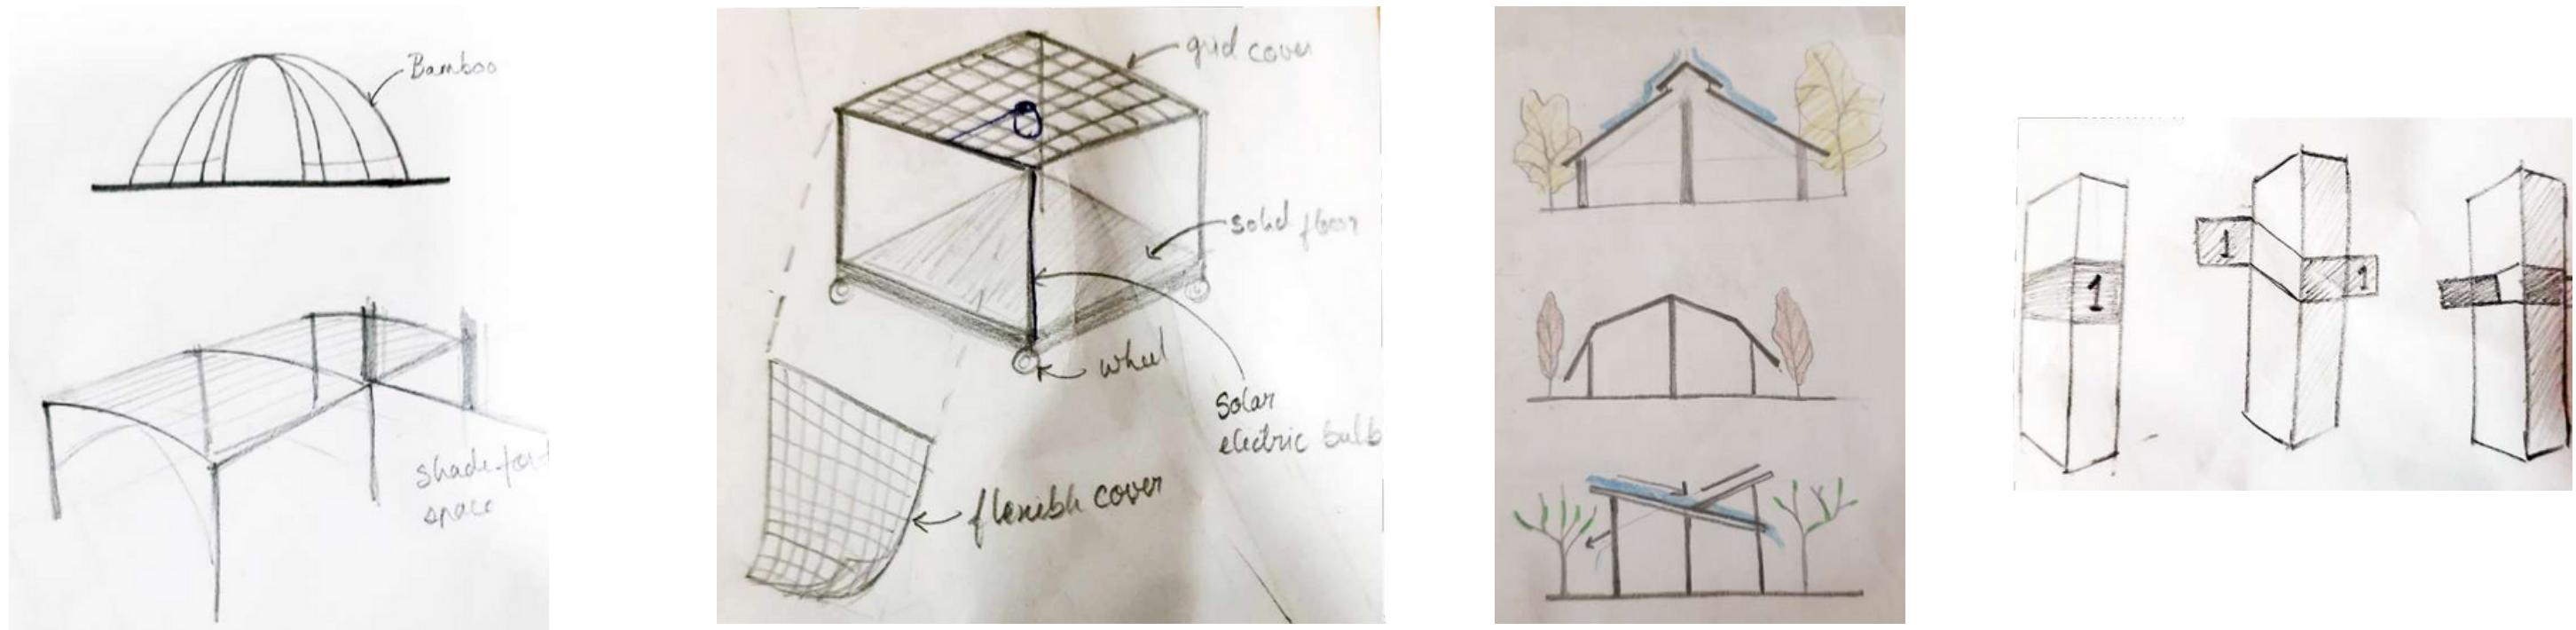

Blue colour gives connection to sea

SCOTSTOUNHILL RAILWAY STATION

KEYWORDS

- Playful
- Memorable
- Enthusiastic

