PROFILE

Architect specializing in interior design and technical detailing, with solid experience in managing projects from the conceptual phase to final execution. Specialist in 3D modeling and photorealistic visualization, with excellent skills in coordinating technical plans (electrical, plumbing, furniture) to ensure precise on-site implementation. Passionate about functional design and contemporary aesthetics.

WORK EXPERIENCE

Burrja Design OCTOBER 2023 - JANUARY 2026
Architect / Interior Designer

- Project Development:** Leading the design process for residential and commercial projects, including on-site measurements and architectural concept development.
- Technical Detailing (Construction Drawings):** Full execution of technical dossiers: furniture layouts, electrical and plumbing schemes, material specifications, and construction details.
- Visualization & Post-Production:** Advanced 3D modeling and photorealistic rendering, utilizing Photoshop for final image post-processing.
- Presentation & Documentation:** Preparing presentation packages for clients and technical documentation for the construction process.

Kontakt Shpk JANUARY 2022 - NOVEMBER 2022
Interior Designer

- Concept & Furnishing:** Collaborated on developing functional solutions for interior spaces, focusing on modern aesthetics and efficient space planning.
- Technical Assistance:** Supported the technical office with 2D drafting and material coordination for large-scale residential complexes.

EDUCATION

European University of Tirana (UET) 2019 - 2024

- Master of Science in Architecture (Integrated Program, 5 years)
- Thesis Project: Designing a Tourist Resort in Byshek, Shushicë (A comprehensive study of macro-scale urban planning and micro-scale interior detailing).
