HEARST ELEMENTARY LIBRARY

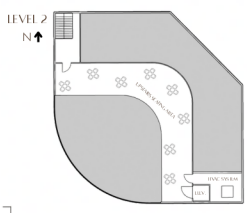

A school that stands at the heart of a community, binding the neighborhood together with its rolling hills and vibrant, welcoming atmosphere. At its core is the library, students gather here to learn, imagine, and explore. Bright playful colors were used to spark creativity, while a thoughtful blend of indoor and outdoor spaces strengthens the connection between students and the world around them. Here, learning extends beyond the classroom, weaving seamlessly into the. life of the community itself.

SERENE

A sanctuary in the heart of San Diego, Serene is a place where people can come to unwind, and reconnect with themselves. I've designed a luxury gym and physical therapy space tat balances elegance, comfort and functionality, elevating the clients experience. Rooted in the belief that the mind and body are deeply connected, this space uses intentional design that supports both. Every detail has a purpose, every room is curated to encourage mindfulness, movement, and rest. Serene is more than a place to train and recovery, it is a place to fell better, not just function better

THE DRIFTWOOD

Perched atop the breathtaking views of La Jolla, California, The Driftwood is an old, rustic, ship-inspired library that seamlessly blends the local heritage with a refined contemporary style. The exterior embraces a clean, modern aesthetic using a soft limestone, sun washed materials, and crips exterior lines that mimic the serenity of the shoreline. In contrast the interior invites guests into a warm, intimate sanctuary. Rich, moody woods, weathered textures, and deep, earthy hues invoke the feeling of stepping into a timeless vessel by the sea. Soft lighting, tactile materials, and subtle nautical details create a layered, immersive atmosphere where history and modernity coexist in harmony. The Driftwood isn't just a library, it is a thoughtfully curated experience, celebrating the character of La Jolla.