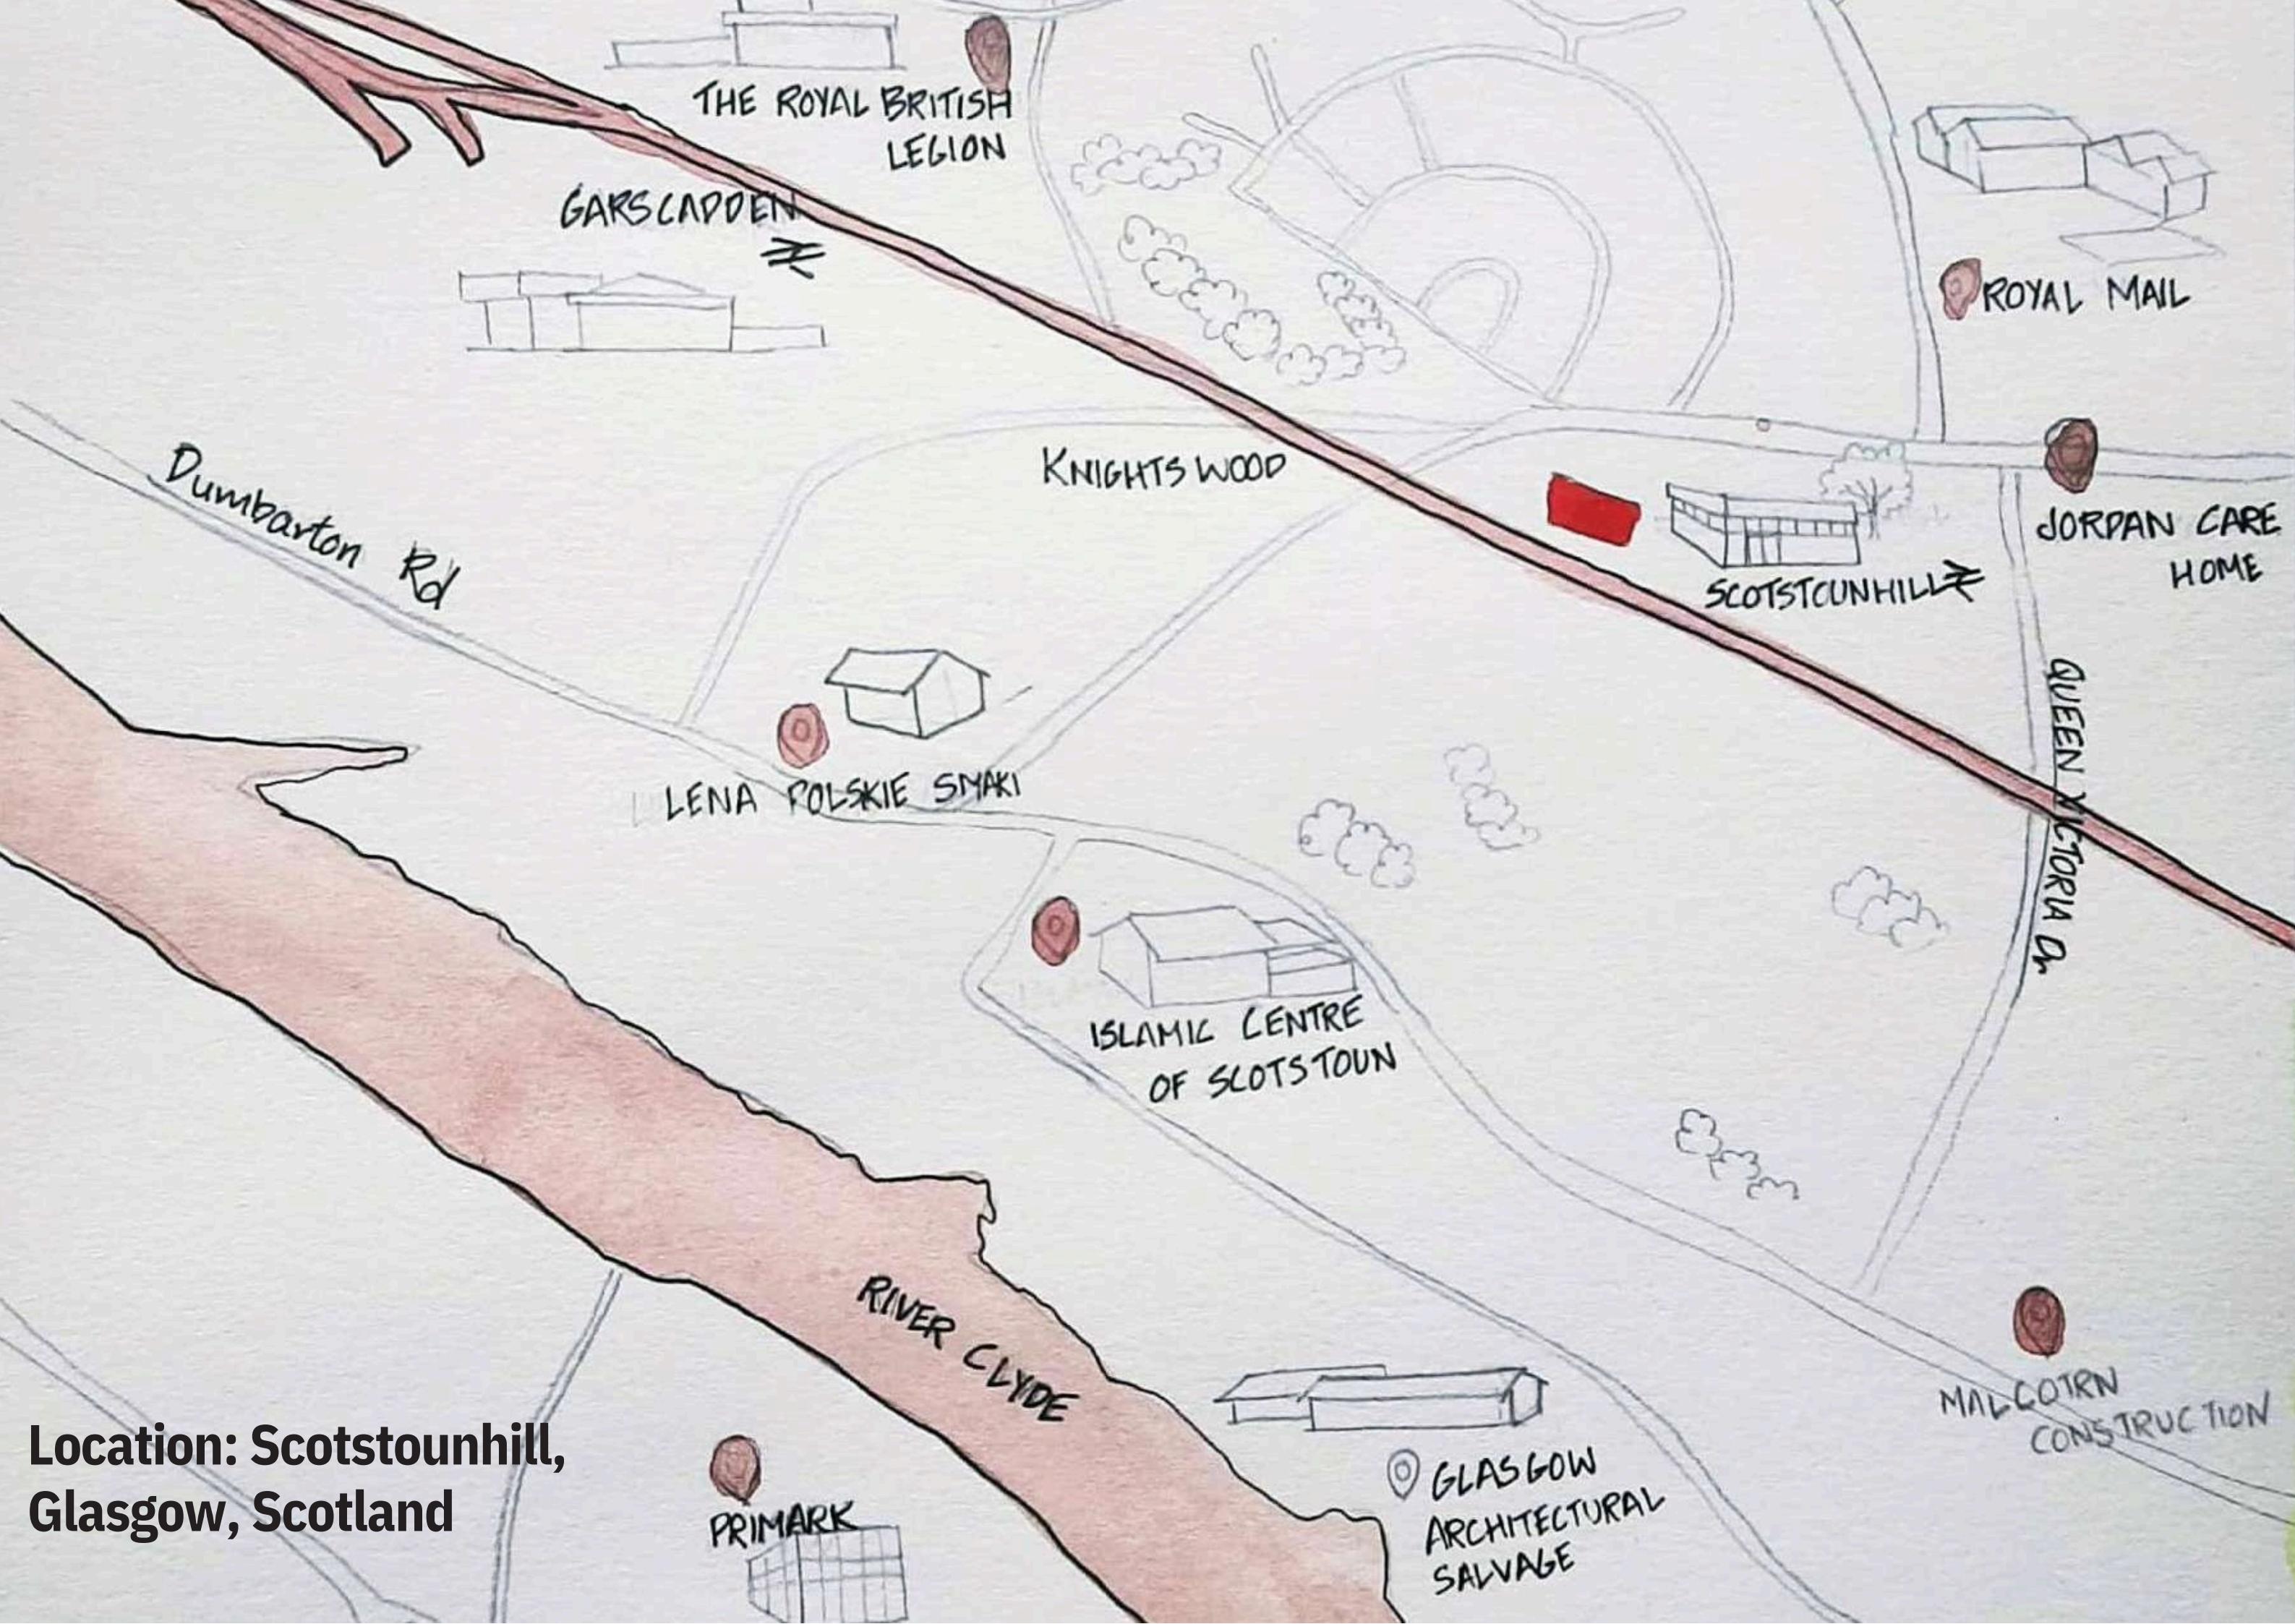

Nutritional Value: At present, by analyzing the food habits of the people in Scotland, it can be understood that the food is high in calorie and includes less fruits and vegetables. Considering these factors, Egg is a food which can be included in the meal.

GREEN ROOTS

SCOUTSTOUNHILL
RAILWAY STATION

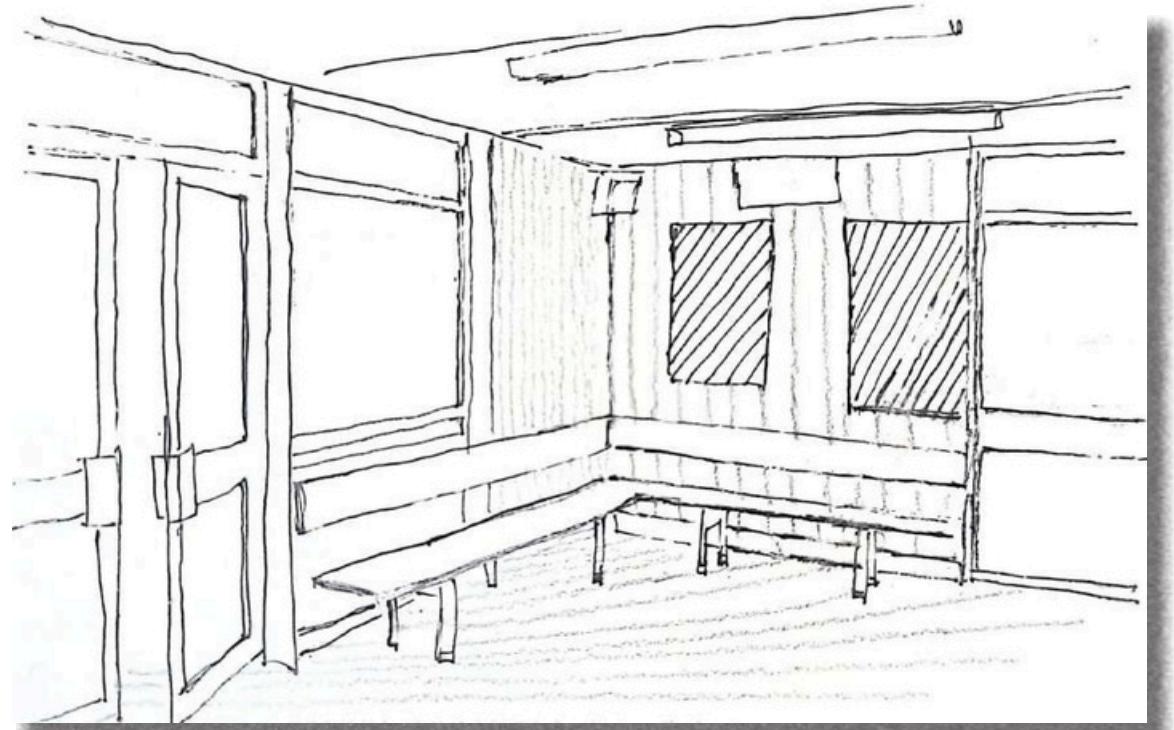

**Location: Scotstounhill,
Glasgow, Scotland**

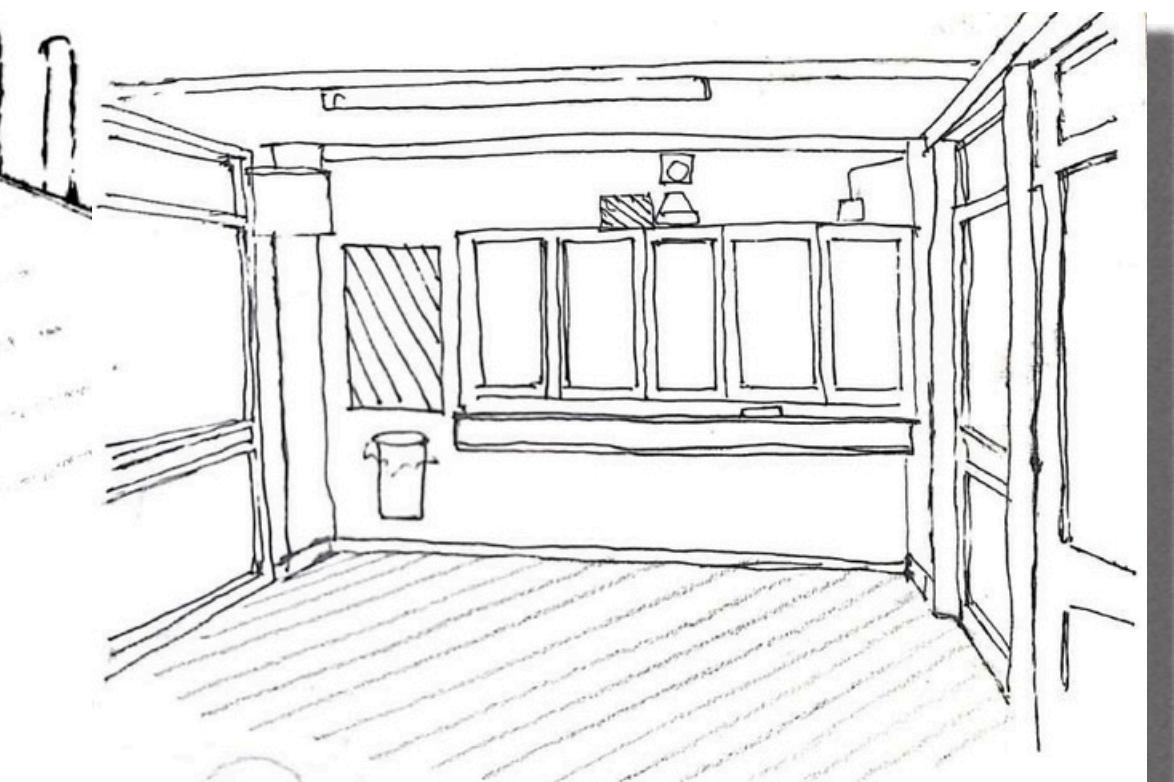

SITE ANALYSIS

The main door would be difficult to be accessed by people with disability

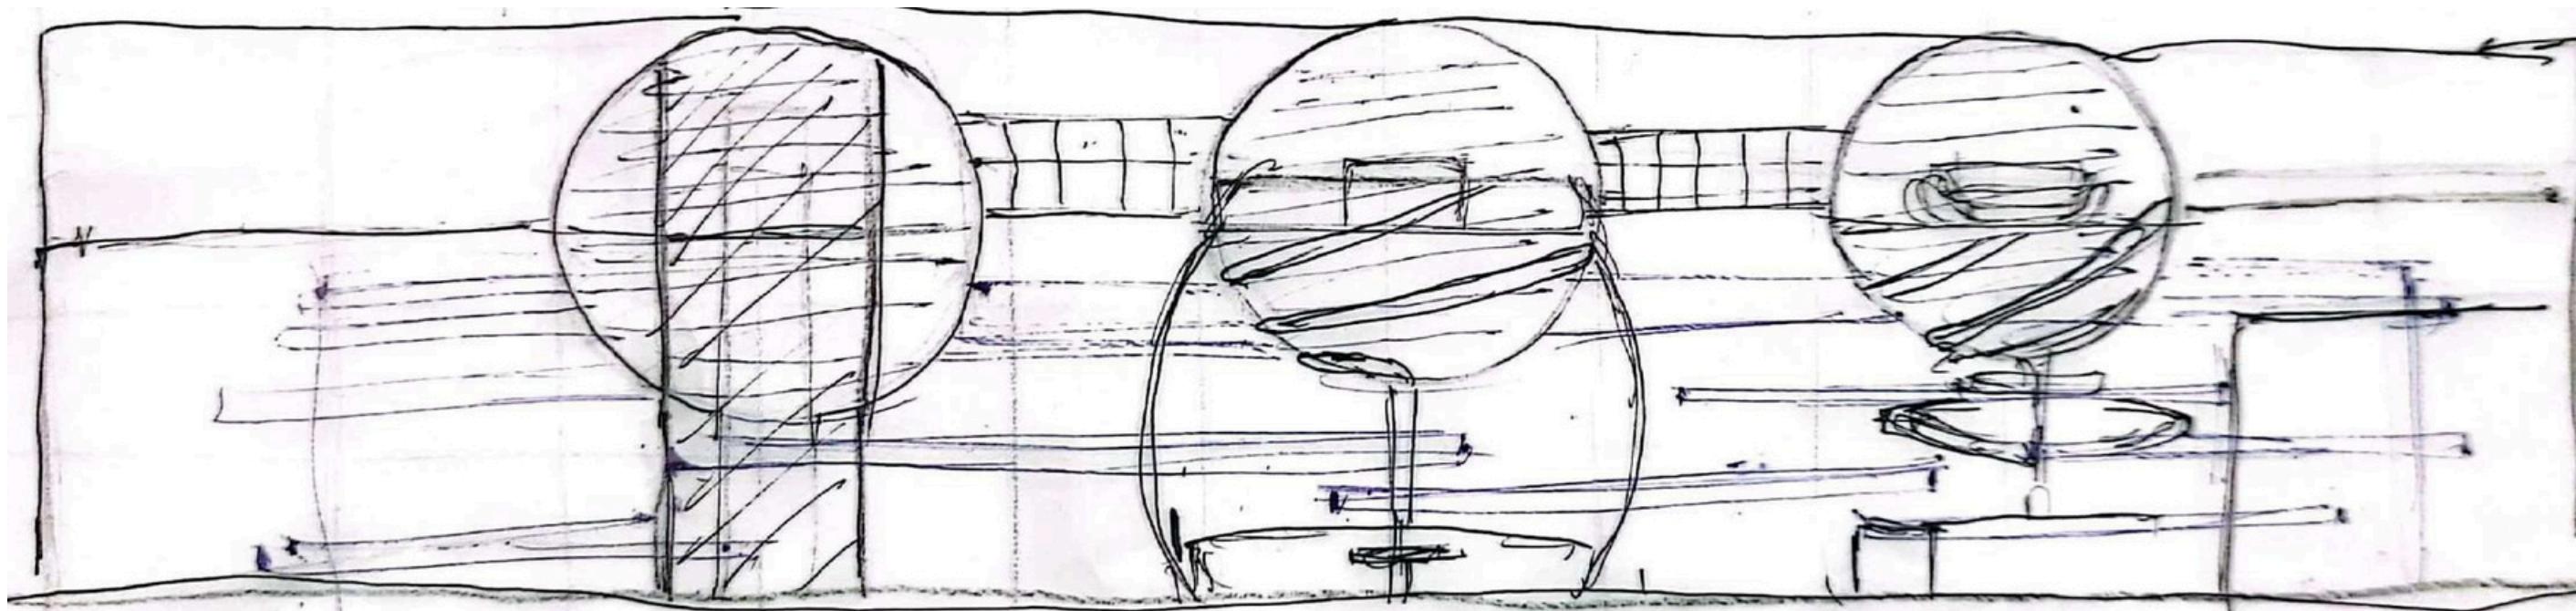

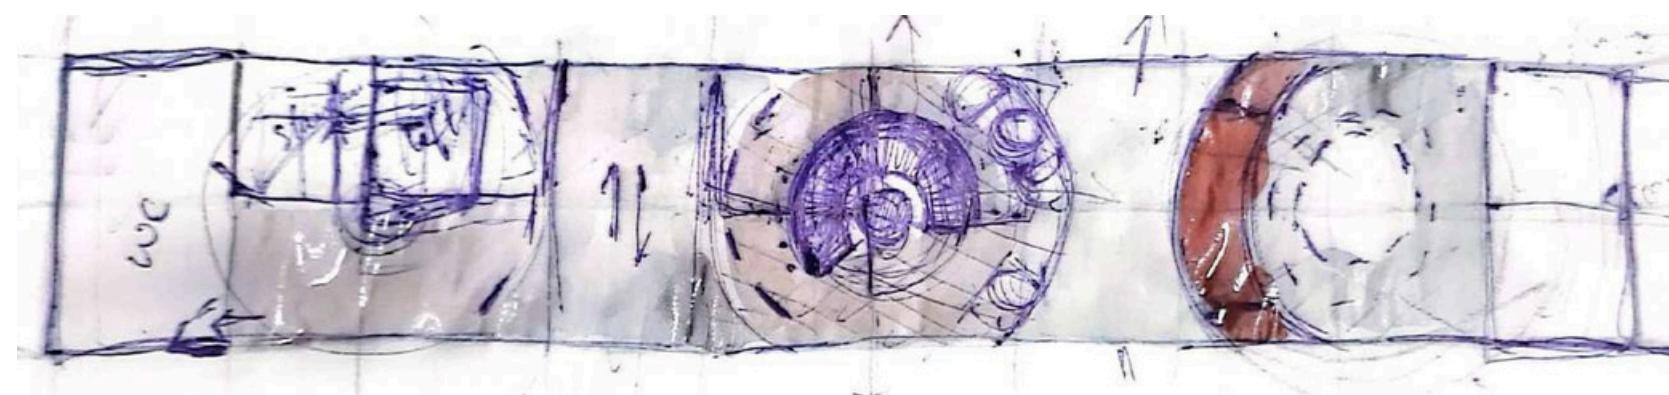

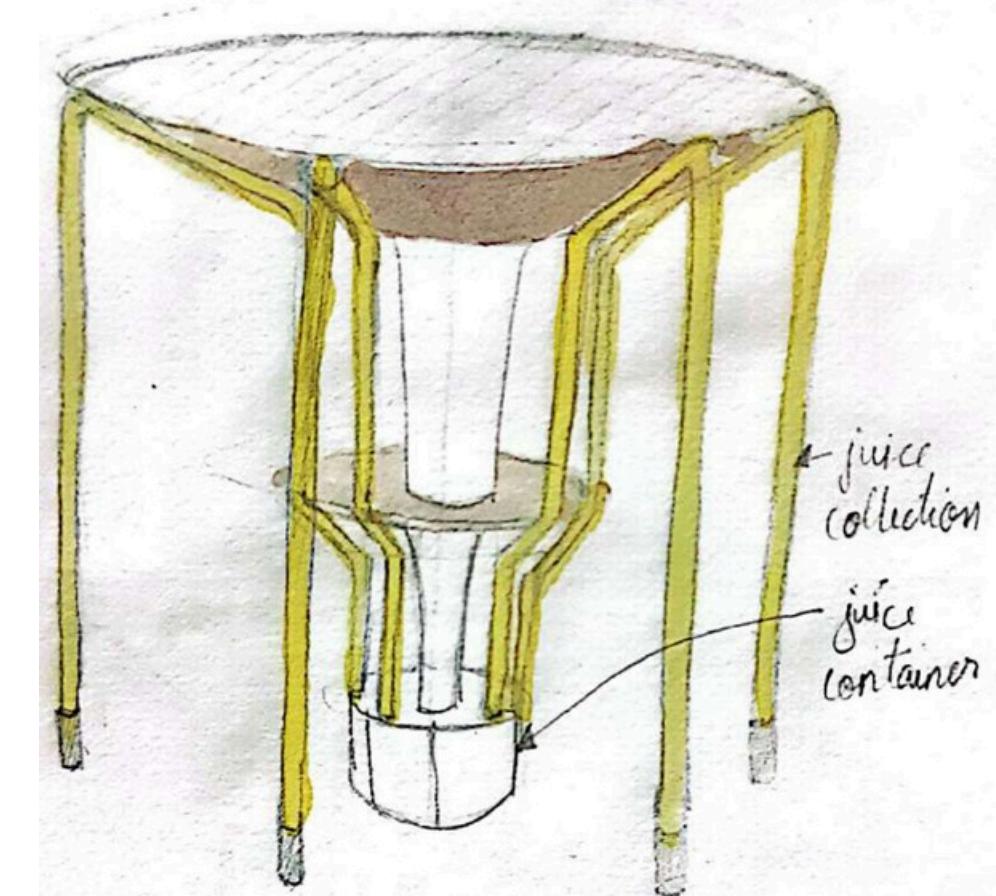

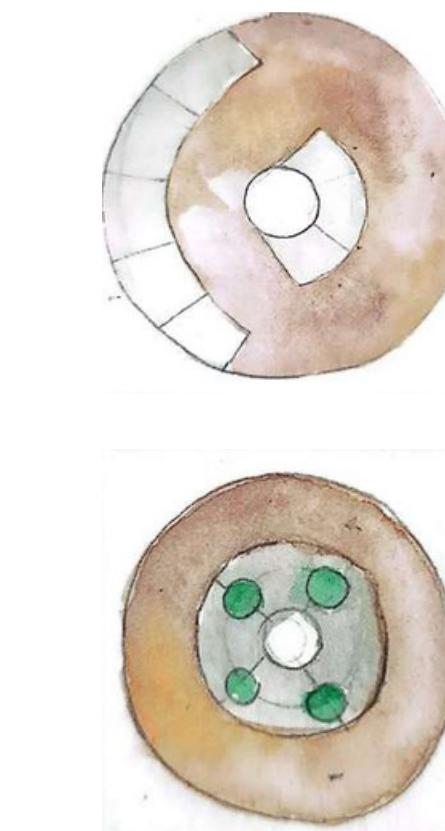

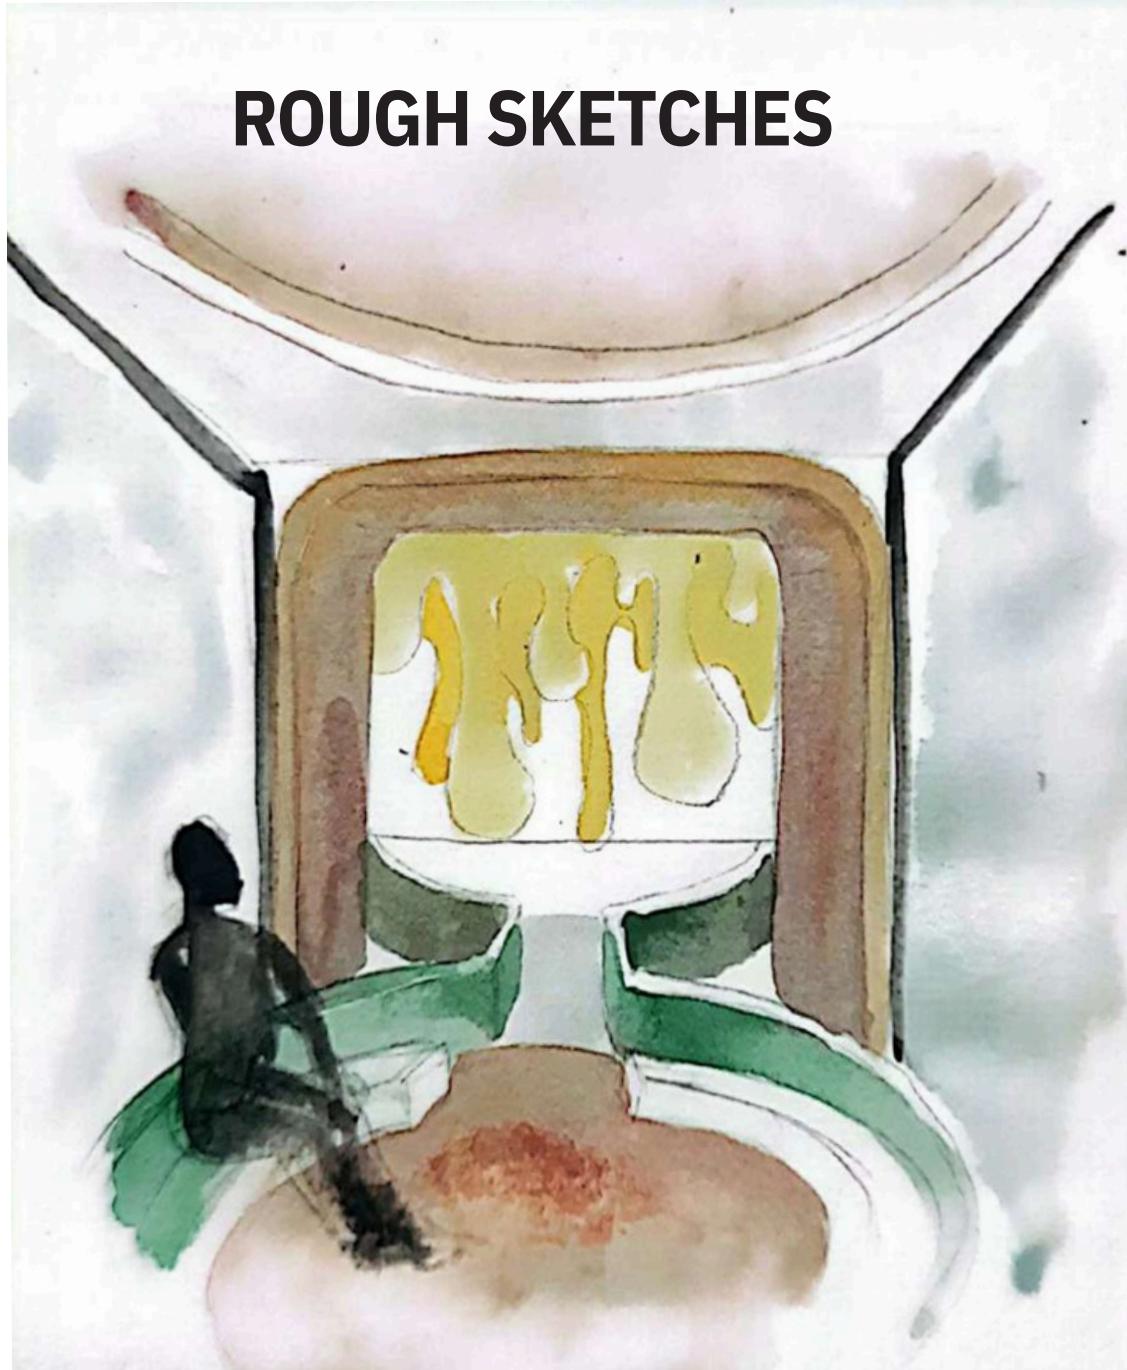

The walls are cluttered with advertisements and the space does not feel inviting

The area has a massive ticket counter which takes up the majority of the space of the station.
